HERITAGE NUMISMATIC AUCTIONS INC.

Dear Fellow Numismatist:

It is 1995 and Heritage Numismatic Auctions, Inc. is delighted to present another superb Long Beach auction. With its expanded convention center facility, the Long Beach Numismatic and Philatelic Convention is the meeting that all other conventions wish to emulate. No other convention, save the A.N.A., draws the attendance of Long Beach. The auction, the bourse, the seminars and the club meetings help create a positive atmosphere throughout the convention.

And what an auction we have for you! If you are planning to bid by mail, be assertive for there are some absolutely fabulous coins in the sale. They won't be cheap, and remember, you'll be bidding against 350 to 400 registered floor bidders. If you need more information about a specific offering, just call one of our three cataloguers: Mark Van Winkle, Jim Jones, or Greg Lauderdale. These gentlemen catalogued the sale and they are totally familiar with the coins.

On a budget? Then, use our Compubid system. It allows you to bid on an infinite value yet limits your spending to the amount predetermined by you. Mail bidders usually buy 30% of our sales compared to 70% for floor bidders. Remember, if you bid \$1000 on a given lot, you only pay one increment above the second highest bid in order to win. For example, you bid \$1000 and the second highest bid is \$700. We would open the lot at \$750. If the floor fails to bid, you would win that lot at \$750. Should the floor bid \$800, we would bid \$850 on your behalf, and so on. Many fine collections have been built by auction mail bidding, but remember, a faint heart never wins the outstanding lots because the competition is just too keen.

If you are bidding in person, make sure you allow ample time to view the lots. Viewing is always crowded at Long Beach and there are many, many excellent lots to see. If you've seen any of our ads you are undoubtedly familiar with the three ultra rarities in this sale:

- The St. Oswald 1795 50¢ NGC MS65 -- Lot 5654
- The Flowing Hair 1880 \$4.00 Gold PR65 -- Lot 5837
- The 16 Stars 1796 50¢ PCGS EF45 -- Lot 5655

Of course, not everyone can afford one of these "wonder" coins, but I can tell you this, its fun just to see them! Fortunately, we have a phenomenol array of so-called "other" coins in this sale. Consider just this small sampling:

- | | |
|--------------------------------------|--|
| • Lot 5446 -- 1793 Chain 1¢ NGC EF45 | • Lot 5673 -- 1919-S 50¢ PCGS MS64 |
| • Lot 5451 -- 1794 1¢ PCGS AU50 | • Lot 5825 -- 1864 \$2 1/2 NGC PR65 |
| • Lot 5550 -- 1909 5¢ PCGS PR68 | • Lot 5826 -- 1884 \$2 1/2 NGC PR66 |
| • Lot 5567 -- 1795 1/2 10¢ NGC MS63 | • Lot 5836 -- 1864 \$3.00 PCGS PR65 |
| • Lot 5612 -- 1889 25¢ NGC MS68 | • Lot 5842 -- 1832 \$5.00 NGC PR64 |
| • Lot 5622 -- 1893 25¢ PCGS PR68 | • Lot 5864 -- 1876 \$5.00 NGC MS63 |
| • Lot 5659 -- 1815/2 50¢ PCGS MS64 | • Lot 5913 -- 1869-S \$10.00 PCGS MS60 |

But to really know this sale, you'll need to take some time and study this catalogue. Remember, every great auction occurs only once; you have only this opportunity, so don't procrastinate. Send us a bid sheet this week or make plans to come to Long Beach, for a great auction is about to begin.

Sincerely,

Bob Merrill
Director, Heritage Numismatic Auctions, Inc.

Type, Additional Multiple Lots, Additional Coins.....120-123

CompuBid™ gives you more “on-the-scene” bidding clout than you ever had before.

CompuBid™ is a people-to-people innovation that is, by far, the most advanced and helpful method of mail bidding available in the rare coin marketplace. No other auction company has anything that even compares with its simple sophistication and direct benefits to you.

It increases your chances of success.

CompuBid™ increases your chances of success over our standard mail bidding system and other conventional mail bidding systems in two ways: it increases your chances of bidding on more coins; it increases your chances of buying more of the coins you want.

It puts you where the action is.

The action is at the auction. And CompuBid™ puts you there. It gives you almost all the advantages of the people attending the auction. In fact, CompuBid™ gives you so much flexibility, it's as if you were attending the auction in person.

It maximizes your bidding dollars.

CompuBid™ enables you to bid on as many coins as you like, yet limit your total purchases to a specific amount. For example, you could bid on \$25,000 worth of coins, yet limit your total purchases to \$5,000. In this example, although you have the opportunity to bid on several coins that interest you, it is still possible to stay within your buying limits. This way, knowing that you have limited your bidding dollars to a specific amount, you can bid with more confidence and flexibility than ever before.

It evens the odds for you.

CompuBid™ equalizes your chances of bidding successfully against the bidders at the auction on the coins you want to buy. For example, assume you want to buy either a Seated dime for \$500 or a Seated quarter for \$950. You would bid on both coins in those amounts and place your bidding limit at \$950. If you bought the Seated dime for \$500, your bidding limit would be reduced to \$450 ($\$950 - \$500 = \450), which would be your new bid on the Seated quarter. However, if you did not buy the dime, then your bid of \$950 on the quarter would be accepted.

In another example, suppose you wanted to buy one gem proof Mercury dime for \$500. Assume there are three similar quality proof dimes in the sale, all with the same date and grade. You would bid \$500 on all three and limit your purchase to \$500. You would buy the first one to sell for \$500 (or less) and the other bids would be canceled.

It's a tested and proven success.

CompuBid™ has proven to be the most effective and useful auction mail bidding technique available. No other auction company has the advancements in mail bidding technology and documentation necessary to offer a service as important and historically significant as CompuBid™. In fact, CompuBid™ is so precise that Heritage Numismatic Auctions, Inc., unconditionally guarantees that you, the bidder, will not be liable for any purchase over your specific limit.

Mail Bidding At Auction

Mail bidding at auction is both fun and easy and only requires a few simple steps.

1. Look through the catalog, and determine the lots in which you have an interest.
2. Research the market value of these lots by checking price lists and other price guidelines.
3. Fill out your bid sheet, entering your maximum bid on each lot using your price research and your desire to own the lot (most coins at auction are one-of-a-kind, or are of special quality not normally found).

When bidding by mail, you frequently purchase coins at less than your maximum bid. Here is how a mail bid is recorded by our auctioneer:

Bids are recorded as they are received. Preference is given to the first bids received in case of a tie.

On the floor of the auction, bidding is opened at 5 to 10% above the second highest mail bid. This bid is submitted by our company acting on your behalf as the highest mail bidder. If the auctioneer recognizes no other bids from the floor, you are awarded the lot at the opening bid. If bidding proceeds from the floor, the company, acting as your agent,

registers bids in 5 to 10% increments over the previous bid. This process is continued until you are awarded the lot, or until the next bid is higher or equal to your maximum bid.

An example of this procedure is set forth under these conditions:

On lot 25, you submit a bid of \$100, and the second highest mail bid is at \$50. In this case, bidding on the floor starts at \$55, and is bid by our company on your behalf. If no other bids are submitted by the floor, you purchased the lot for \$55 even though you bid \$100. If other bids come from the floor, we bid for you in 5-10% increments, as set by the auctioneer, until we reach your maximum bid of \$100. If bidding has passed or equaled your maximum, we take no other action, and the bidding continues on the floor until the final bidder has been recognized by the auctioneer.

The official prices realized list that accompanies our auction catalogs is reserved for bidders and consignors only. We are happy to mail others one upon receipt of \$1.00. Written requests should be directed to Bronwen Krummrich.

7. Fax Your Bid Sheet

When time is short submit a Mail Bid Sheet on our exclusive CompuBid™ Fax Hotline. There's no faster method to get your bids to us *instantly*. Simply use the Heritage Fax Hotline number 214-520-6968.

1. Name, Address, City, State, Zip

Your address is needed to mail your purchases. We need your telephone number to communicate any problems or changes that may affect your bids.

2. References

If you have not established credit with us from previous auctions, you must send a 25% deposit, or list coin dealers with whom you have credit established.

3. Lot Numbers and Bids

List all lots you desire to purchase. On the reverse are additional columns, you may also use another sheet. Under "Amount" enter the maximum you would pay for that lot (whole dollar amounts only). We will purchase the coin(s) for you as much below your bids as possible.

4. Total Bid Sheet

Add up all bids and list that total in the appropriate box.

5. Indicate Your Limit

After you have totalled your bid sheet, determine how much you can budget to spend. Check the box for CompuBid™, and list your spending limit.

6. Sign Your Bid Sheet

By signing the bid sheet, you have agreed to abide by the Terms of Sale listed in the auction catalog.

Terms and Conditions of Sale

1. This is a public auction and mail-bid sale held by Heritage Numismatic Auctions, Inc. a licensed and bonded auctioneer (the "Auctioneer"). **ALTHOUGH THE AUCTIONEER MAY NOT WITHDRAW ANY LOT AFTER A CALL FOR BIDS HAS BEEN MADE WITH RESPECT TO THAT LOT, THE CONSIGNOR OF THE PROPERTY INCLUDED IN THE LOT MAY BID ON AND PURCHASE THE LOT AT THE AUCTION SALE FOR HIS OWN ACCOUNT.** Notice of the consignor's liberty to bid is hereby made in accordance with Article 2 of the Texas Uniform Commercial Code. The purchase of a lot by consignor's bid shall obligate such consignor or pay a fee to the auctioneer.
2. The highest bidder acknowledged by Auctioneer shall be the buyer. In the event of any dispute between bidders, the Auctioneer may at his sole discretion immediately put the lot up for sale again. The Auctioneer's decision shall be final and binding upon all bidders.
3. A buyer's premium equal to 10% of the successful bid price will be added to each invoice, unless the purchase is made by a consignor's bid on the consignor's property in which case a separate fee may be added. The premium and the fee are payable by the buyer as part of the total purchase price.
4. All bids are to be per lot as numbered in this catalog, and no lots will be broken. The Auctioneer reserves the right to group two or more lots together and to withdraw, prior to a call for bids, any lot or lots from the sale. Bids will be accepted in whole dollar amounts only.
5. All sales are strictly for cash in United States dollars (no credit cards accepted) and are due and payable immediately upon receipt of the auction invoice or if payment is to be made at the auction sale, simultaneously with receipt of the coins. **THE AUCTIONEER RESERVES THE RIGHT TO VOID A SALE IF PAYMENT IN FULL OF THE INVOICE IS NOT RECEIVED BY THE AUCTIONEER WITHIN 15 DAYS AFTER THE DATE OF THE INVOICE.** Lots delivered in the States of Texas and California are subject to all applicable state and local taxes, unless appropriate permits are on file with us. Shipping, handling, and transit insurance charges will be added to invoices for the lots delivered by mail. Overseas buyers must furnish their own insurance during shipment.
6. If the auction invoice(s) submitted by the Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law until paid, and if the Auctioneer refers the invoice(s) to an attorney for collection, the buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by the auctioneer, including reimbursement for the time spent by attorneys employed by Auctioneer or its affiliates in the collecting of the debt, at a rate comparable to the hourly rate of independent attorneys. The courts of Dallas County, Texas shall have exclusive jurisdiction and venue over any suit initiated by the Auctioneer to collect delinquent invoice(s), and all bidders consent to in person jurisdiction of the courts of the State of Texas. In the event that a bidder's payment is dishonored or not made timely. Bidder shall pay the maximum statutory processing fees and late charges set by applicable state law.
7. Mail bidders who have not previously established credit must furnish satisfactory references well in advance of the sale date, or send a deposit of 25% of their bids which is applicable to purchases. Any portion of such deposit not used will be promptly refunded after the sale.
8. All bidders who have mailing addresses outside the United States of America, the Territories of the USA, Canada or Mexico, or have addresses through the U.S. Military, must deposit with the Auctioneer 25% of the total amount bid in United States dollars. Any portion of such deposit not used will be promptly refunded after the sale. Also, persons who have APO or FPO box numbers must deposit 25%.
9. The Auctioneer reserves the right to require payment in full before delivery of the merchandise to the buyer. **BIDDER PERSONALLY GUARANTEES PAYMENT OF ALL SUCCESSFUL BID, AND IF A CORPORATION, AN OFFICER OR PRINCIPAL IN THE CORPORATION AGREES TO PERSONALLY GUARANTEE SUCH PAYMENT.** Title shall not pass to the successful bidder until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the coins once they are in his possession. Risk of loss shall be borne by the buyer following shipment of the coins.
10. The Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid which, in his opinion, is not submitted in "Good Faith", or, as the case dictates, is not supported by satisfactory credit references, as the Auctioneer in its sole discretion shall determine. A bid is considered not made in "Good Faith" when it is made by an insolvent or irresponsible person, or a person under the age of eighteen. Regardless of the disclosure of his indentity, any bid by a consignor or his agent is deemed to be made in "Good Faith". In the event a successful bidder fails to pay all amounts due, the Auctioneer reserves the right to resell the merchandise and the buyer agrees to pay for the reasonable costs of such a sale, including a 10% seller's commission, and also to pay any difference between the resale price and the price of his previously successful bid.
11. **THE AUCTIONEER SHALL HAVE A LIEN AGAINST THE MERCHANDISE PURCHASED BY THE BUYER AND ANY OTHER PROPERTY OF THE BUYER THEN HELD BY THE AUCTIONEER TO SECURE PAYMENT OF THE AUCTION INVOICE(S) AND ANY OTHER AMOUNTS DUE THE AUCTIONEER FROM THE BUYER, WITH RESPECT TO WHICH THE AUCTIONEER SHALL HAVE ALL THE RIGHTS OF A SECURED CREDIT UNDER ARTICLE 9 OF THE TEXAS UNIFORM COMMERCIAL CODE.** In addition, with respect to payment of the auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice.
12. **THE AUCTIONEER SHALL HAVE THE RIGHT TO OFFSET THE UNPAID AMOUNT OF ANY AUCTION INVOICES(S) AGAINST ANY AMOUNT THEN DUE TO THE BUYER BY THE AUCTIONEER OR AFFILIATES OF THE AUCTIONEER.**
13. No buy or unlimited bids will be accepted. Mail/FAX bidders will be awarded lots at approximately a 5-10% advance over the second highest bid. No additional commission (except for the buyer's premium) is charged for executing mail or FAX bids.
14. The Auctioneer cannot be responsible for your errors in bidding, so check your bid sheet carefully. When identical mail or FAX bids are submitted, preference is given to the first received. If a mail/FAX bidder and a floor bidder have called identical bids, the decision of the Auctioneer and declaration of the winning bidder is final. The Auctioneer is not responsible for executing mail bids received on or after the day the first lot is sold, **NOR IS THE AUCTIONEER RESPONSIBLE FOR PROPER EXECUTION OF BIDS SUBMITTED BY TELEPHONE**, nor mail bids submitted in person once the auction begins. To insure the greatest accuracy, your bids should be entered on the standard bid sheet form and be received at the Auctioneer's place of business at least two business days in advance of the sale date.
15. Estimates will be given upon written request. It is recommended that bidders approach or exceed the estimates in order to increase the chances of bidding successfully.
16. **NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY ADJECTIVAL OR NUMERICAL DESCRIPTION CONTAINED IN THIS CATALOG.** Auctioneer is selling only such right or title to the coins being sold as Auctioneer may have by virtue of consignment agreements on the date of sale and disclaims any warranty of title to the coins. Any description of the coins contained in this catalog is for the sole purpose of identifying the coins, and no description of coins has been made part of the basis of the bargain or has created any express warranty that the goods would conform to any description made by the Auctioneer. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes.

Coins sold referencing a third-party grading service ("Certified Coins") are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that the Certified Coins are genuine. Certain warranties may be available from the grading services and the bidder is referred to the following services for details of any such warranties: American Numismatic Association Certification Service (ANACS), P.O. Box 182141, Columbus, Ohio 43218-2141; Hallmark Grading Service, Inc., P.O. Box 2879, Woburn, MA 01888; International Numismatic Society (INS), P.O. Box 66555, Washington, DC 20035; Numismatic Certification Institute, Inc., Heritage Plaza, Highland Park Village, Dallas, Texas 75205-2788; Numismatic Guaranty Corporation (NGC), P.O. Box 1776, Parisppany, NJ 07045; Professional Coin Grading Service (PCGS), 4533 MacArthur, Suite D, Newport Beach, CA 92660.

All non-certified coins are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion. Grading is an art, not a science, and therefore the opinion rendered by the Auctioneer may not agree with the opinion of others (including trained experts), and the same expert may not grade the same coin with the same grade at two different times. Auctioneer has graded the non-certified coins, in the Auctioneer's opinion, to the current interpretation of the Auctioneer of the American Numismatic Association standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of ANACS, NCI, INS, PCGS, or any other grading service at any time in the future. Auctioneer offers no opinion as to the validity of a grade assigned by any third party grading service. Due to changing grading standards over time and to possible mishandling of coins by subsequent owners, the Auctioneer reserves the right to grade coins differently than shown on certificates from any grading service that accompanies the coins. For the same reason as stated above, the Auctioneer reserves the right to grade coins differently than the grades shown in the catalog should such coins be reconsigned to any future auction.

No lots may be returned without a written request by the successful bidder and the written approval of the Auctioneer. In the unlikely event of returning a lot, the mail bidder must notify Jim Stevens, Credit Manager, in writing of the bidder's intent, and such notice must be mailed within three (3) days of the mail bidder's receipt of the lot. Any lot that is to be returned (for any reason other than authenticity) must be received in our offices within 30 days from the date of sale. **AFTER THAT 30 DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN LACK OF AUTHENTICITY. NO CERTIFIED COINS MAY BE RETURNED BECAUSE OF POSSIBLE DIFFERENCES OF OPINION WITH RESPECT TO THE GRADE OFFERED BY ANY THIRD-PART ORGANIZATION, DEALER, OR SERVICE.** There are absolutely no exceptions to this policy. Lots returned must be housed intact in the original holder. No lots purchased by floor bidders may be returned (including those bidders acting as agents for others). Late remittance for purchases may be considered just cause to revoke all return privileges.

17. Some of the coins in this sale may have been graded by the Numismatic Certification Institute (NCI, and affiliate of the Auctioneer).

The grading standards reflected in the Coin Dealer Newsletter (CDN) are stricter than NCI's and, accordingly, CDN prices in general significantly overstate the wholesale value of NCI graded coins. The Certified Coin Dealer Newsletter (CCDN), P.O. Box 11099, Torrance, CA 90510 is a better wholesale reference for NCI certified coins than the CDN.

ALTHOUGH CONSENSUS GRADING IS EMPLOYED BY MOST GRADING SERVICES, IT SHOULD BE NOTED AS A FORESAID THAT GRADING IS NOT AN EXACT SCIENCE. IN FACT, IT IS ENTIRELY POSSIBLE THAT IF A COIN WAS BROKEN OUT OF A PLASTIC HOLDER AND WAS RESUBMITTED TO ANOTHER GRADING SERVICE OR EVEN THE SAME SERVICE, THE COIN COULD COME BACK A DIFFERENT GRADE.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.

The degree of liquidity for certified coins will vary according to general market conditions and the particular coin involved. For some coins there may be no active market at all at certain points in time.

18. The descriptions provided in this catalog are intended solely for the use of those bidders who do not have the opportunity to view the lots prior to bidding. All bidders who have inspected the lots prior to the auction will not be granted any return privileges, except for reasons of authenticity. It is presumed that all floor bidders have inspected the lots prior to bidding. **THEREFORE, LOTS PURCHASED BY FLOOR BIDDERS "AS IS" AND MAY NOT BE RETURNED.** Floor bidders include those bidders acting as agents for others. No claims of any kind (except for reasons of authenticity) can be considered after the settlements have been made with the consignors. Any dispute after the settlement date, **MARCH 21, 1995**, is strictly between the bidder and consignor without involvement or responsibility of the Auctioneer. The Auctioneer or affiliates may consign items to be sold in this auction sale, and may bid on those items or any other in the sale. **THE AUCTIONEER OR AFFILIATES EXPRESSLY RESERVES THE RIGHT TO MODIFY ITS BIDS ON THESE ITEMS OR ANY OTHERS AT ANY TIME BASED UPON DATA MADE KNOWN TO THE AUCTIONEER OR ITS AFFILIATE.** In the event of an attribution error, the Auctioneer may, at the Auctioneer's sole discretion, correct the error orally at the sale, or, if discovered at a later date, to refund the buyer's money without further obligation. Under no circumstances shall the obligation of the Auctioneer to any bidder be in excess of the buyer's premium for any lot in dispute. If any disputes arise regarding payment or authenticity, or grading between bidder and Auctioneer, or any other matter pertaining to the sale the bidder, a participant or the Auctioneer the dispute shall be submitted, if otherwise mutually unresolved to binding arbitration in accordance with the rules of the Professional Numismatists Guild (PNG) or American Arbitration Association (A.A.A.). If an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. . An award granted in arbitration is enforceable in any court. By placing a bid, a bidder accepts these Terms and Conditions of Sale, and agrees to be bound.
19. Storage of purchased coins: Purchasers are advised that certain types of plastic may react with the coins metal and may cause damage to the coins. Caution should be used to avoid storage of coins in materials that are not inert.
20. **OTHER PROVISION.** Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any property by Auctioneer to bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the bidder and may not be assigned. Any statement made by the Auctioneer is a statement of opinion and does not constitute a warranty or representation. Any employee of Auctioneer may not alter the Terms of Sale, and, unless signed by a principal of Auctioneer, any alteration is null and void. The sale is not on approval.

In consideration of participation in the auction and the placing of a bid, a bidder expressly releases Auctioneer, its affiliates, the Consignor, or Owner of the Lot from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned grade or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Sale or otherwise, except as specifically declared herein; e.g., authenticity, typographical error, etc., and as to those matters, the rights and privileges conferred therein are strictly construed and exclusive remedy and shall be waived by Purchasers by non compliance to its express terms.

Hinweis für unsere deutschsprachige Kunden:

1. Ein Aufgeld von zehn Prozent (10%) wird allen Käufern zuberechnet.
2. Alle Rechnungen müssen in US Dollar bezahlt werden. Orderchecks müssen auf eine US Bank bezogen werden.
3. Jeder Käufer muss seine Rechnung vor Auslieferung bzw. Versand der von ihm gekauften Losen völlig bezahlt haben. Ausnahmen für die von uns bekannten Bieter können vor der Auktion ausgehandelt werden.
4. Die Lokalumsatzsteuer (California State Sales Tax) kann beim Vorliegen einer Handelsregistereintragung als Händler umgangen werden. Bei Versand entfällt jede Steuer. Käufer im Ausland werden jedoch darauf hingewiesen, dass die Zollformalitäten bei Einfuhr von Münzen in ihren eigenen Ländern von ihnen selbst erledigt werden müssen.

Great Choices!

Heritage gives you great choices featuring both our elegant Signature Series as well as our quick and convenient Bullet Sales for certified coins. And remember these 7 Great Heritage Advantages while you make your selection.

- ❶ All auctions held in conjunction with major conventions.
- ❷ Catalogs mailed to the nation's largest, most active mailing list.
- ❸ All sales heavily promoted in the numismatic press.
- ❹ Expert pre-grading and certification if necessary.
- ❺ Cash advances available.
- ❻ Competitive commission rates.
- ❼ Unparalleled financial security.

FINANCIAL STABILITY

Heritage Numismatic Auctions is a member of the Heritage Family of fine companies, the nation's largest and most financially secure dealers in rare coins. With an equity of over \$20 million, total assets in excess of \$30 million and annual sales of over \$120 million*, you can rest assured that upon settlement, you will be paid in full, and on time. We have never missed an on time payment in 20 years to over 7,000 consignors.

In addition, Heritage Numismatic Auctions is able to offer an optional performance bond through Lumberman's Mutual Casualty Company (an affiliate of the Kemper National Insurance Companies). This policy assures that you will receive either the proceeds of your auction consignment or the safe return of the consignment.

Heritage's enviable record of financial integrity has been proven time and again over the past twenty years, and offers you both peace of mind and the absolute assurance that there will never be an "unpleasant surprise" at the time of settlement.

*Heritage is the only numismatic auction company with certified financial statements (audited by Arthur Andersen)

Public Auction Sale

FIRST SESSION

Friday, February 3 at 6:00 p.m. Lots 5001-6051
Long Beach Convention Center
Long Beach, California

A 10% Buyer's Premium Will Be Added To All Invoices

COLONIALS

- 5001 1767 French Colonies Sou VF 20, two pieces, both are counter-stamped. One piece has rich, glossy, reddish-brown color, while the other has darker patina in the recesses of the design and fields. Listed on page 32 of the 1995 *Guide Book*. (Total: 2 coins)
- 5002 1783 Nova Constellatio Fine 15, Blunt Rays, light brown devices with deep, almost charcoal colored fields, there are several ancient scratches around U.S.; and a 1788 Massachusetts Cent Good 4, R-121, R.3, well centered and struck on a light to medium brown planchet that shows streaky coloration. (Total: 2 coins)
- 5003 1786 New Jersey Cent VF 20. Maris 14-J. 9.63 grams. A common variety, this piece appears to have been struck on a slightly buckled planchet that shows a couple of small, squiggly die cracks on the obverse. Pleasing iridescence underlies the light brown color seen on the coin. Listed on page 50 of the 1995 *Guide Book*.
- 5004 1787 Fugio Cent Fine 15 Corroded. Pointed Rays, UNITED STATES. 10.04 grams. Well defined for the grade with medium brown color and showing slight green corrosion on the reverse. Die clashed, a couple of pinscratches are noted in the right obverse field. Listed on page 63 of the 1995 *Guide Book*.
- 5005 1788 Vermont Copper VG 8. 7.14 grams. Struck on a buckled planchet, and as a result showing finer than VG details on the obverse, but very weak on the reverse with no peripheral lettering or date. Dark brown color with numerous tiny planchet flaws and a couple of field marks. Listed in the *Guide Book* on page 52.

- 5006 Undated (1792-94) Kentucky Token MS 60. LANCASTER edge. 11.60 grams. Struck on the heavier London standard. Medium to darker brown color with full, glossy mint luster. Listed on page 55 of the 1995 *Guide Book*.
- 5007 "1783" Washington "Unity States" Cent XF 40. Baker-1. Struck from poor planchet stock with numerous lateral striations, especially on the reverse. Listed on page 59 of the 1995 *Guide Book*.

HALF CENTS

- 5008 1795 Plain Edge Good 4. B-6a, C-6a, R.3. EAC graded AG 3. Sharper but porous. Dark steel-brown color.
- 5009 1804 half cent Fine 15, Crosslet 4 With Stems, the popular "Spiked Chin" variety with extensive die cuds along the reverse border; and an 1851 three-cent silver MS 60, satiny luster with a blush of golden toning on the reverse. (Total: 2 coins)
- 5010 1804 VF 25, Crosslet 4, No Stems, scattered obverse field marks; 1832 AU 50, quite sharp with tinges of faded red; and an 1834 AU 50, glossy chocolate-brown surfaces. (Total: 3 coins)

- 5011 1804 half cent XF 45, Crosslet 4, With Stems, EAC graded VF 25, mostly dark brown with occasional lighter undertones; 1856 half cent AU 50 Cleaned, EAC graded XF 45, full strike; and an 1855 Upright 5s Large cent AU 50, N-5, EAC graded AU 55, even brown color. (Total: 3 coins)
- 5012 1804 AU 50. Plain 4, Stemless. B-10, C-13. EAC graded Fine 12. Sharper but downgraded by a long scratch in the lower left obverse field. Dark olive color.
- 5013 1804 AU 55. Spiked Chin. B-6, C-6, High R.2. Die State XIV. The obverse is a pleasing glossy light brown color becoming slightly darker near the top. One small spot of porosity is noted in the right obverse field opposite Liberty's face. The reverse is a similar light brown color becoming slightly darker at the periphery with the diagnostic die break encircling half of the rim. Well struck with only slight wear visible.
- 5014 1806 Fine 15 Bent, Small 6, Stemless, EAC graded VG 7; 1809/6 VG 8, EAC graded VG 7, deep chocolate-brown with scattered field marks; and an 1828 12 Stars XF 45, EAC graded VF 20, a problem-free example of this scarcer variety. (Total: 3 coins)
- 5015 1808/7 Fine 12. B-2, C-2, High R.3. EAC graded VG 8. Much scarcer than the normal date 1808, displaying even wear and no appreciable defects. Dark steel-brown color.
- 5016 1811 Wide Date VF 20 Light Corrosion. B-1, C-1, High R.4. EAC graded Fine 15. Sharpness of XF 40, but some dark red, raised corrosion is noted through stars 1 to 6 and in other areas of both sides. Medium light steel-green. A rarely seen, low mintage date. Ex: Bowers and Merena 1/94, lot 184, as "Net VF 35."

- 5017 1833 MS 63 Brown Possible Proof. The fields of this coin have a nice reflectivity, but are not totally convincing as a proof. Much circumstantial evidence for the status of this coin comes from which die state it is from. Only one set of dies was used for the total output of both proofs and business strikes this year, and proofs are from the first four die states. This piece was struck from the dies with State III characteristics. The first die crack extends to the second star, but does not go to the border as it does on State IV coins (the last proofs and earliest business strikes are from this die state). The striking details are exceptionally sharp throughout, and the surfaces have taken on a glossy brown patina with deep blue accents around the devices. An attractive specimen, but we must leave the determination of the coin's proof or non-proof status to those who view this lot.
- 5018 1834 half cent XF 40; 1856 dime Fine 15; and an 1859 quarter AU 50. A trio of circulated type coins. (Total: 3 coins)

LARGE CENTS

Lower Grade S-3 Chain Cent

- 5019 1793 Chain Cent—AMERICA—Fine 12 Burnished. S-3, Low R.3. EAC graded Good 5. Sharpness of VG 8, but the surfaces have been smoothed. A few very small pit marks appear on the obverse and a several faint scratches are noted on both sides. Dark olive-brown in color.

Most of the early copper coins in this sale have been graded and cataloged by noted copper expert Del Bland. Mr. Bland uses EAC "net grading" to determine the grade of a coin. This is done by taking what might be known as the "commercial" grade of the coin, and subtracting the defects seen of the piece to arrive at a "net" grade.

- 5020 1793 Chain—AMERICA—F 15. S-3, R.3+. The "Leaning R" variety. Choice for the grade, the surfaces are tight and non-porous and show no signs of corrosion. The coin is medium chocolate-brown overall. There are a few small marks scattered about, but none that are large and distinctive. As always, the central device of Liberty on the obverse is much weaker in definition than the chain on the reverse. A pleasing example of this rare and historic early cent.

- 5021 1793 Wreath Cent—Vine and Bars—VG 8 Obverse Marks. S-5, R.4. A distinctive Wreath cent variety with the large date, large LIBERTY, and small, heavy bow. The obverse has an excessive number of bagmarks, and there is a large planchet flaw in the upper field between the top of Liberty's hair and the E in LIBERTY. Medium brown color throughout.

"Round Bow" S-9 Wreath Cent

- 5022 1793 Wreath Cent—Vine and Bars—Fine 15. S-9, R.3. The "Round Bow" reverse and quite distinctive as such. A bit unevenly struck on the rims with only slight definition on the upper portion of the rim on the obverse, and the corresponding lower part of the reverse. On the obverse there is a spot of reddish corrosion in the right field, just out from the tip of the nose. And on the reverse, a small dig is noted below the second T in STATES and another to the right of the final S in STATES. There is also a planchet flake out of the reverse over the lower portion of the first A in AMERICA. Medium brown color.

Very Scarce and Desirable 1793 Liberty Cap Cent

- 5023 1793 Liberty Cap VF 20. S-13, High R.3. EAC graded Fine 12. A pleasing brown cent with a few surface and edge defects, the most obvious being a nick on the head of Liberty and a smaller one on the rim over the left side of B in LIBERTY. Very difficult to find this nice. Ex: Lee G. Lahrman (Kosoff, 2/63), lot 165.

Dark, Glossy S-44 1794 Cent

- 5024 1794 VF 30. S-44, High R.1. EAC graded VF 25. Five points sharper but on the obverse several pitting marks are noted, some of which are mint-made planchet defects. Darker chocolate-brown color with lighter highpoints.
- 5025 1794 Head of '95 VF 30. S-70, Low R.2. EAC graded Fine 12. Sharper than the EAC grade, but at 8 o'clock on the obverse is an edge dent. Some minor abrasions and roughness are also noted on both sides causing the "net" grade to drop. Dark steel-brown color.

Pleasing VF Bent Lock, Sheldon-22 Cent

- 5026 1794 VF 35. S-22, R.2. The Bent Lock variety with the Mounded Reverse. Very choice for the grade with exceptionally smooth surfaces displaying a pleasing even light brown color. The obverse is virtually flawless with only smooth even wear. The reverse is similar with characteristic weakness near the top. This piece is identified by one small rim bump on the reverse at 4 o'clock.

High Grade But Rough S-28 1794 Cent

- 5027 1794 AU 50 Corroded. S-28, High R.2. EAC graded VF 20. Sharpness of AU 50, but roughness covers both sides in the form of corrosion, porosity, and minute nicks, accounting for the lower "net" grade. Medium chocolate-brown color.

- 5028 1795 Plain Edge VF 35. S-76b, R.1. EAC graded VF 25. ONE CENT high. Light planchet roughness through 179 and between S and O on the reverse. Two small dents on the end of the bust and a nick on a leaf above the E in ONE identify this piece. Cleaned and nicely retoned to a mixed light steel and tan color.
- 5029 1796 Liberty Cap AG 3. S-81, Low R.3. EAC graded Good 4. The obverse is sharper than the reverse. Some porosity is noted on both sides and there are three small nicks on the cap. Darkish steel-brown in color.
- 5030 1797 Reverse of '97, Stems Fine 15, S-139, R.2, EAC graded VG 10, dark chocolate-brown color overall with lighter highpoints; 1802 Fine 12, S-239, R.3, EAC graded VG 8, numerous small marks are peppered across the obverse; and an 1803 VF 20 Porous, S-243, R.2, EAC graded VG 8, sharper than VG but heavy porosity, dark brown color. (Total: 3 coins)

Low Grade Example of the Very Rare 1799 Cent

5031 1799 VG 8. S-189, R.4. A pleasing, low grade example of this rare, key date in the Large cent series. Heavily worn at the rims and affecting parts of the peripheral legends, the devices have a light brown color with much deeper patina in the fields and recesses of the devices. There is a slight edge dent at 4 o'clock on the obverse, a horizontal mark in the middle-back part of the hair curls, and a small angling mark in the area of the collarbone also on that side. On the reverse there is a planchet flake out of the upper right loop of the bow. Very rare and a date that is of the utmost importance to copper collectors.

5032 1801 VF 20. Corrected Fraction 1/100 over 1/000. S-221, High R.1. EAC graded VG 7. A popular "Red Book variety" and as such important to non-specialists. Sharper details but finely rough surfaces overall. Dark steel-brown color.

5033 1802 VG 10 Corroded, Rim Nick. S-230, R.1. Even, dark-brown color with light corrosion across both sides, and a nick on the nose. Ex: Coin Galleries (4/92), lot 2320, flip included.

5034 1803 Small Date, Small Fraction XF 40 Light Porosity. S-252, Low R.2. EAC graded VF 25. Bluntly struck on both sides, as often seen on this variety. Sharpness of an XF coin but there are three very small nicks at BE in LIBERTY and some faint roughness in the lower obverse field, which has been lightly burnished. Retoning an iridescent dark brown with light steel-blue overtones.

5035 1806 XF 40. S-270, R.1. EAC graded Fine 15. Much sharper than a Fine but a uniform, light roughness is seen throughout. Dark steel-brown color with considerable amounts of lighter brown surrounding the devices.

5036 1806 AU 50 Light Porosity. S-270, R.1. EAC graded VF 20. Much sharper by degree of wear but the surfaces are uniformly and finely porous. Brown and olive in color and well matched from side to side. Only one variety exists from this year, limiting the choices available to the date collector, and thus increasing the price and desirability of this date.

5037 1809 Electrotpe XF 45 Red and Brown. EAC graded VF 25. The lead core shows on much of the reverse and also within the recess of a long scratch on the obverse that is mostly concealed by the hair. The balance of the coin has shadings of brown and orange. A collectible counterfeit because of the rarity of this date, especially in high grade.

5038 1814 Plain 4 XF 40. S-295, R.1. EAC graded Fine 12. Sharper by degree of wear but lightly burnished on the face and in the left obverse field, and both sides show areas of light porosity. Retoned to an attractive reddish, steel-brown color.

5039 1817 MS 63 Red and Brown. N-14, R.1. EAC graded MS 62. Some bluntness of strike is noted, as usually seen on this Randall Hoard variety. A few microscopic abrasions are visible on the obverse, larger ones exist on the lower reverse and several tiny carbon spots can be found through AMERICA. Medium light brown color with much underlying mint red.

5040 1818 MS 61 Red and Brown. N-10, R.1. EAC graded MS 62. A Randall Hoard variety with the usual abrasions, most of which are on the obverse and none too serious. Mint red and brown with a dark reddish spot between the A and M of AMERICA.

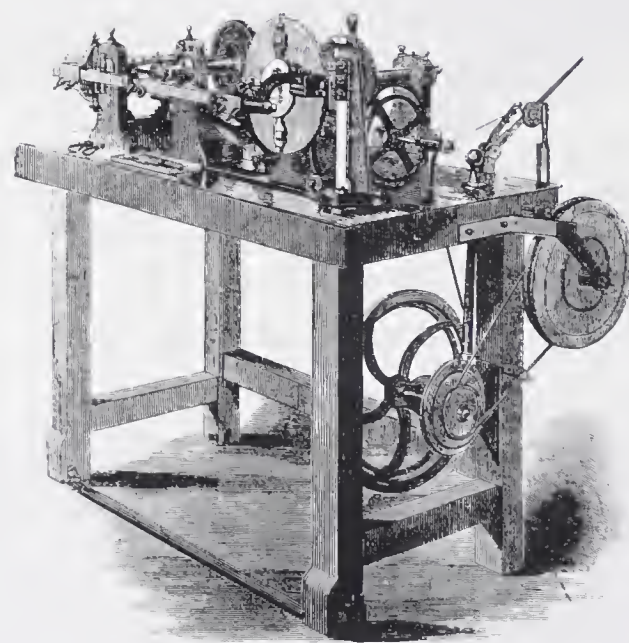

Newcomb 7 1/2 1831 Cent With Double Profile

5041 1831 MS 64 Brown. N-7 1/2, R.1. Double Profile. EAC graded MS 61. Steel and light brown coloring on the obverse, the reverse is red and brown with dark spots between stars 1 and 2, in the denticles right of the date, on the base of T in CENT, and on the lower right leaves and ribbon. Double profile on the lips, chin, and forehead. The word LIBERTY is also double outlined.

5042 1834 VF 30 Double Profile. Dramatically doubled on the profile of Liberty. Deep brown color and showing three vertical marks on the face of Liberty.

5043 1835 VG 10. N-12, Low R.4. EAC graded VG 7. A small edge dent is noted to the left of star 5 and another is over the C in AMERICA. Otherwise, a clean and attractive coin. The reverse is rotated 25 degrees to the right. Medium brown color with tan accents on the devices.

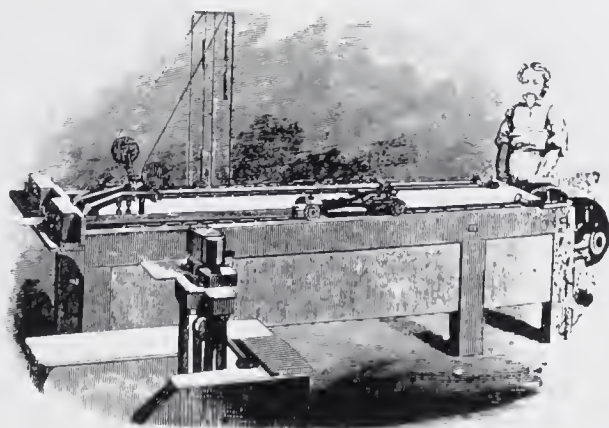

Most of the early copper coins in this sale have been graded and cataloged by noted copper expert Del Bland. Mr. Bland uses EAC "net grading" to determine the grade of a coin. This is done by taking what might be known as the "commercial" grade of the coin, and subtracting the defects seen of the piece to arrive at a "net" grade.

1836 N-1 Cent—Struck From Proof Dies

5044 1836 Specimen 64 Red and Brown, Struck From Proof Dies. N-1, R.1. EAC graded MS 63. According to Breen, 8 proofs are known of this date, and while there are examples from other dies, the majority are from the N-1 die pairing. This piece lacks the unequivocal clarity of a proof in the fields, but there is enough reflectivity to convince even the most skeptical that this coin was struck shortly after the few proofs were produced. The edge is sharp and squared off, showing no beveling. Sharply struck, except on the peripheral stars, but probably not doubly struck.

The coin has almost even amounts of mint red and brown with more red present on the reverse. There is a light edge dent over star 5, a moderate sized spot to the lower right of star 6, and a few microscopic specks of carbon on the obverse.

Original 1837 Cent With Beaded Hair Cords

5045 1837 MS 64 Red and Brown. Beaded Hair Cords. N-9, R.1. EAC graded MS 62. Mint red and medium dark steel-brown. On the rim between stars 8 and 9 are two very small dents, another exists on the rim between E and S in STATES, and some minor spotting can be seen on both sides.

Easy To Bid

It's easy to bid in a Heritage sale. In fact, you have a choice of three different methods.

1. Send in your bid sheet by mail.
2. Fax us your bid sheet (214) 520-6968.
3. Call us with your bids (800) 872-6467.

We'll be happy to describe any coin in the sale in greater detail. Just call us, and we'll have one of our catalogers answer any questions you may have about a particular lot.

PROOF LARGE CENT

Controversial Newcomb-3 1831 Cent An Alleged Proof Striking

- 5046 1831 PR 63 (In Our Opinion) Red and Brown. N-3, R.1. EAC graded MS 62. This lot will undoubtedly prove to be the most controversial in the entire auction. Experts cannot agree on the status of this piece, and rather than the cataloger inserting his opinion also, we will simply list the facts as we know them and let the reader draw their own conclusions.

This coin was uncovered in a European collection by Marc Emory. It resided in a date run of proof Large cents and was the representative piece for 1831. It was consigned to the auction along with the preceding 1831 N-7 1/2 large cent. When shown to various numismatists in our Dallas office, many did not consider the coin a proof. However, Marc Emory and Jim Halperin did. At a major coin show in the fall, the piece was shown to a noted early copper and Colonial expert, Anthony Terranova, whose name and reputation are widely recognized and respected. He immediately proclaimed the coin a proof.

Most of the copper in this sale was sent to Del Bland, a name well known to early copper specialists. Del attributes all the coins sent him and he also includes a brief write-up on each piece. His write-up on this coin is, "Brown and mint red with a moderate sized spot touching the inside point of star 13 and a few other small spots scattered around the obverse. Proper brushing probably would reveal a proof-like surface and greatly enhance the appeal of this cent." No mention of the coin being a proof.

The Breen proof book (1977) lists 12 proofs from 1831 with "others reported." All are from the N-3 dies, as is this coin. His book has a photograph of the French-Clarke specimen. It is incompletely struck on the peripheral stars, as is this piece, but the fields are bright and reflective. The obverse of this coin is mostly brown with slight portions of mint red still in evidence around the central device of Liberty. There is only the slightest hint of reflectivity in the fields on that side. Flyspecks of carbon are also noted, the single most obvious one being at the top of the hair at the juncture of the hair and field. The reverse exhibits considerable mint red color that is only slightly muted, and the strike on the wreath is uncommonly bold. The fields show evidence of having been struck from a polished die, but the resulting reflectivity is not comparable to later, mass produced proofs. Is it enough to qualify as a proof from 1831? We leave the answer to that question to those who view and bid on this interesting and controversial lot, and we strongly discourage mail bidding unless the bidder has seen the coin.

LARGE CENTS

- 5047 1848 Fine 12. N-42, R.6. EAC graded Fine 12. Medium dark steel-brown with some light edge dents on the lower left reverse. Very attractive for the grade.
- 5048 1855 Slanting 5's MS 64 Red and Brown. Very boldly struck, there is an ample amount of mint red color, as well as some splotchy, tan toning. Some carbon spots are also evident on both sides.

Most of the early copper coins in this sale have been graded and cataloged by noted copper expert Del Bland. Mr. Bland uses EAC "net grading" to determine the grade of a coin. This is done by taking what might be known as the "commercial" grade of the coin, and subtracting the defects seen of the piece to arrive at a "net" grade.

Prooflike 1855 Slanting 5s Cent

- 5049 1855 Slanting 5s MS 65 Red and Brown Prooflike. N-10, R.1. Struck from polished dies, there are very light die striations in the fields on each side that are responsible for the coin having a prooflike appearance. Lustrous light steel-blue and deep red patina, faintly iridescent, with a diagonal scratch below the E in CENT and showing a couple of very small abrasions on the obverse. An attractive and desirable Braided Hair cent.

FLYING EAGLE CENTS

- 5050 1857 MS 63. Attractively toned primarily a deep-red color, the strike is average for the new, harder copper-nickel cents. An excellent type coin for the cent collector.
- 5051 1858 MS 64. Small Letters. An interesting coin as the obverse is struck slightly off-center and the letters OF and AMERICA as well as the digits of the date show very clear doubling. The surfaces are somewhat reflective and are toned a golden color.

INDIAN CENTS

- 5052 1859 MS 64. A well struck example of this one year type coin. Both sides exhibit some sea-green and crimson toning amid carbon-free fields.
- 5053 1863 MS 64. A sharp strike with glossy mint brilliance and only a solitary spot on the reverse border to the right of the shield.
- 5054 1864 Copper-Nickel MS 63 Lightly Cleaned. Somewhat softly struck on the Indian's head, the surfaces are new retoning nicely. Ex: Public Auction Orlando '92 (Early American Numismatics, 8/92), lot 193, flip accompanies.
- 5055 1869 MS 63 Red and Brown. Fully struck with rich reddish-gold color and lighter orange hues about the lettering and wreath. Only a couple of tiny carbon flecks show on this scarcer date. Accompanied with ANACS certificate (No. E-0322-Y).
- 5056 1877 AG 3. A well worn example of the key date of the Indian cent series. There are no marks or problems noted, just lots of even wear. The obverse rim is worn into the letters of STATES, the remainder on both sides is full.
- 5057 1877 AG 3; 1877 AG 3 Light Corrosion; and an 1877 AG 3 Rim Damage, all acceptable space fillers of this well recognized Indian cent key. (Total: 3 coins)
- 5058 1881 MS 64 Red and Brown. Boldly struck, frosty, and possessing its original, coppery-red brilliance.
- 5059 1886 AU 50 Type Two. Rich, chocolate toning is present on both sides. The scarcer of the two varieties.
- 5060 1887 MS 64 Red and Brown; 1888 MS 63 Red; and an 1889 MS 64 Red and Brown, bright orange overtones. A quality trio. (Total: 3 coins)
- 5061 1905 MS 63 Red and Brown, the obverse is nearly full-red and sharp, while the reverse shows some brown on the highpoints and a fingerprint; and a 1913 Type One nickel MS 62, bold details with some subdued luster. (Total: 2 coins)
- 5062 1907 MS 64 Red, well struck with bright mint color, a few minor carbon flecks show on the obverse; and a 1908 MS 62 Red and Brown, original color, softly struck, and displaying numerous carbon spots. (Total: 2 coins)
- 5063 1909-S AU 55. One of the keys to the series, a light, milk-chocolate brown specimen. A fine, high grade example of this very popular, elusive date.

PROOF INDIAN CENTS

- 5064 1861 PR 65. Razor sharp and tinted an even golden-orange over both sides. The most difficult of the five copper-nickel proof issues to locate in gem condition.

- 5065 1862 PR 65. A lovely gem specimen tinted a delicate violet and rose. One of just 550 proofs issued of the date and an undervalued five-year proof type.
- 5066 1867 PR 64 Dipped. Razor sharp with glittering fields and splotchy orange color on either side. A scarcer proof issue from a reported mintage of 625 pieces.
- 5067 1890 PR 64 Red. A dazzling specimen exhibiting unique colorations. The deeply mirrored fields are a stunning, bright green-gold, the highpoints are fiery-crimson. No spots, marks, or hairlines are noted on this outstanding piece.
- 5068 1893 PR 65 Red. Well mirrored and displaying uniform coppery-gold color.
- 5069 1896 PR 65 Red and Brown. Deep, sunset-red colorations are present on both sides, as are some scattered carbon flecks.

LINCOLN CENTS

- 5070 1909-S VDB VF 30. A smooth, original brown example, still popular after all these years.
- 5071 1909-S VDB VF 30, original with only light, even wear; 1914-D Good 6; and a 1931-S VF 30. Three dates that most any coin collector in this country is keenly aware of. (Total: 3 coins)
- 5072 1914-D cent VF 20; 1914-D cent VF 30, the latter being temptingly close to XF condition; and a 1921 dime Fine 15. (Total: 3 coins)
- 5073 1914-D XF 40. A bold striking, problem-free and original.
- 5074 1916 MS 65 Red. Boldly struck and exhibiting its bright, full mint red color. There are a couple of tiny flyspecks on the reverse.
- 5075 1917 MS 65 Red, a bright, sharp, coppery-red cent, virtually as nice as the day it was struck; and a 1929-D MS 65 Red, full red mint color and no carbon flecks, a gem specimen. (Total: 2 coins)
- 5076 1920 MS 63 Red, boldly struck and fully brilliant as issued; 1925 MS 64 Red, a very choice selection; and a 1926 MS 64 Red, bright, original mint color. (Total: 3 coins)
- 5077 1922 No D Weak Reverse Good 4 Cleaned; and a 1922 No D Weak Reverse Good 6. These are the second most desirable die pair of this widely collected variety. (Total: 2 coins)
- 5078 1922 No D Strong Reverse Fine 12. Light brown surfaces with a few scattered obverse field marks.

- 5079 1922 No D Strong Reverse XF 40 Cleaned. Since retuned to a more natural brownish-gray color. The obverse exhibits exceptional detail for the popular Die Pair 2 variety and, without the cleaning, could lay claim to an AU grade.

- 5080 1955/55 Doubled Die MS 62 Brown. There are glimmers of faded red about the peripheries.

TWO-CENT PIECES

- 5081 1865 MS 63 Red and Brown. A very well struck example with some coppery-red color sprinkled among medium-tan on each side.
- 5082 1867 MS 64 Red and Brown. Very boldly struck with full, sharp details on the shield and wreath, this specimen has accumulated some deep-red and gentle tan patina evenly divided on each side.
- 5083 1870 MS 62 Brown. A strong strike that displays much underlying mint color, but faint signs of an old cleaning.

- 5084 1872 MS 64 Red. Well struck with fully intact mint luster. A pristine, near carbonless two-cent piece that has obviously been well taken care of since its manufacture 123 years ago. Extraordinary surfaces with strong eye appeal. Ex: Getty (Bowers & Ruddy, 5/77), lot 1227, flip accompanies.

PROOF TWO-CENT PIECES

- 5085 1864 PR 64 Red and Brown. A glittering, unquestionably proof specimen, from an estimated mintage of just 100 pieces of this first year issue. The surfaces have naturally mellowed only slightly and are just a few microscopic carbon flecks from gem quality.
- 5086 1864 PR 65 Red and Brown. A rare first year proof with a reported mintage of just 100 coins. This piece has mellowed only slightly and shows full mirrored brilliance. Tiny edge flaw on the reverse as struck.

THREE-CENT SILVER

- 5087 1851 AU 50, some mottled, ochre toning on the obverse; 1856 AU 50, well struck and original; and an 1862 XF 45, struck with clashed dies and exhibiting some blue-green toning. (Total: 3 coins)
- 5088 1861 MS 62. Struck with heavily clashed dies, the obverse is darkly toned, the reverse is lighter.
- 5089 1870 AU 50 Reverse Cleaned. Attractive rose and bluish-green toning. Several times scarcer than proofs, being struck from a mintage of just 3,000 coins.

PROOF THREE-CENT SILVER

- 5090 1862 PR 63. The hazy gray toning that covers both sides partially subdues the mirrored fields. A couple of field marks around the C on the reverse limit the grade.

- 5091 1867 PR 64. A definite proof copy of this scarce, low total mintage issue. Only 625 proofs were produced out of a total mintage of 4,625 pieces. Deeply reflective fields, the surfaces are toned in dark mottled shades of purple, blue, and rose.

THREE-CENT NICKEL

- 5092 1888 MS 61. Boldly struck and quite lustrous under a light, opaque haze.

PROOF THREE-CENT NICKELS

- 5093 1873 PR 63. Untoned, yet a typical example of a proof three-cent nickel piece.
- 5094 1883 PR 65. Brilliant with nicely mirrored fields, there is a little opaque haze also present.

SHIELD NICKEL

- 5095 1883 nickel MS 64, boldly struck; and an 1862 dime MS 62 Lightly Cleaned, untuned and displaying wire rims on both sides. (Total: 2 coins)

PROOF SHIELD NICKEL

- 5096 1882 PR 63. Bright and untuned, a few hairlines and small carbon flecks are visible on each side.

LIBERTY NICKELS

- 5097 1884 AU 55, sharp, lustrous, and mostly untuned; 1891 MS 60, light-gray patina on each side; and a 1902 MS 60, satiny, lustrous and well struck. (Total: 3 coins)
- 5098 1885 XF 40 Rim Damage, on the right sides of both obverse and reverse. This key issue is otherwise sharp and original.
- 5099 1901 MS 60, sharp with some satiny luster; 1905 MS 62, a contact mark shows on Liberty's neck; and a 1913 Type One Buffalo nickel MS 60, rich golden color. (Total: 3 coins)
- 5100 1907 MS 65. Satiny luster is visible under a thin layer of sky-blue and golden toning on each side. There are a couple of small toning streaks on the reverse.

PROOF LIBERTY NICKELS

- 5101 1883 No Cents PR 64. Milky steel-gray toning over both sides.
- 5102 1896 PR 64. Untuned with nicely mirrored surfaces. A few carbon flecks are seen under magnification.

BUFFALO NICKELS

- 5103 1918/7-D VG 8. Original gray surfaces with a clearly discernable underdigit. A scarce item and always popular as one of the few collectible overdates from this century.
- 5104 1918/7-D VF 20 Light Scratches. More than sixty years after its discovery, the overdate remains scarce and very desirable as a variety of the Buffalo nickel. Nickels (and cents) were in short supply and were being produced at an unprecedented rate, thus creating a high demand for working dies. A new die that had already been given an impression from a 1917 hub was annealed and given a second impression (either inadvertently or intentionally) from a 1918 hub, causing the overdate feature. This coin shows even wear, but a couple of old scratches are visible on both the obverse and reverse. An ANACS certificate, # JK6990, accompanies for authentication only. Ex: Polis (Bowers & Merena, 6/91), lot 1258, flip accompanies.
- 5105 1924 MS 65. A well struck example with pretty, multicolored sunset toning shades.
- 5106 1931-S nickel MS 62, bright and lustrous; 1837 Reeded Edge half dollar XF 40 Hair Tooled and Whizzed; and an 1886-S Morgan dollar AU 55, only the lightest rubbing shows on the highpoints. (Total: 3 coins)
- 5107 1937-D Three-Legged Fine 15. A pleasing, medium grade example of this very popular Buffalo nickel variety.
- 5108 1937-D Three-Legged VF 20. A sharp, clean specimen with no detracting marks or abrasions.

- 5109 1937-D Three-Legged XF 40 Cleaned. Evidence of a light cleaning at one time, now retoning nicely.
- 5110 1937-D Three-Legged XF 45. A clear, sharp, high grade example. Only a very light amount of even wear shows on each side.
- 5111 1937-D Three-Legged XF 45. Another boldly struck, lightly circulated example of this very popular variety. There are no marks or abrasions.
- 5112 1937-D Three-Legged AU 50. Natural golden toning about the peripheries. Despite a couple of faint marks, the originality of this piece makes it particularly desirable.

EARLY HALF DIMES

Pleasing XF 1794 Half Dime

- 5113 1794 XF 40. V-4, R.5. Popular as a first year of issue for the denomination, this piece is well centered and well defined for the grade. The surfaces are free from any distracting abrasions or adjustment marks, and both sides are similarly toned slate-gray with strong undertones of rose.

Deeply Toned MS 60 1795 Half Dime

- 5114 1795 MS 60. V-6, R.5. There are a few small abrasions on each side as well as several shallow adjustment marks that account for the grade. But this is an uncommonly lustrous coin for the grade, with especially bright fields on the reverse. The gray-rose centers deepen considerably to a cobalt-blue toward the rims. Well struck on the obverse with the usual softness on the highpoints of the eagle on the reverse.

Toned V-1 1796 Half Dime

- 5115 1796 VF 30. V-1, R.2. Reasonably well defined for the grade, the coin has steel-blue color overall with bright olive-green accents on the highpoints of the design. Well centered with no adjustment marks, there are a couple of deep planchet flakes out of the obverse, one at the front of the neck and another in the right field.

V-4 1797 16 Stars Half Dime

- 5116 1797 XF 45. 16 Stars. V-4, R.4. Richly toned in shades of citrine and gold with bright accents of purple on the devices and within the recesses of the design. This patination helps conceal the die clashing and minor surface flaws on the coin. Well defined on the obverse with soft details on the eagle on the reverse.

BUST HALF DIME

- 5117 1832 AU 55. V-8, R.2. A bit softly struck in the centers and showing deep peripheral color on the obverse.

SEATED HALF DIMES

- 5118 1838 Small Stars MS 63. A considerably scarcer variety of this first year No Drapery type, perhaps fewer than ten percent of the uncirculated 1838 half dimes are the Small Stars design. Toned in speckled russet and sea-green shades.
- 5119 1854 Arrows MS 64. A well struck example of this very popular type showing excellent luster and some light patina.
- 5120 1855 Arrows MS 64. Mostly brilliant and struck from severely clashed and rusted dies.
- 5121 1857-O AU 58. While a common date among New Orleans half dimes, this particular coin is quite a special item. The fields are almost completely prooflike and the striking details uncommonly bold for an O-mint. At first glance this coin appears to be a branch mint proof. While such a coin was sold at public auction in 1962, this piece has certain attributes that preclude such a label. The coin has die cracks that connect all the obverse stars, and die cracks are very rare on proof strikings. There is also incomplete die polishing in the center of the reverse and toward the denticles. Additionally, the denticles are weak on the obverse, and there is a slight softness of strike on the highpoints of the wreath on the reverse that is inconsistent with a coin that has been doubly struck. Still, a very impressive coin, and one that should garner a significant premium.

- 5122 1859 MS 65. Intricately detailed with sea-green toning fading to steel-violet in the centers. An often overlooked, one year type coin with the so called "Hollow Stars" on the obverse. Very scarce in gem condition.

- 5123 1871 MS 64. Bright satiny luster with traces of coppery-gold toning at the borders.

- 5124 1872 MS 65 Obverse Stain. Frosty golden-toned surfaces with partial wire edges on both obverse and reverse. The luster is subdued by a small, curved stain along the right obverse edge.

- 5125 1872-S MS 64. Mintmark Above Bow. Clean surfaces framed in specks of russet and green-gold toning.

EARLY DIMES

- 5126 1796 Good 6 Scratches. JR-2, R.4. There are numerous intersecting scratches on both sides of this first year issue coin. Also, several darker toning spots are noted. A good space filler.

- 5127 1796 VG 8 Repaired and Reengraved on the Reverse. JR-4, R.4. Extensively used in the channels of commerce and showing heavy wear as a result. There are several marks on the obverse and a planchet flaw on the cheek of Liberty. But the real problems are on the reverse where repairs were made and then the eagle was amateurishly reengraved.

- 5128 1805 MS 63. Four Berries. JR-2, R.2. By far the most common variety of the year, 1805 dimes are also one of the most common dates of the type, and along with the 1796 and 1807, these are the three dates most frequently chosen for type purposes. This is a memorable early dime. The luster has a warm glow beneath the rich steel-blue and rose obverse toning, the reverse is much lighter. The striking details are especially pronounced with some definition even seen on the eagle's breast on the reverse, just lacking a bit of highpoint details on the shield. A very choice specimen.

- 5129 1807 XF 40 Slightly Bent and Cleaned. Surprisingly well struck for the issue, but of course showing softness on the left side of the obverse as always seen. The deep toning helps partially obscure a cut that runs across the neck of the eagle and past the upper right shield point.

BUST DIMES

Spectacularly Toned 1827 Dime

- 5130 1827 MS 64. JR-3, R.1. Well struck and highly lustrous, the obverse is toned in multiple shades of spectacular rainbow color while the reverse is a monochromatic golden-brown. An immensely attractive piece with only the slightest surface flaws that prevent a gem grade.

- 5131 1834 MS 63. JR-5, R.1. Well struck and showing no detracting abrasions on either side, the mostly brilliant surfaces are just a bit lackluster to grade any higher.

SEATED DIMES

- 5132 1855 Arrows MS 63. Toned a medium gray with deeper reddish-gold hues about the peripheries.

- 5133 1856-S AU 50 Cleaned. Since retuned an irregular steely-gray. The low-mintage (70,000 pcs.) '56-S dime is scarce in all grades and particularly elusive above XF.

- 5134 1873 Arrows AU 50 Polished, heavily polished and exhibiting myriad hairlines as well as some peripheral green color; and a 1913 AU 50, untuned and well struck. (Total: 2 coins)

- 5135 1873 Arrows MS 64. Satiny surfaces and a bold strike are present on this specimen with slightly subdued luster.

- 5136 1884 MS 62. Well struck, both the obverse and reverse are a combination of coppery-red and bright golden colors. At a glance, this coin resembles the coloration of a mint-red Indian cent. One tiny scratch is noted at the top of the obverse near the rim area.

- 5137 1885 MS 63 Questionable Toning, in bright green, orange, and rose hues; and an 1889 dime Love Token Fine 15, with the Lord's Prayer on the reverse. (Total: 2 coins)

PROOF SEATED DIME

- 5138 1871 PR 63 Possibly Cleaned. Watery surfaces with a splash of golden color in the center of the reverse. The devices are somewhat mushy in appearance.

BARBER DIMES

- 5139 1905 MS 60, some golden-rose toning shows on the obverse; 1914 AU 58 Cleaned and Retuned, unnatural iridescent toning hues; and a 1914 MS 60, pale violet patina on each side. (Total: 3 coins)

- 5140 1911 MS 62. Light, even toning. Ex: 1992 ANA Early Spring Auction (Heritage, 2/92), lot 909, flip accompanies.

- 5141 1914-D MS 65. The obverse is toned in a mixture of rich reddish-gold and steel-blue. Final year of Denver mint production of the Barber design.

PROOF BARBER DIMES

- 5142 1894 PR 64. Splendid golden toning, lightening only in the center of the reverse.

- 5143 1897 PR 63. Lightly toned in milky golden hues with moderate underlying contrast.

- 5144 1901 PR 63. Both the fields and devices are equally mirrored and highly reflective on this untuned piece. A few minor hairlines are seen on the obverse.

- 5145 1903 PR 64. Deeply toned in steel-blue and coppery-gold shades.

- 5146 1904 PR 65. A dazzling, beautifully toned example outlined in orange-gold and blue iridescence.
- 5147 1906 PR 64. Both sides are toned in speckled gray-violet and sea-green shades.

MERCURY DIMES

- 5148 1919-S MS 62, Lustrous and well struck with nearly full band definition; 1935 MS 65 Full Bands, fully brilliant and untoned; and a 1937 MS 64 Full Bands, satiny luster. (Total: 3 coins)
- 5149 1920-S MS 63 Full Bands, Questionable Toning. Boldly struck, as are the majority of this conditionally rare issue, with colorful rose, green, and orange iridescence seen mostly on the obverse. Very eye appealing, if not fully original.
- 5150 1921-D XF 40. One of the key dates in the Mercury dime set, a clean, bold, evenly worn example.
- 5151 1925-S MS 64 Full Bands. Another elusive S-mint Mercury in top grades, this piece displays excellent sharpness and is toned in milky steel-violet hues.

TWENTY-CENT PIECES

- 5152 1875 AU 50 Harshly Cleaned. Mostly brilliant with some degree of reflectivity to the surfaces.

- 5153 1875 MS 64. The fields on both sides are deeply prooflike and there are only the slightest marks evident. The striking details are not quite completely brought up in several areas, but curiously the top of the eagle's wing is fully detailed. Near-brilliant throughout with just the slightest haze over the surfaces.
- 5154 1875-CC twenty-cent piece VF 30; and an 1827 half dollar VF 35. Both coins show some light, original toning. (Total: 2 coins)
- 5155 1875-S XF 45. Silvery-gray shading to reddish-gold about the obverse edge.
- 5156 1875-S MS 62 Questionable Toning. The obverse appears to have been lightly cleaned at one time. Exceptionally bold striking.

PROOF TWENTY-CENT PIECE

- 5157 1876 PR 64. A well preserved centennial year proof, exhibiting streaky golden-brown toning over both sides and sparkling fields.

EARLY QUARTERS

Scarce Low 6 1796 Quarter

- 5158 1796 AG 3 Planchet Flaws. Low 6. B-1. By far the scarcer of the two varieties with an estimated 22-25 pieces believed known in all grades. The coin is slightly warped and as a result several spots of much heavier wear show on the reverse. In the center of each side are numerous, small planchet flaws that are somewhat distracting, and there is a long, diagonal scratch that runs across the lower reverse.
- 5159 1806 Very Fine 20. Attractive, original colorations. This example is weakly struck on the shield and eagle, normal for the date. No adjustment marks or untoward circulation defects are noted on either side.

- 5160 1806 MS 62. Softly struck in the centers, as usual, there are very few abrasions on either side. The interior portions of each side are light gray-golden with much underlying iridescence on the reverse. The rims deepen to a dark charcoal-gray on the obverse. A lustrous Draped Bust quarter.

- 5161 1807 XF 40. B-1, R.4, the rarest of the two varieties of this year. This appears to be the B-1b variety which is a later state represented by heavily lapped dies and some loss of detail as a result. One or two very minor rim bruises are noted on either side, but there are no other marks, adjustment or otherwise, to take away from the pleasing, original appearance of this early quarter. Toned in a rich blend of steel-blue and olive colors. A great coin for the specialist.

BUST QUARTERS

- 5162 1815 MS 63. B-1b, R.1. The date, 1815, carries a certain cachet with it that few other dates can rival. Not only is it the first year of issue of the new Capped Bust type, but after the almost 90,000 quarters were struck of this date, a fire broke out in one of the mint's outbuildings, ruining the rolling mills and blank cutters. No more silver or gold coins were produced in the mint until late 1817. This coin has uncommonly good luster for the grade. It sparkles across the surfaces and is not diminished in the least by the light gray patina that is gently draped across both sides. The fields appear to be somewhat reflective, another uncommon trait. The grade of the coin is derived mainly from the numerous tiny contact marks seen mostly on the obverse.

- 5163 1828 MS 62. B-1a, R.1, curl base 2 in the date and the denomination. The obverse of this piece shows some definite prooflike tendencies beneath a layer of moderately deep, lilac toning. The reverse is slightly less brilliant and shows similar color, perhaps with some steel-blue highlights not seen on the obverse. Softly struck on the left side of the scroll, an area that opposes the tip of the bust on the obverse. While not rare as a variety, the condition of this coin is quite scarce for the type.

- 5164 1828 25/50C VF 30. A scarce and elusive variety, the overcut feature on the denomination shows clearly without magnification. Sharpness of detail is usually lacking on this issue, but this coin is an exception.

- 5165 1833 AU 50. Mostly brilliant and displaying a couple of light planchet streaks on the reverse. The lowest mintage issue of the Small Size Bust design and scarce in higher grades.

- 5166 1834 AU 55 Cleaned and Retoned. Well struck and sharp.

SEATED QUARTERS

- 5167 1841-O MS 62. One of the more available, early O-mint Seated quarters due, in part, to the discovery of a small hoard (at least 40 specimens) during excavation for the foundation of the Meridien Hotel in New Orleans' French Quarter in 1982. The fields lend a reflective quality although there are several injuries and abrasions. Some questionable toning has curiously formed in the areas of the surface flaws.

- 5168 1853/4 Arrows and Rays VF 20. One of the strangest overdates in U.S. coinage history. According to Breen, this was an obverse die that was made in late 1853 when dies were being prepared for usage in both 1853 and 1854. Apparently, this obverse die received a blow from an 1854 logotype, then several heavier ones from the 1853, resulting in this curious variety. Even wear and a light, dove-gray appearance adorn this rare specimen.

- 5169 1877-S MS 63. Satiny and essentially untuned.

PROOF SEATED QUARTERS

- 5170 1859 PR 63 Questionable Toning. Modest reflective qualities beneath a uniform layer of deep steel-gray toning. 1859 marked the second year of stepped-up production of proofs for collectors, with 800 pieces reportedly struck, many of which were melted at year's end, leaving only an estimated 40 to 60 pieces in collector's hands today.

- 5171 1862 PR 65. Only 550 proofs were struck during this Civil War year. This exceptionally attractive specimen is moderately toned on both sides in equal amounts of deep-crimson, green-blue, and rich-gold amid nicely reflective fields. Lots of eye appeal.

- 5172 1878 PR 62. Subdued luster is covered with an opaque, milky patina. There are a few contact marks in the fields.

- 5173 1881 PR 64. Frosty cameo devices are visible through a veil of golden brown toning. The surfaces are deeply mirrored and just a few tiny hairlines are visible.

BARBER QUARTERS

- 5174 1904 AU 55. Nearly full luster on both sides with a smattering of light-golden patina.

- 5175 1908-D MS 64. Nearly a gem with frosty, lustrous surfaces that are nearly untuned except for a hint of light golden color. Just a few tiny lines are visible in the right obverse field and on Ms. Liberty's neck.

- 5176 1909 MS 64. A little golden color appears over very lustrous, satiny surfaces. A handsome, well struck example.

- 5177 1915 MS 62. A lustrous, boldly struck specimen.

PROOF BARBER QUARTERS

- 5178 1896 PR 62. The obverse exhibits a rather subdued, milky gray appearance while full proof brilliance is in evidence on the reverse.
- 5179 **1904 PR 65.** Bright, mirrored surfaces with specks of subtle golden-violet toning over both sides. A top quality proof Barber.

STANDING LIBERTY QUARTERS

- 5180 1917 Type One MS 62. Untoned and well struck as most are.
- 5181 1917-S Type One AU 50, bright and well struck with just a bit of rub on the highpoints; and an 1876 Trade dollar AU 50 Cleaned, numerous hairlines show in the reflective fields. (Total: 2 coins)
- 5182 **1917 Type Two MS 66.** An exceptional snowy white specimen with virtually "Full Head" detail. One would be hard pressed to find a frostier, more eye appealing '17 Type Two quarter.
- 5183 1920-D MS 64 Dark Toning. Virtually mark-free and overlaid in deep olive-gold toning with charcoal specks in the protected areas.
- 5184 1920-D MS 64. Quite clean for the grade with just a whisper of golden obverse color and sharp highpoint details.
- 5185 1923 MS 62. Well struck with near full head detail, some pale-rose patina has accumulated on both sides.
- 5186 1923 MS 66 Full Head. Blazing luster and a strong strike with about a 90% full head.

- 5187 **1924-D MS 65.** Beautiful sky-blue, violet, and golden patina appear on either side. 1924-D quarters with a full head are considerably rarer than those with the typical flat heads. This example shows almost complete detailing of the head, with 98% of the features present.
- 5188 1928-D MS 65. A boldly struck gem with delicate light golden toning and frosty, lustrous surfaces. The head is 95% full and quite scarce as such since this date is seldom found fully struck.
- 5189 1928-S MS 65. Milky golden-gray surfaces with darker gray peripheral highlights.
- 5190 1930 MS 63 Full Head. Untoned and just a couple of pinpoint marks from gem quality.

WASHINGTON QUARTERS

- 5191 1932-D MS 63. A fully brilliant and lustrous example of this first year key.
- 5192 1932-S MS 64. One of the keys to the set, this example displays beautiful, multicolored toning hues of lime-green, orchid, and rich-gold. An often elusive date.

EARLY HALF DOLLARS

- 5193 1794 Fine 12 Polished. O-101a, R.4. The surfaces exhibit a very bright, polished appearance. There are some adjustment marks on the reverse, but no detracting, heavy abrasions. A popular, first year half dollar.
- 5194 1806 Fine 12. Knobbed 6, Small Stars. O-105, R.2. A scarcer variety with natural, deep-gray patina on both sides. There is some weakness on the upper right field area of the reverse.
- 5195 1806 VF 20 Cleaned. Pointed 6, Stem Not Through Claw. O-109, R.1. Abrasively cleaned at one time, now retoning nicely.

- 5196 1806 XF 40. O-115, R.1. Obvious double cutting of TY in LIBERTY on the obverse, the surfaces are clean and unmarked. This specimen is darkly toned on both sides.
- 5197 1807 Draped Bust Good 4. O-102, R.2. Well worn but undamaged.
- 5198 1807 Draped Bust VG 10. O-109a, R.3. Mostly brilliant from having been cleaned at one time, the surfaces show the resulting hairlines running in all directions on both sides. Softly struck in the centers.
- 5199 1807 Draped Bust Fine 12. O-105, R.2. The centers have a gray-brilliance on each side that deepens to a ring of golden-brown and blue at the margins. There are several deep adjustment marks on the portrait on the obverse, and numerous shallow ones on the left wing of the eagle on the reverse.
- 5200 1807 Draped Bust VF 20. O-105, R.2. A nicely struck, well centered example with no detracting marks or abrasions as so often seen.
- 5201 1807 Draped Bust XF 40 Obverse Planchet Flaw, Tooled. O-109a, R.3. An obvious planchet flaw is seen under Liberty's hair ribbon, a crude attempt has been made to disguise it.

BUST HALF DOLLARS

- 5202 **1807 Capped Bust MS 60 Cleaned.** O-112, R.1. Gorgeous rainbow pastels frame both sides of this frosty example. In fact, most collectors will find this beautifully toned first year issue to be nicer than many higher graded coins that are not as colorful.
- 5203 1811 XF 40. Small 8. O-108, R.2. Untoned and nicely detailed, approximately 5% off center.
- 5204 1812 VF 30, some evidence of die clashing shows on each side, there is a small rim nick at 6 o'clock on the obverse; and an 1825 VF 30, attractive original toning. (Total: 2 coins)

- 5205 **1812 MS 64.** O-104a, R.1. A well struck example with exceptionally clean fields, virtually void of impairments. This specimen exhibits some deep steel-blue and gray patina overlaying the lustrous, satiny surfaces.
- 5206 1814 VF 30, light-gray toning; 1824 VF 30, the obverse has sunset colored patina, the reverse is bright; and an 1831 VF 30, a small cut in the left obverse field. (Total: 3 coins)
- 5207 1815/2 VG 8 Scratches. A couple of bisecting scratches are visible on the obverse. Untoned and bright in appearance, a well worn example of this key date in the Turban half series.
- 5208 1817 AU 55. O-103, R.2. The "Punctuated Date," so named because of a period-like die dot between the 1 and 7 in the date. Fully original, abundant luster is seen under some natural toning.
- 5209 1818/7 AU 50. Small First 8, "Horned" Second 8. O-102, R.1. Lightly toned in golden-brown shades with some decidedly prooflike tendencies on both sides.
- 5210 1819/8 MS 60. O-104, R.1. Untoned, the surfaces of this popular overdate appear free from noticeable abrasions. The fields, particularly on the reverse, appear quite grainy, but the coin is still an attractive piece.
- 5211 1821 AU 50 Lightly Cleaned. O-105a, R.1. An attractive silvery-gray example with golden-brown toning at the peripheries.

5212 1824 MS 64. O-115, R.2. Well struck with medium-gray patina and undertones of deep-gold. A choice and desirable example of a Bust half dollar and an impressive type coin candidate.

5213 1825 MS 63. This appears to be an O-115, but there is no small bar near the right base of the 1, so we cannot be certain. Brightly lustrous beneath deep layers of golden-brown and charcoal-gray toning. Well struck in the centers.

5214 1826 MS 60. O-111, R.2. Bright mint luster with dingy gray toning in the centers, framed by a ring of deep blue color at the periphery.

5215 1827 Fine 15. O-109, R.4. An original example of this scarce die variety, displaying only smooth, even wear.

5216 1830 AU 50 Cleaned. O-105, R.4. Myriad hairlines show on the bright surfaces under close examination, but still a respectable example.

5217 1832 XF 40, medium original toning, a staple scratch shows on the obverse as does a large die break on the reverse; and an 1832 AU 55, very lustrous with some light toning. (Total: 2 coins)

5218 1832 MS 63. Small Letters. An attractive Bust half whose bright, semi-prooflike fields are covered with several layers of hazy gray-blue color and occasional rose undertones.

5219 1833 MS 63. O-112, R.2. An original coin with mostly medium gray color, and some scattered, multicolored hues. The stars on the obverse are a bit soft, but the reverse is quite sharp.

5220 1834 MS 60. O-108, R.2. Some deep-gray toning is present on both sides. Well struck and sharp.

5221 1834 MS 63. O-106, R.1. A handsomely toned, choice specimen overlaid on both sides with rich-golden toning. Abundant mint frost is present under the patina.

5222 1836 Lettered Edge MS 63. O-103, R.4. Final year of issue before the advent of steam presses in the mint, and a popular type coin as such. This is an attractive, well struck piece that has light centers that deepen quickly in hue toward the rims.

5223 1838 Reeded Edge MS 64. The centers are well struck up, the peripheral areas are somewhat soft. Some mottled toning shows on each side and only a few contact marks on the obverse account for the grade.

5224 1839-O XF 45. A perfect, problem-free specimen, gray-gold in color with some of the normal peripheral die breaks and remnants of luster.

SEATED HALF DOLLARS

Brilliant Gem 1848-O Half
Previously Unlisted Die

5225 1848-O MS 65. While not one of the rarer O-mint No Motto halves, the '48-O is an issue that can occasionally be located in mint condition. As such, it is of considerable importance to collectors as so few New Orleans coins from this decade are available in better grades. This is a sharply defined half that is brilliant and shows sparkling mint luster. Only minor abrasions are noted, none of which are individually significant.

This coin was struck from a die that is unlisted in the Breen and the Wiley & Bugert references. The 4 in the date is normal, and the mintmark is complete, but there is evidence of die rust in the right obverse field. Die rust is known on the Filled 4 coins on the central device of Liberty and in the date area, but we believe this may be the first time this die variety has been listed and identified.

5226 1854-O Arrows MS 60. Fully lustrous with only minor scuffiness in the obverse field.

5227 1858-O MS 60. Only the slightest friction in the fields interrupts fully frosty, untuned surfaces.

5228 1869 MS 63. A needle sharp strike, semi-reflective in appearance with wire rims on both obverse and reverse. Rich-golden peripheral toning is present on both the obverse and reverse. Scarce in choice uncirculated, like all early Motto half dollars.

5229 1873 Arrows AU 50 Harshly Cleaned. Brilliant from having been cleaned, the striking details are very well brought up and the fields are quite bright with prooflike reflectivity. Lest anyone think this is a proof, proof strikings have incomplete drapery at the elbow, this piece shows complete drapery.

5230 1873 Arrows MS 63. Frosty white and without any appreciable surface marks. Because of its status as a two-year type coin and lack of availability in mint state grades, this issue is important as part of the short-lived Arrows design.

- 5231 1874 Arrows AU 58 Artificially Toned. Sharp details on this cosmetically tragic specimen.
- 5232 1875-S MS 60. Both obverse and reverse are toned in pretty, mottled shades of pale-violet and russet.
- 5233 1875-S MS 62. Toned a milky golden-gray over both sides.
- 5234 1879 MS 62. Subtle prooflike qualities muted by hazy orange-gold patina. One of just 4,800 business strikes issued.

PROOF SEATED HALF DOLLARS

- 5235 1886 PR 63. Handsomely toned with an almost medallion-like appearance, displaying broad, squared-off edges and razor sharp features. Popular low total mintage date.
- 5236 1888 PR 60 Cleaned. A thoroughly hairlined specimen with only traces of peripheral color here and there. Low total mintage date.

BARBER HALF DOLLARS

- 5237 1892 MS 62 Lightly Cleaned. Fully detailed and brilliant with a few barely discernable slidemarks on the obverse.
- 5238 1897 AU 58. Brilliant with just the slightest rub on the highpoints.
- 5239 1902 AU 50. Sharp and untuned with much remaining luster.
- 5240 1915-D MS 63. Nicely reflective fields exhibit some mottled toning and a very sharp strike. The final year for Barber half dollars.
- 5241 1915-S MS 62. A boldly struck example with milky-gray surfaces and speckled violet and sea-green overtones.

PROOF BARBER HALF DOLLARS

- 5242 1902 PR 64. Both sides are layered in golden-violet toning and occasional splashes of bluish-green.
- 5243 1909 PR 63. Deeply reflective with glorious rose-violet and bluish-green iridescence on the obverse.
- 5244 1909 PR 63. Virtually hairline-free and covered in a milky gray-gold patina.

WALKING LIBERTY HALF DOLLARS

- 5245 1917 MS 65. Lustrous, clean surfaces are enhanced with some sunset toning on each side. An affordable, high-grade early Walker.
- 5246 1917 MS 65. An especially attractive, moderately toned specimen. The fields are clean and lustrous.
- 5247 1921-S VF 35. A scarce mid-grade example of this popular key, medium gray in color with a few light spots on the eagle.
- 5248 1935-D MS 63, well struck for this often poorly defined issue, with frosty devices and only a few minor field marks; and a 1935-S MS 63, dusky gray surfaces. (Total: 2 coins)
- 5249 1947 MS 63; and (2) 1947 MS 64. Two of the coins show some evidence of verdigris, but all three are sharp and attractive. (Total: 3 coins)
- 5250 (2) 1947-D MS 63; and (1) 1947-D MS 64, all three are lightly toned and a couple show some evidence of verdigris. (Total: 3 coins)

FRANKLIN HALF DOLLARS

- 5251 1949-S MS 65. One of the key dates to the series, a frosty specimen exhibiting beautiful, colorful toning on both sides. A *must see* coin for the toning enthusiast. ANACS certificate (No. BJR-203) accompanies.
- 5252 1949-S MS 66. Lovely mint set toning that is deeper on the obverse.

EARLY DOLLARS

- 5253 1795 Flowing Hair Good 4 Mount Removed, Damaged, Date Re-engraved, Cleaned. B5, BB-27. Yes, this one has seen it all. Looks like Forrest Gump's first effort at retooling.
- 5254 1795 Flowing Hair Fine 12 Lightly Scratched and Initialed. B-5, BB-27. The most frequently seen Flowing Hair dollar of 1795, and the variety most often used for type purposes. The centers are bright and light in color, deepening considerably toward the rims. There is a long, curved scratch on the obverse extending from the 7 in the date to the 8th star, that at first glance looks like a die break. In the right obverse field is the initial V, upside down and with serifs on top.

- 5255 1795 Flowing Hair VF 35. B-7, BB-18, State II. Toned in darker shades of gray and blue with light underlying iridescence. The surfaces are marred by several scratches (three of which intersect) toward the left rim of the obverse. Slide marks are also noted across the eagle's breast. Otherwise, quite a nice coin for the grade.
- 5256 1795 Draped Bust VG 8 Obverse Adjustment Marks. B-15, BB-52. Cleaned at one time and now retoning slightly. In the center of the obverse, running diagonally across the portrait of Liberty, are numerous heavy adjustment marks, done in the mint to bring the weight of the planchet down to the legal specification of 26.96 grams.

Beautifully Toned 1795 Draped Bust Dollar

- 5257 1795 Draped Bust XF 45. B-15, BB-52. Die State IV, showing the triangular lump in Liberty's hair to the right of the bow. Evenly toned in mottled, rainbow pastels. A lovely example of this scarcer type, available in only two varieties of this year.

- 5258 **1795 Draped Bust AU 50 Smoothed Surfaces.** B-14, BB-51. The surfaces are somewhat dull and are remarkably free from surface impairments, obviously from the coin having been worked on. Still, a well struck piece and also well centered with no adjustment marks. Golden-brown toning frames both sides.

- 5259 **1798 Small Eagle VF 20 Cleaned, Lightly Repaired.** B-2, 15 Stars Obverse, the only such variety for the date. Light to medium gray in color with small circulation marks across both sides made more obvious by the old cleaning. The reverse field shows signs of repair next to the second A in AMERICA. The strike is well balanced and sharp, with no noticeable adjustment marks. The scarcest Small Eagle dollar issue.

Scarce B-3, BB-94 1798 Dollar

- 5260 **1798 Large Eagle XF 45.** B-3, BB-94. One of the scarcer 1798 varieties, distinguished by die dots below the word LIBERTY as well as on the figure of Liberty. Original surfaces with thick gray-lavender toning and accents of olive-green on the highpoints of the design. There is one distinctive mark, that being in the right obverse field just in front of Liberty's forehead.

- 5261 **1798 Large Eagle AU 50 Smoothed Surfaces.** B-14, BB-122, Die State IV. Showing obvious signs of being worked on at the top of the obverse, the coin is a bit softly struck on Liberty's hair curls, but well defined elsewhere. Mostly brilliant with some spotty golden peripheral color.

- 5262 **1799 VG 8 Cleaned.** B-9, BB-166. The so-called "Apostrophe" variety, because of a vertical die scratch to the right of the final S in STATES that resembles an apostrophe. Lightly cleaned at one time, the surfaces are virtually untuned as a result, but not an unattractive coin for the grade.

- 5263 **1799 VF 20 Cleaned.** B-21, BB-169. A small pin prick is visible in the obverse field above Liberty's head. Once cleaned, the coin has retuned nicely.

We Must Be Doing Something Right

Over 80% of the prospective consignors who talk to us eventually choose Heritage to auction their coins. Of course, there is no way we can convince you to consign your coins to Heritage if you never call us. But, it pleases us that we win most of the races we're allowed to enter. Talk to us, and we'll convince you that your coins will get the best results in a Heritage sale.

Spiffy Looking 1799 Dollar

- 5264 **1799 XF 45.** B-11, BB-161. No berry reverse. An attractive coin that is toned in shades of gray and deep-lilac with lime-green accents on the highpoints of the devices. A bit softly struck in the centers. Well centered on the obverse and showing no adjustment marks or mentionable post-striking defects.

High Graded "Dotted Date" B-14 1800 Dollar

- 5265 **1800 AU 50.** B-14, BB-194. The so-called "Dotted Date" that shows several distinctive blobs of metal in the date area from die cracks and some sort of other injury to the die. Well struck in most areas with attractive lime-green and blue patina surrounding the devices. The only mark of note is a curved scrape in the right obverse field.

- 5266 **1801 Good 6 Holed and Plugged, Date Tooled.** B-4, BB-214. Charcoal-gray surfaces, lightening on the highpoints. Numerous light marks on the shield.

- 5267 **1802 XF 45.** B-6, BB-241. A common variety that is distinguished by the date appearing as 18 02, and the right foot of the T in LIBERTY missing. There are only a couple of inconsequential marks on the obverse, and the predominant feature on this coin is the deep, original dove-gray toning evenly distributed across both sides.

5268 1802/1 XF 40. Wide Date. B-3, BB-234. Natural steely-gray surfaces with deeper reddish-gold and sea-green color clinging to the devices. A well struck and basically problem-free example of this early overdate.

5269 1803 Fine 15 Rim Damage. B-5, BB-252. The interior portions of each side are nice enough for the grade—even wear and no adjustment marks—the rims are another matter though. There are several larger hits, on the reverse especially, that are beyond dings and constitute damage. Light gray-brilliant surfaces.

SEATED DOLLARS

5270 1840 Fine 15 Cleaned, however lightly with gray toning about the peripheral devices; 1842 Fine 12, original with a small obverse rim bruise and an old shallow scrape in the right obverse field; and an 1873 VG 10 Brushed, and rather harshly. (Total: 3 coins)

5271 1843 VF 25, particularly sharp for the grade with pleasing, original gray surfaces; and an 1847 VF 30 Cleaned, with a bit of excess metal on the reverse border. (Total: 2 coins)

5272 1843 AU 50 Cleaned and Retoned. Well struck and displaying a dullish, hairlined appearance.

5273 1845 XF 40. Light to medium gray with a faint bluish tint about the stars and lettering. Above-average condition for this scarcer No Motto issue.

5274 1845 AU 50 Polished. The surfaces, now retuned in an original appearing olive color, exhibit a glossy prooflike appearance from the cleaning. Scarcer date, one of just 24,500 pieces struck.

5275 1846-O AU 50 Cleaned and Retoned. Well struck, the bright surfaces are subdued somewhat by the deep, mottled toning seen over both sides. A slightly scarcer issue.

5276 1847 VF 20. Exceptionally smooth and virtually defect-free, a desirable No Motto type dollar.

5277 1857 AU 58. A pleasing, original example with very clean surfaces toned in shades of deep gray and gold. Much mint luster remains and just a trace of wear is visible on the highpoints. A scarce date to find in this condition.

5278 1860-O XF 45 Cleaned. Ample luster with soft yellow-gold overtones and a bit of circular scuffiness about the stars and date.

5279 1862 AU 55. A very scarce date, with a mintage of only 11,540 business strikes. Both sides display bright, metallic luster beneath a layer of silver-gray color, with the reverse showing some orange undertones in the protected areas around the lettering and devices. Nice, and sure to please the collector who has been searching for a balanced, high grade example.

5280 1871 VF 30 Cleaned, to a bright silvery-gray finish; and an 1872 VF 20, problem-free with claims to a higher grade. (Total: 2 coins)

PROOF SEATED DOLLAR

5281 1859 PR 50 Whizzed. A numismatic tragedy...this proof was whizzed at one time and the surfaces are covered with innumerable hairlines that go in all directions. Still, the fields retain much reflectivity, and the coin can be identified as a proof by the repunching on the base of the 1 in the date, and an inner line that shows above UNI on the reverse—both characteristics of proof striking.

TRADE DOLLARS

5282 1873-CC VF 20 Cleaned, scarcer first year issue; and an 1875-CC VF 20, evenly worn with roughness about star 6. (Total: 2 coins)

5283 1873-CC AU 50. Slightly dulled by an old cleaning and showing a diagonal planchet streak across the obverse. First year issue, scarce in high grades.

5284 1873-CC AU 58. Uniformly toned in golden-gray shades. Lightly worn and free of any obvious marks or defects. This date has one of the lowest mintages of any business strike Trade dollar (124,500 pieces).

5285 1874 MS 62. A respectable example of this interesting issue of U.S. coins. The smooth, semi-reflective surfaces are enhanced by pale-rose and gray toning on both sides.

5286 1874-CC AU 55 Cleaned. Bright and untuned with very little in the way of actual wear, but modestly hairlined.

- 5287 1874-S XF 40, untoned with considerable luster remaining; 1875-S XF 40 Cleaned, a flat strike on Liberty's head, the surfaces have since retoned; and an 1876-S XF 40, quite choice and original save for a few obverse rim bruises. (Total: 3 coins)
- 5288 1876-CC AU 50. Once cleaned and since retoned in splotchy coppery-gold hues.
- 5289 1876-S AU 58. An untoned, affordable example of this interesting issue.
- 5290 1877 VF 30 Cleaned; 1877-S Fine 15 Cleaned; and an 1878-S Fine 15 Cleaned. (Total: 3 coins)
- 5291 1878-S AU 58. A sharp, essentially mint state coin with minimal abrasions and milky gray-gold overtones.

PROOF TRADE DOLLARS

- 5292 1877 PR 64. Some deeper toning shades of steel-blue and magenta accentuate the mirrored fields. There is a small "lint mark" touching the eleventh star that occurred at the time of production. A choice proof example of a very interesting issue.

- 5293 1879 PR 64. First of the proof-only years at the end of the Trade dollar series, this is a dazzling, deeply mirrored example whose devices are heavily frosted and contrast nicely against the "blackness" of the fields. Lightly hairlined, the only mark of note is in the left reverse field next to the eagle's wing.

PROOF MORGAN DOLLARS

- 5294 1884 PR 60 Cleaned. Just the lightest golden toning is visible at the borders, with complete proof brilliance and wispy hairlines.
- 5295 1892 PR 62. The fields show some hairlines and a couple of contact marks account for the grade. Some original gray-blue patina is present on each side.

COMMEMORATIVE GOLD

- 5296 1903 Louisiana Purchase/Jefferson MS 66. A scintillating gold dollar that is virtually flawless and shows rich yellow-golden color over both sides.
- 5297 1922 Grant MS 60. A bright example showing myriad hairlines, particularly on the obverse.
- 5298 1922 Grant MS 62. Fully struck. Formerly Lot 860 from Rarcoa's portion of Auction '90.
- 5299 1926 Sesquicentennial MS 62. Virtually unmarked and well struck, the luster is subdued accounting for the grade.

A Heritage of Excellence

The year 1995 marks the beginning of our 20th year in the auction business. Since 1975, Heritage has conducted nearly 150 sales, with a total prices realized in excess of \$200 million. The experience we've gained over the years goes to work for you every time we have a sale.

Our consignment coordinators carefully examine your coins, and will offer their recommendations regarding grading and certification, two crucial elements in obtaining the best price for your coins. Our expert catalogers consult a wide variety of references, making sure no important attribute of your coin goes unmentioned. Our catalog is sent to thousands of the nation's leading collectors and dealers, many of whom will be in attendance at the convention where the sale is held.

At Heritage, we are continually innovating, and using our two decades of experience to conduct the finest numismatic auctions in the world. Call today to find out how you can become a part of our next sale.

GOLD DOLLARS

- 5300 1849-C Closed Wreath XF 40 Cleaned, Reverse Planchet Flaw. An elusive first year issue from a mintage of just 11,634 pieces. Bright, richly colored surfaces.

Possible Proof 1850

- 5301 1850 MS 63 Cleaned. In our opinion this coin is a proof, however, it is the subject of some controversy within the numismatic community. The coin has been sent to all three major grading services and none of them would declare it to be a proof. Two of them stated it was cleaned and therefore not gradeable. The third service said it was cleaned, but in their opinion a business strike. Since the advent of the grading services a great deal of credibility has returned to the numismatic field. The downside is that the opinion of the services has become the "last word" in the industry. The fact is that there are coins that just don't "fit the mold" or they have a story to tell that goes beyond the norm. We believe this to be such a coin.

Compared to a proof 1889 gold dollar one might conclude that it isn't a proof, but if compared to the twelve known 1849 proof gold dollars one would agree that it was a proof. In those early years the number of proof gold coins made was very limited. Breen notes that the proof mintage for the 1850 gold dollar is 1+ and states "Unknown, though at least one must have been struck in proof for the set made up for the Congressional Committee on the Library, per Patterson letter 9/26/1850." Were we the only numismatists to feel this coin was special we would let the issue die. However, there are a number of numismatic luminaries who, upon viewing this coin, said they were of the opinion that it was a proof. Among them were Jeff Garrett, Art Kagin, Julian Leidman, Jim Halperin, Sal Fusco, and John Pittman. Talk about the elite of the industry! Obviously the issue will not be settled to the satisfaction of all. As is the case for every lot in every sale, the final hammer price will be the judge. We will all watch with great interest as this lot crosses the block. Numismatic history may well look upon this lot as a major event. (See Color Photo)

- 5302 1852 MS 62. Well struck and rich in coloration, there is a tiny scratch above Liberty's head.

- 5303 1852-C AU 50 Obverse Digs. A rare Charlotte mint date with a total production of only 9,434 pieces. The obverse has a reflective quality as well as, unfortunately, some noticeable digs and heavy abrasions. The reverse is poorly defined, as usual, in the center due to foreign matter adhering to the die. An affordable example of this rare date.

- 5304 1852-C MS 60 Cleaned. A worthwhile and collectible example of this elusive date. Although, there are numerous visible hairlines, the coin is very well struck with almost full definition on the reverse. The bright, green-gold appearance is very appealing. Some porosity is noted in the center of the reverse, probably from having been struck with a rusty die. An important and rare date in mint state.
- 5305 1853 AU 58. Well struck and quite satiny in appearance, there is one tiny rim imperfection at 9 o'clock on the obverse.
- 5306 1853 MS 60 Cleaned. Razor sharp and virtually mark-free with pleasing, golden peripheral highlights.
- 5307 1853-C AU 50 Scratched. There are several noticeable scratches, particularly on the obverse. Only 11,515 examples of this scarce date were struck.
- 5308 1854-S gold dollar XF 40 Cleaned, a scarcer Type One issue from a mintage of 14,632 coins; and an 1872-S quarter eagle XF 40 Cleaned, exhibiting less wear than is generally found on this lower mintage, conditionally scarce date. (Total: 2 coins)
- 5309 1855 Type Two AU 50. A solid AU example with ample luster and the usual light die clashing.
- 5310 1874 MS 62 Light Obverse Pinscratches. Full original mint bloom.

CLASSIC QUARTER EAGLE

- 5311 1834 Classic XF 40 Cleaned. Unnaturally bright surfaces reflect a harsh cleaning at one time.

LIBERTY QUARTER EAGLES

- 5312 1851 MS 60 Obverse Scrape. Somewhat dull and lackluster in appearance.

Near-Mint 1857-O Quarter Eagle

- 5313 1857-O AU 58. A rare New Orleans quarter eagle even after a small hoard of 20-30 pieces turned up in Tennessee nine years ago. This is a bright, semi-prooflike coin that shows the usually encountered softness of strike on the eagle. There are no large or distracting marks on either side.

- 5314 1859 MS 63. Frosty and lustrous with a razor-sharp strike. The cheek is exceptionally clean with one light line visible in the left obverse field. A very scarce date in this grade and seldom found nicer.

- 5315 1861 AU 55 Cleaned.

- 5316 1861-S AU 55. With a mintage of 24,000 pieces one would think this might be a reasonably obtainable issue. However, it is much scarcer than the mintage suggests and is very difficult to locate in even the lowest circulated grades. Pieces above XF are exceedingly difficult to find. This is only the fourth example we have handled in the past two years. This is an unusually well struck coin that still shows glimmers of mint frost in the fields and around the devices. Certainly in the condition census for the date. A lot which will receive a great deal of floor activity.

- 5317 1867 MS 60. Rarely seen in any grade, low-end mint state coins such as this are infrequently encountered. The original mintage was a paltry 3,200 pieces, which goes a long way toward explaining the general unavailability of this date. This piece is typical for the issue with its sharp strike and bright, prooflike fields. There is just the slightest friction evident. The most notable marks, if one wished to trace the pedigree of this coin, are a pair on the obverse: one behind the nose and the other at the front of the neck.

- 5318 1871-S XF 40 Reverse Rim Filed. An area on the lower reverse shows evidence of having been filed. A scarce Liberty quarter eagle with a mintage of only 22,000 pieces that still exhibits good eye appeal.

- 5319 1871-S quarter eagle XF 40, Field Repaired, Cleaned, lower mintage, conditionally scarce issue; and an 1847-O eagle XF 40, a more common No Motto ten showing minimal wear and scattered surface marks. (Total: 2 coins)

- 5320 1878 XF 45.

- 5321 1896 MS 60. A very bright, light-yellow appearance is present on each side. A lower mintage, popular later date in the series.

- 5322 1904 MS 62. Bright and well struck, some hairlines are visible on each side.

- 5323 1905 MS 62. Sharp with abundant deep, coppery-red color. A couple of surface scratches account for the grade.

- 5324 1906 AU 50 Brushed.

An Unreserved Sale

All Heritage auctions are unreserved sales. By this, we mean that all lots are sold to the highest bidder. If a consignor bids on his or her own lot, that consignor must still pay a commission.

This is actually an advantage to both the consignor and to the bidder.

The bidder isn't forced to waste time bidding on coins that are unlikely to be sold at the fair market price.

The consignor is better off, because unreserved sales attract more bidders. Your consignment is far more likely to actually sell for the full market value in an unreserved auction sale.

Heritage doesn't waste your time. So, in the words of the Federal Express commercial, "Why fool around with anyone else?"

1901 4 PIECE GOLD PROOF SET

We are pleased to offer for your consideration a four-piece gold proof set from 1901. The coins will be offered for sale individually, and are presented here together photographically for perhaps the last time as a set. We know little about the origin of this set, and cannot vouch that it is an original group of coins kept together from the year of issue. The set does have a uniform appearance, though, with moderate hairlines and a modest field to device contrast from one coin to the next. The year is a relative common one, but this should be understood in the context of proof gold, of which never more than a couple of hundred pieces were made, and often far less. The denomination with the largest mintage is the quarter eagle, the coin we present first:

- 5325 1901 Quarter Eagle PR 64. With an original mintage of 223 pieces, there were far more proof quarter eagles produced than the other three denominations. In fact, more 1901 proofs were struck of this denomination than any other date in the series. This is a glittering jewel that has deeply mirrored proof fields that show only the most insignificant hairlines. The devices have a substantial amount of mint frost, and the resultant cameo contrast is quite sharp.

- 5327 1901 Eagle PR 63. Of the 85 proofs struck, the most generous estimate of the number of survivors today was provided by Breen at 30-40 pieces. This coin shows a bit of the diagnostic repunching on the figures in the date with the base of the 1 most plainly repunched. When viewing this piece we have to keep reminding ourselves that it is "only" a 63, because the eye appeal carries it far beyond the technical grade. True, there are a few wispy hairlines in the fields, but one's attention is directed toward the thick mint frost on the devices and the resultant cameo contrast, rather than focusing on flaws in the fields. A very attractive coin for the grade with the only mentionable contact mark being a tiny one on the cheek of Liberty just below the mouth.

- 5326 1901 Half Eagle PR 64. With only 140 proof half eagles minted, this date was destined to be scarce. No estimate of survivors are given in the literature on this date, but we would hazard a guess that no more than 50 examples remain today in all grades. This is a bright, sparkling proof that displays unfathomable depth of mirrored reflectivity in the fields. The devices are lightly frosted, and there is an area of light die polish that runs diagonally down the face of Liberty—a curious mint-caused phenomenon that interrupts the flow of mint frost. The fields are lightly hairlined, and overall the coin has most of the eye appeal of a gem.

- 5328 1901 Double Eagle PR 63. Only 96 proof double eagles were struck in 1901, and of that number attrition has taken a rather high toll over the decades. Today it is estimated that only 36-40 still remain in all grades, and a fair number are impaired in some way. This piece, like the 1901 proof eagle above, has more eye appeal than one might imagine from the grade. The fields are noticeably hairlined, but again like the 1901 eagle, the devices have a moderate amount of mint frost that provides some cameo contrast. Intricately detailed, as only a proof can be, there is a partial wire rim running around half of the obverse. An appealing coin and a good buy at the PR 63 level.

INDIAN QUARTER EAGLES

- 5329 1908 XF 40; 1910 XF 40; and a 1912 XF 40. Three lightly circulated Indian quarter eagles. (Total: 3 coins)
- 5330 1909 MS 62. Clean, satiny fields.
- 5331 1911 XF 40; 1912 XF 40; and a 1913 XF 40. All three are lightly circulated. (Total: 3 coins)
- 5332 1911 AU 50.
- 5333 1911 MS 60. A well struck, lustrous specimen.
- 5334 1911-D XF 40. Original with a fairly sharp mintmark and a few inconsequential facial marks. Overall, a nice representative of this key issue.
- 5335 1927 quarter eagle XF 40 Digs, a few cuts show on the lower obverse rim; 1910 half eagle AU 50; and an 1881 eagle XF 40 Cleaned, the surfaces have been lightly polished. (Total: 3 coins)
- 5336 1928 MS 61. Sharp.
- 5337 1928 MS 62. Bright and satiny.

THREE-DOLLAR GOLD PIECES

- 5338 1854 AU 50 Cleaned. The obverse shows numerous hairlines as the result of being brushed while the reverse is lustrous and uncleaned.
- 5339 1854-O AG 3. Not as bad as it sounds with full rim details and denticulation. The date is very weak, as is normal, and virtually obliterated on this well worn specimen.
- 5340 1854-O XF 40 Cleaned. Light yellow-gold surfaces with appreciable luster remaining and light hairlines that are not particularly offensive. Popular as the only O-mint of this denomination.
- 5341 1863 XF 40 Polished, Mount Removed. Appears to have been worn as a jewelry piece. A scarcer date in the series.
- 5342 1874 XF 40 Cleaned. Both sides exhibit a bright yellow-gold appearance.

CLASSIC HALF EAGLES

- 5343 1835 XF 40 Harshly Cleaned. Abrasively cleaned, the rims show several cuts and bruises.
- 5344 1835 XF 40. A pale green-gold appearance on both sides. There are a couple of rim cuts on the reverse.

LIBERTY HALF EAGLES

- 5345 1842-D Small Date XF 40 Cleaned. A moderately scarce issue in this grade, the evidence of cleaning has left the coin's surfaces unnaturally bright but a deep orange toning subdues the effect somewhat. Sharply struck throughout.
- 5346 1844-O AU 50. Minimally worn green-gold surfaces with considerable underlying luster still in evidence. Most often seen well circulated.
- 5347 1845 AU 50 Lightly Cleaned. Numerous hairlines show in the fields on this otherwise sharp specimen.
- 5348 1855-S AU 50 Rim Damage. The planchet appears to have buckled slightly, possibly from mounting. Aside from its problems, this lustrous '55-S half eagle is actually a borderline condition census example. Specimens grading XF or better are considered very scarce and mint state pieces are almost nonexistent.
- 5349 1873 Closed 3 AU 58. Scarcer than its Open 3 counterpart, this piece represents a good value at the AU 58 level with only slight friction, and yet considerably less in price than a strict mint state example. Sharply struck with medium orange-gold color.
- 5350 1879 AU 50. Some rich, coppery-gold patina is present on both sides.
- 5351 1880 MS 61, satiny luster with a few small contact marks; and an 1882 XF 40 Cleaned, numerous hairline are visible. (Total: 2 coins)
- 5352 1892-CC XF 40, two coins, one Lightly Cleaned. The same piece also exhibits a small reverse rim nick. A popular, if not overly scarce Carson City half eagle issue. (Total: 2 coins)
- 5353 1893-O half eagle XF 40 Polished; and an 1899-O eagle AU 50, little actual wear, but well abraded. (Total: 2 coins)

- 5354 1897 MS 62. Well struck with satiny luster and just a couple of small scratches on the reverse.
- 5355 1899 MS 62. Satiny and clean.
- 5356 1900 MS 61. Light rose-gold color.

INDIAN HALF EAGLES

- 5357 1909-D AU 55. Only a slight amount of friction is seen on the highpoints.
- 5358 1915 AU 55. Just a little light wear shows.

EARLY EAGLE

Mint State Early Ten

- 5359 1799 MS 60. B. 5-G. The 1799 is one of the more common issues in the series of early tens. This is an above average example from this year with well defined facial features. The hair curls are exceptionally well defined, showing individual strands, and the eagle's breast feathers are all fully articulated. There are virtually no adjustment marks visible on either side, a rarity in itself. The fields are bright and lustrous and the surfaces overall show only minimal abrasions.

LIBERTY EAGLES

- 5360 1841 AU 50 Cleaned and Retoned. While moderately scarce in lower grades, the 1841 is a significant condition rarity at the AU 50 level. This is a very well struck piece that has an unnaturally dark appearance from the retoning. There are several small, diagonal marks in the center of the obverse also. Still, a very scarce item in this grade.

5361 1841-O AU 50 Cleaned. Struck from a mintage of just 2,500 coins, the 1841-O eagle boasts the lowest mintage of any ten-dollar issue from 1839 to 1859. Only a small number of pieces grade VF-XF,1 and higher grade examples are of the utmost scarcity. This specimen is bright yellow-gold and shows the normal amount of scattered surface marks.

5362 1845 XF 40 Cleaned. Myriad hairlines show on each side.

5363 1850 Small Date VF 30. The rarer of the two date varieties by a considerable margin, the average grade of this date is VF. This bright gold example actually shows signs of luster around some of the stars and the date, and is somewhat softly struck.

5364 1855-O XF 40. Most of the surviving 1855-O tens grade VF and below, and XFs are considered very scarce. This specimen is fairly well struck, but the stars and mintmark are a bit soft, as is usual for this date.

5365 1857-S XF 40 Edge Filed. Some luster is still visible under the devices. A scarce date as only 26,000 were minted. Close examination reveals some light edge filing.

5366 1879/8 MS 62. The lower left loop of the 8 is plainly evident within the lower loop of the 9. A rare variety and only the second or third piece we can remember having seen. The coin has dazzling mint luster that radiates from surfaces that are deeply mirrored giving this piece incredible eye appeal. The devices are frosty and the strike is razor-sharp with all of the hair and feather detail clearly defined. A very pleasing coin.

5367 1881-CC VF 30 Lightly Cleaned. Attractive coppery color about the obverse periphery. A few pinscratches can be seen to the right of the portrait. The '81-CC is a median rarity among Carson City tens.

5368 1884-CC XF 40 Brushed, more heavily on the obverse. A popular and scarce CC ten from a small mintage of 9,925 coins.

5369 1886 MS 63. Bright and well struck, the fields on each side are semi-reflective. A very scarce date in choice, mint state grades.

Financially Secure

Heritage Numismatic Auctions is a division of Heritage Capital Corporation, the world's largest coin firm. When you consign your coins to a Heritage auction, you have the peace of mind of knowing that you will be paid in full, and on time.

Financial references, and a net worth letter from Arthur Andersen & Co. are available to you upon request.

5370 1890-CC AU 58. Well struck in most areas and showing some reflectivity in the fields. A popular CC date in the series.

5371 1893-CC XF 40 Harshly Cleaned. This piece displays the sharpness of an AU, but has been extensively brushed, particularly on the obverse. Final year of Carson City production and one of just 14,000 pieces struck. High grade survivors are very scarce.

5372 1901-S MS 62. A popular date in the series that is lustrous and boldly struck.

5373 1905-S XF 45. Well defined with bright yellow-gold color. Scarcer issue.

5374 1907 MS 60. A bright golden appearance.

INDIAN EAGLES

5375 1907 No Motto MS 62. Brightly lustrous and nearly abrasion-free, but a wispy hairline or two limit the grade.

5376 1910-D AU 50. Bright and quite lustrous, an attractive example.

5377 1910-S MS 60. Good luster for the grade and well struck.

5378 1911-D AU 50 Rim Filed. The lowest mintage date of the regular issue ten-dollar Indian coins, only 30,100 were struck. A bright, well struck example. Unfortunately, the rim has been filed in several places in an attempt to remove noticeable rim cuts.

5379 1913 MS 64. Satiny yellow-gold with nicely frosted features and only a few well scattered, insignificant surface marks.

5380 1914 MS 62. Lustrous and boldly struck with just a few scattered ticks and no distracting marks or spots.

5381 1914-D AU 50. A pleasing, uncleaned example.

5382 1915 MS 62. Satiny, lustrous surfaces with the absence of any distracting marks suggesting the appearance of a higher grade.

5383 1916-S MS 61. A conditionally scarce S-mint Indian, this piece is fully lustrous and does exhibit a noticeable rim bruise on the obverse at 3 o'clock.

5384 1932 AU 58. An excellent, affordable type coin.

LIBERTY DOUBLE EAGLES

5385 1853-O AU 50 Sea Salvaged, Cleaned. Rich orange-gold color with only an occasional pinscratch or tiny abrasion in the fields. A scarce New Orleans issue in AU condition.

5386 1860 AU 50 Cleaned. A bright golden specimen with numerous hairlines visible on both sides.

5387 1865 AU 58. Even though AU pieces can occasionally be located of this issue, at the AU 58 level this is a significant coin and worthy of the attention of specialists. This piece looks like a baggy MS 60. The surfaces show numerous small abrasions, and the luster is almost completely intact with just the slightest friction on the obverse. Well struck.

5388 1867 MS 60 Cleaned. Lightly brushed, but otherwise sharp and lustrous.

5389 1871-CC XF 40 Harshly Cleaned. One of only 17,387 pieces originally struck. Evenly worn, with evidence of an abrasive cleaning some time ago. This is the second rarest CC-Mint double eagle, after the incredibly rare 1870-CC.

5390 1874 AU 55. Essentially complete luster with numerous tiny abrasions on the obverse.

A Choice Of Sales

Only Heritage offers you a choice of sales.

Once a month, Heritage holds one of their unique "Bullet Sales." These certified-only sales are always held in conjunction with a major show, and offer exceptionally fast turnaround. Consign as late as two weeks prior to the sale, and get your settlement check only two weeks after the sale.

We also offer our famous "Signature Sales" once a quarter. These sales feature our gorgeous color catalogs and are held in conjunction with one of the year's top conventions such as the ANA or the Long Beach Expo.

Call us for additional details and our latest schedule.

Conditionally Rare 1874-CC

5391 1874-CC MS 60. If a collector needs a CC minted twenty for his set, it is possible—if he stays in XF and below—to find an 1874-CC. However, if he goes above XF, he probably wouldn't be able to find this date. We are pleased to offer a comparatively high grade example, this lot being an MS 60. Although the coin is basically lustrous, there are breaks on Liberty's cheek, and there is a plethora of abrasions probably caused from years of storage (moving around) in burlap bags. Conditionally rare.

5392 1878-CC VF 20 Cleaned. Although well worn on Liberty's highest curls and on her headband, this piece is suggestive of XF on the reverse. A scarcer Carson City date with a mintage of 13,180 pieces, most often seen well worn.

5393 1889-CC XF 40 Reverse Brushed, in a failed attempt to remove planchet impurities.

5394 1890-CC AU 58. Frosty and moderately abraded, showing only a touch of friction on Liberty's cheek. This lustrous example would make an appealing Carson City type coin for a modest amount of money.

5395 1890-S VF 30; and a 1914-D XF 40 Cleaned. (Total: 2 coins)

Rare Mint State 1891-CC Double Eagle

- 5396 1891-CC MS 60. The third rarest Carson City twenty with a mintage of only 5,000 pieces. While rare and valuable in all grades, the '91-CC is especially elusive in strict mint condition. This is an original coin that has frosted mint luster. There are numerous small to moderate sized abrasions on each side and several tiny grease stains (as struck), mostly seen on the reverse. Well struck.

- 5397 1892-CC VF 35 Lightly Cleaned. Less abraded than the typical example with strong evidence of luster about the devices. A fairly common CC issue except in mint state grades.
- 5398 1895 MS 60. A bright, lustrous example with some green-gold patina.
- 5399 1898 MS 60. Coruscant, satiny luster on each side.
- 5400 1899 AU 55. Bright and still very lustrous. There are numerous, tiny abrasions on the obverse.
- 5401 1900 MS 61. A popular, turn of the century issue displaying full, satiny luster.
- 5402 1904 MS 62. Bold and sharp.
- 5403 1904 MS 63. Clean and original with satiny textured fields.
- 5404 1904 MS 64. Attractive, very clean surfaces with vibrant luster in the fields.
- 5405 1904 MS 64. Semi-reflective with delicate orange highlights.
- 5406 1904 MS 64. A frosty, near gem specimen with distinctive yellow-gold color.

PROOF LIBERTY DOUBLE EAGLES

Always Popular 1881 \$20

- 5407 1881 PR 63. A doubly rare proof twenty due to the extremely low mintage (2,199 pcs.) and survival rate (25 to 30 pcs.) of business strikes. The surfaces on this ultra flashy specimen display intense contrast between the watery fields and the heavily frosted features, giving both sides a splendid cameoed appearance. A few wispy hairlines are noticed under a light along with a couple trivial contact marks here and there, mentioned for complete accuracy. The listed mintage for proofs of this year is 61 pieces and we doubt the number extant today exceeds 20 coins, this lovely two-toned example being average or better among the survivors. (See Color Photo)

Extremely Rare 1891 Proof Double Eagle

5408 **1891 PR 64.** The 1891 double eagle from Philadelphia has the unusual distinction of being extremely rare both as a business strike *and* as a proof. Only 1,390 business strikes were produced with perhaps 12 or so known today, while 52 proofs were minted with 15-18 pieces believed extant.

This is a spectacular proof gold coin. The fields have an illimitable depth of mirrored reflectivity and they go "black" as the coin is tilted slightly. The devices are heavily frosted, and the resultant contrast is extreme. There are a few stray hairlines in the fields, but these are totally consistent with the grade and do little to detract from the overall eye appeal of this lovely coin. (See Color Photo)

SAINT-GAUDENS DOUBLE EAGLES

- 5409 1907 High Relief MS 60 Lightly Cleaned. Wire Rim. The extruded rim is quite pronounced on the right side of the obverse and virtually flat to the left. The surfaces show no visible wear, but wispy hairlines over both sides limit the grade.
- 5410 1908 No Motto MS 62. Satiny mint luster.
- 5411 1909 AU 55 Reverse Cleaned. A scarcer P-mint that displays a noticeable rim bruise on the reverse at 8 o'clock.
- 5412 1909/8 AU 58. An appealing, nearly mark-free specimen, just the slightest rub from mint state. Popular 20th century gold overdate.
- 5413 1913-D MS 60. A popular early mintmarked issue.
- 5414 1914-S MS 63. Lustrous with satiny, pebbly surfaces. Delicate pink and green-gold toning appears on both sides. A small depression in the planchet is noted at the extreme left side of the obverse. An important high quality example.
- 5415 1922-S MS 60. A very popular issue in an affordable grade.
- 5416 1924 MS 60. A few light abrasions.
- 5417 1924 MS 60. A bright, lustrous example.
- 5418 1925 MS 60. A visible scratch is in the left obverse field.
- 5419 1926 MS 65. Crisp orange-gold coloring over bright, flashy surfaces. High-end for the grade with superb eye appeal.
- 5420 1927 MS 60. A couple of abrasions to the right of Liberty's head.
- 5421 1927 MS 62. Lustrous with a little light-rose patina on each side.
- 5422 1927 MS 62. A choice type coin.
- 5423 1927 MS 63. Sharp and lustrous.
- 5424 1927 MS 64. Gleaming, bright luster, an exceptional coin.
- 5425 1928 MS 64. Satiny yellow-gold with nicely frosted features.

TERRITORIAL GOLD

- 5426 1853 Assay Office Twenty-Dollar, 900 Thous. VF 20 Damaged, Rims Filed. K-18, R.2. This well circulated Assay twenty has a pot-pourri of problems among which are the above mentioned damage, most obviously a long dent in the lower right obverse, the rims have been filed to remove a small portion of gold, hairlined from cleaning, and showing several planchet flakes, especially on the reverse. Other than that, a nice coin. Listed on page 272 of the current Red Book. Ex: George N. Polis (B&M, 6/91), lot 1027, flip accompanies.

Scarce Mint State A. Bechtler Gold Dollar

- 5427 Undated (1842-52) A. Bechtler Gold Dollar MS 60. K-24, R.3. Of the highest rarity in this condition and a significant type coin as such. Struck from lightly rusted dies and showing a couple of minor planchet flaws. Listed on page 267 of the 1995 Guide Book.
- 5428 1861 Clark, Gruber & Co. Ten-Dollar Fine 15 Fields Smoothed, Polished. K-7, R.4. The coin looks like it may have been mounted in a bezel at one time. That would explain the polishing that looks like it was done by a jeweler. It would also explain the numerous fine marks scattered across both sides, as if the coin had knocked against other coins or buttons for an extended period of time. We do not see evidence of the fields being smoothed, however, and the coin grades at least VF in terms of wear. The Fine grade was apparently given as a net number with the defects subtracted from the technical grade. Listed on page 283 of the current Red Book.

1854 Kellogg & Co. Short Arrows Double Eagle

- 5429 1854 Kellogg & Co. Twenty-Dollar VF 30 Rim Bruise. Short Arrows. K-1, R.5. Distinguished from the other Small Arrows issues by the ball on the 5 in the date. Well defined for a coin of this grade with only slight handling marks noted on each side, except for the above mentioned rim bruise located at 6 o'clock on the obverse. Much deep reddish color adheres to the outer legends. Listed on page 280 of the 1995 Red Book.
- 5430 1852 Wass Molitor Ten-Dollar, Small Head VG 8 Rim Damage, Scratched. K-3, R.7. One of the more affordable examples of this rare and seldom seen Wass Molitor issue. An interesting characteristic of this issue is that the digit 2 in the date has been "plugged" (presumably a 1 was drilled out and replaced with a 2). Heavily worn, there is an area of damage on the upper reverse that is so deep that it can be seen faintly in the date area on the obverse. Several horizontal pinscratches are noted across the center of the eagle's breast. Listed on page 278 of the 1995 Guide Book.

CALIFORNIA FRACTIONAL GOLD

- 5431 1854 Liberty Head Octagonal Quarter Dollar MS 63. BG-104, High R.5. Prooflike.
- 5432 1853 Liberty Octagonal 1 Dollar, BG-526, R.7, VF 30 Mount Removed. Some evidence of tooling at the top is noted, and the surfaces are unnaturally bright as a result of polishing.
- 5433 1873 Indian Head Octagonal One-Dollar AU 58. BG-1123, R.6. Prooflike fields with just the slightest trace of friction.

COINS OF HAWAII

- 5434 1847 Hawaii Cent AU 50. Plain 4. Light, olive-brown surfaces display a hint of mint-red color around some of the devices. A well struck, attractive example of this popular piece of Hawaiiana.

PATTERN

- 5435 1855 Flying Eagle Cent, Judd-167, Pollock-193, R.4, XF 40. Flying Eagle design in a Large cent format with the hook-neck eagle flying left. The reverse is similar to the Braided Hair Large cent. Struck in either copper or bronze with a plain edge. Probably carried as a pocket piece at one time which resulted in the light friction seen over the highpoints. There is one noticeable mark, a curved scratch in the upper obverse field.

CERTIFIED COINS

COLONIAL

- 5436 ANACS 1787 Fugio Cent AU 50. Pointed Rays. STATES UNITED. K-13X. 8.82 grams. Well struck with bright surfaces that still retain some mint luster and even traces of original red at the top of the obverse. There are numerous tiny planchet flakes out of each side, but only a couple that are larger and of singular importance. A tiny edge clip is noticed at 4 o'clock on the obverse. Quite an impressive example of this popular Colonial issue. Listed on page 63 of the 1995 Guide Book.

HALF CENTS

1793 Half Cent—Ex: Miles

- 5437 PCGS 1793 VF 30 B-3, C-3, R.3. EAC graded VF 30. Sharpness of an AU but both sides exhibit roughness, behind the lower curls is an edge dent, another can be found over the left side of the O in OF. Ex: R.L. Miles, Jr. (Stack's, 4/69), lot 1; unknown intermediary; Stack's 9/75, lot 1.

Most of the early copper coins in this sale have been graded and cataloged by noted copper expert Del Bland. Mr. Bland uses EAC "net grading" to determine the grade of a coin. This is done by taking what might be known as the "commercial" grade of the coin, and subtracting the defects seen of the piece to arrive at a "net" grade.

Rare, High Grade 1793 Half Cent

- 5438 NGC 1793 AU 55. B-2, C-2, R.3. EAC graded AU 55. This is perhaps one of the most popular and widely collected American coins, as it represents the first year of production at the minting facility in Philadelphia as well as the first issue of the smallest denomination of U.S. coinage. Few specimens have survived in higher grades due to heavy usage in circulation over many years. This piece exhibits a blunt strike on the hair, cap, line of the bust, and the central-right portion of the reverse. There is a small, dark spot left of the L in LIBERTY, and another left of the base of the 1 in the date. This coin is remarkably well preserved in spite of these few blemishes, and it has a medium brown color overall with a smidgen of original mint red through UNITED and the leaves below. The reverse is rotated about 25 degrees to the right.
- 5439 PCGS 1826 AU 58. B-1, C-1, R.1. EAC graded AU 55. Medium dark steel-brown and faded mint red. Just the slightest amount of friction on the highpoints. A coin that could be greatly helped by brushing were it not entombed in plastic.
- 5440 ANACS 1828 MS 62 Brown. 13 Stars. B-2, C-3, R.1. EAC graded AU 55. Mint state sharpness, and showing a variegated reddish steel-brown color.

- 5441 NGC 1833 MS 65 Red and Brown. B-1, C-1. EAC graded MS 65. Full mint red, lightly toned. Light carbon on both sides prevents an even higher grade. The only mentionable surface defect is a dark spot or perhaps it is a splotch of deeper color on the lower reverse.
- 5442 ANACS 1834 XF 45. Smooth surfaces and a glossy-brown appearance.
- 5443 NGC 1835 MS 65 Brown. Attribute. Smooth, glossy surfaces that still show traces of red color. There are signs that the dies have clashed (come together without a planchet between them), creating an interesting effect on this piece.
- 5444 ANACS 1855 MS 62 Red and Brown. B-1, C-1. EAC graded MS 62. Medium chocolate-brown with considerable mint red on the obverse where a couple of faint abrasions can be seen under magnification.

LARGE CENTS

- 5445 PCGS 1793 Chain Cent—AMERICA Fine 15. S-3, Low R.3. EAC graded VG 10. A pleasing Chain cent in spite of some faint hairline scratches and roughness visible with a glass. On each side one can observe several relatively unimportant edge dents. Dark olive with lighter highpoints.

Choice XF Chain Cent

- 5446 NGC 1793 Chain Cent—AMERICA—XF 45. S-3, Low R.3. EAC graded VF 25. The "Leaning R" variety and the most frequently encountered of the Chain cents. This is an extraordinarily high grade for a Chain cent, a type that is usually seen 20 or more points lower in grade. Excellent surfaces and edges despite some miniscule abrasions, the worst being a small edge dent between T and E in STATES. Traces of verdigris are visible within the chain links. Medium brown and olive, a bit deeper on the reverse. A cent that is always in strong demand and thus would make a fine addition to a date or type collector's set. (See Color Photo)

Attractive But Slightly Porous Wreath Cent

- 5447 **PCGS 1793 Wreath Cent—Lettered Edge, Single Leaf—Fine 15.** S-11c, R.3. EAC graded VG 10. Sharpness of VF 20 but uniformly and finely porous with a scratch and some tiny nicks in the right obverse field, well hidden by the patina. Medium dark steel-brown. A fairly attractive cent despite the roughness.

"Whoever owns a nice Hays 2 has the foundation for a good collection." -- Henry Chapman

Rare 1794 Cent With the Head of '93

- 5448 **PCGS 1794 Head of 1793 Fine 15.** S-19b, High R.4. EAC graded VG 10. Sharpness of VF 30 but uniformly eroded and dark olive in color. The letters in AMERICA are weakly struck and nearly obliterated. Lacking defects other than the erosion and not unattractive. A scarce and important variety. Henry Chapman said, "Whoever owns a nice Hays 2 (S-19) has the foundation for a good collection." Ex: William F. Gable (S.H. Chapman, May, 1914), lot 1251.

Dark But Well Defined S-43 1794 Cent

- 5449 **PCGS 1794 VF 25.** S-43, High R.2. EAC graded VF 20. Sharpness of a VF 35 but porosity is scattered evenly around both sides. Dark olive-steel color with brown highpoints.

- 5450 **NGC 1794 XF 40.** S-60, High R.3. Considerably sharper, but light verdigris is visible throughout the central areas of both sides and through parts of the wreath. A small planchet defect on the top of the R in LIBERTY is the only noticeable surface flaw, but the tops of MERI are weak mostly due to strike. Dark steel-brown color.

Sharply Defined "Shielded Hair" 1794 Cent

- 5451 **PCGS 1794 AU 50.** S-64, Low R.5. The so-called Shielded Hair variety, as the border milling on the left side of the obverse is very deep, shielding Liberty's hair from wear. Light and uniform porosity is noted overall and several faint scratches are in the right obverse field. Well struck with a pleasant brown color.

- 5452 **PCGS 1800/79 VF 30.** S-194, Low R.3. EAC graded VF 20. A faint trace of verdigris shows around some obverse devices and a couple of miniscule marks are apparent on each side. Dark olive and tan color on the obverse, dark olive with tan highpoints on the reverse. An earlier die state with only a fine crack through CA, the right ribbon, and fraction.

- 5453 **PCGS 1804 Good 6.** S-266c, R.2. A Fine coin by degree of wear, but downgraded by the presence of several marks in the center and left portion of the obverse and porous surfaces. A very elusive date among Large cents with an impressively low mintage of only 96,500 pieces. This date is so scarce it was restruck in the 19th century.

- 5454 **PCGS 1812 XF 40.** Large Date. S-288, R.2. EAC graded VF 25. Sharpness of XF 40, but the coin exhibits some abrasions on the obverse including a nick on the ribbon, a shallow dent in the right field, and a plain nick on the bust. Scarce in high grades, this specimen exhibits a pretty reddish-brown color on each side.

- 5455 **PCGS 1816 AU 55.** N-2, R.1. EAC graded MS 60. A lovely medium dark steel-brown cent and defect-free except for a small nick opposite the bust and a tiny one opposite the nose. Bluntly struck on the forelock as this variety almost always is.

- 5456 **NGC 1852 MS 65 Red and Brown.** Well struck with small portions of original red luster still seen on the obverse, the reverse is mostly brown. An attractive example of this common, late date Braided cent.

Most of the early copper coins in this sale have been graded and cataloged by noted copper expert Del Bland. Mr. Bland uses EAC "net grading" to determine the grade of a coin. This is done by taking what might be known as the "commercial" grade of the coin, and subtracting the defects seen of the piece to arrive at a "net" grade.

PROOF LARGE CENT

Proof 1857 Large Cent

- 5457 **PCGS 1857 PR 64 Brown. N-3.** Important as the final year of the Large cent type. There is some uncertainty if the N-3 proofs are originals or whether they were struck in 1858-59 from leftover blanks from the restriking period during James Snowden's tenure as mint director. Characteristic of many of the proofs of this year and variety, this piece exudes a warm, rosy color beneath the coin's glossy brown patina. There is also a significant underlying iridescence that is most appealing. The deeply reflective proof fields are somewhat subdued from the depth of color, but leave no doubt about the status of this coin. When closely examined one notices many tiny lint marks in the fields. Apparently a cloth was used to wipe the dies and static electricity caused lint to cling to the dies and strike their impressions onto the finished coin. Breen estimates that perhaps 80 or so proofs survive of this variety. This is certainly a fine specimen that should bring strong bids from both copper collectors as well as proof type collectors. Population: 6 in 64, only 2 finer (12/94).

INDIAN CENTS

- 5458 **PCGS 1863 MS 64.** A lustrous, well struck specimen. The obverse is very clean and lightly toned a rose-golden color, the reverse displays several die cracks as a result of a failing die, and there is one toning spot on the right side amid sunset toning.

Gem L on Ribbon Cent

- 5459 **PCGS 1864 L On Ribbon MS 65 Red and Brown.** Much of the original red luster is still evident with only slight browning on each side. Sharply struck with no observable abrasions on either side and spot-free. An excellent representative of this scarce, semi-key issue.
- 5460 **NGC 1882 MS 66 Red and Brown.** Very boldly struck, the obverse is fully red, the reverse displays a bit more muted red and tan coloration. An exceptional piece.

Superb, Full Red 1909 Indian Cent

- 5461 **PCGS 1909 MS 66 Red.** A splendid Indian cent and one of the finest type examples we can remember seeing of any date. The surfaces exude a warm reddish-orange glow and both sides are free from carbon spotting. Upon close examination one notices a couple of small abrasions on each side, but these do not detract from the overall eye appeal of this magnificent coin.

PROOF INDIAN CENTS

- 5462 **ANACS 1873 PR 62 Red and Brown.** Much reddish-orange color is seen on both sides with darker accents of olive-green.

Superb Proof 1879 Indian Cent

- 5463 **PCGS 1879 PR 66 Red.** Astonishing quality and exceptionally difficult to find with complete red color on such an early date. The surfaces are a bright orange-red and show virtually no variation in color. Bright proof surfaces and virtually unaffected by post-striking impairments.
- 5464 **ANACS 1880 PR 62 Red and Brown.** Deep, sunset red and golden shades dominate each side. A conservatively graded coin with good eye appeal.
- 5465 **ANACS 1883 PR 63 Red and Brown.** Intermittent shades of deep-red and bright-silver create a visually unusual effect on this choice specimen. No brown color is noted on either side.
- 5466 **ANACS 1884 PR 64 Red and Brown.** Glowing, sunset-red patina graces both sides of this near-gem example.

LINCOLN CENTS

- 5467 **PCGS 1909 VDB MS 65 Red, bright, satiny, and fully struck; 1920 MS 65 Red, the obverse is deep, magenta and gold, the reverse is bright-golden; 1925 MS 65 Red, fully brilliant as issued; 1926 MS 65 Red, rich, red-golden patina; 1929-D MS 65 Red, deep, sunset-red shades; and a 1929-S MS 65 Red, sharp and attractive.** A gem lot of affordable date Lincoln cents, all with bright, original color. (Total: 6 coins)
- 5468 **PCGS 1909-S VDB MS 64 Red and Brown.** One of the key dates in the Lincoln cent set, a darkly toned specimen with just a hint of golden patina showing in the crevices, a bit more on the reverse.

- 5469 NGC 1909-S VDB MS 66 Red and Brown. Intricately detailed in all areas, the surfaces are almost free from carbon but there is one small spot on the left wheat sheaf. Woodgrain toning as often seen, the right side of the obverse is somewhat deeper in color and accounts for the Red and Brown designation.

- 5470 PCGS 1909-S VDB MS 65 Red. A lovely example of this extremely popular Lincoln cent rarity, with delicious orange-red color on both sides and a deep, shimmering, cartwheel luster as well.

- 5471 PCGS 1909-S VDB MS 65 Red. Fiery red color and fully struck. Each side shows small flecks of carbon that limit the grade of this attractive, key date issue.
- 5472 NGC 1909 MS 66 Red. A superb example of this popular, first year Lincoln cent. As normal, first year issues are often hoarded in quantities, resulting in high quality specimens being available. This one looks as if it were just plucked from an original roll.
- 5473 PCGS 1909-S MS 64 Red. Bright, vibrant mint luster. A lovely and unquestionably original coin that is held back from a higher grade by the presence of several carbon flecks on the reverse.
- 5474 PCGS 1910 MS 66 Red. Deep, rich, fiery-red colorations make this specimen glow as if it were a red-hot coal in a campfire. Fully struck, a gem example.
- 5475 PCGS 1910-S MS 64 Red. Original with well frosted features and only faint carbon spotting on the reverse.
- 5476 PCGS 1911 MS 65 Red, razor sharp with light golden-tan color; 1918 MS 65 Red; and a 1919 MS 65 Red. All are vibrant, spot-free examples. (Total: 3 coins)
- 5477 PCGS 1911 MS 65 Red. Satiny surfaces and a bold strike accent this lustrous piece.
- 5478 PCGS 1911-D MS 65 Red. A scarce, semi-key issue that is seldom found in gem condition, and when it is usually has some brown color or softness of strike. This is a fully struck example that has an even red color. The most prominent defect is a small spot in the right obverse field out from the point of the beard.

- 5479 PCGS 1911-S MS 65 Red and Brown. This semi-key date is boldly struck making this quite an unusual, and desirable, example. There is sharp definition of the motto on the reverse as well as on the wheat ears and Lincoln's hair. Pretty sunset-red shades present themselves on both sides, we actually wonder about the reference to "brown" in the grade as there does not appear to be any present.
- 5480 PCGS 1911-S MS 65 Red. Another semi-key issue, like the '11-D, and also usually not seen with a full strike. This is a sharply defined piece that has cherry-red color intermixed with scattered bits of lilac-blue patina over both sides.
- 5481 PCGS 1912 MS 64 Red. Lovely, original color. It does not appear there are carbon flecks on either side, just a few abrasions that limit the grade.
- 5482 PCGS 1912 MS 65 Red. A fully struck coin complete with original mint color. A few tiny carbon flecks are seen under close examination.

Full Red 1912-D Lincoln Cent

- 5483 PCGS 1912-D MS 65 Red. While relatively available in circulated grades, the '12-D is very scarce in mint state and especially difficult in gem condition. This is a sharply struck coin with even red color that shows no variation in hue. Only a couple of very small carbon flecks on the reverse disrupt the surfaces of this premium specimen. (See Color Photo)
- 5484 PCGS 1912-S MS 65 Red. A scarce early Lincoln that seems undervalued when compared to the 1912-D in higher grades. This is a well struck piece that has bright, lustrous surfaces. The obverse displays a deep cherry-red color while the reverse has much gray-lilac patina interspersed with the red on that side. Population: 19 in 65, none are finer (12/94).
- 5485 PCGS 1913-D MS 64 Red. Sharp and original with a few scattered marks and carbon flecks in the right obverse field.
- 5486 PCGS 1913-D MS 65 Red. A scarce coin in mint state and also worth a significant premium in circulated grades. This is a fully struck example with finely detailed whiskers on Lincoln's beard. The color is a slightly subdued red and no carbon is apparent on either side.
- 5487 PCGS 1913-S MS 64 Red and Brown. Deeply lustrous and evenly mellowed to a rich orange-brown color.
- 5488 PCGS 1914 MS 65 Red. A bright red, lustrous example of this popular date.
- 5489 PCGS 1915 MS 63 Red and Brown. Attractive red and orange color, the color is just a bit too mellow to call Red. Interestingly, the PCGS number on the insert is for a Brown coin but the insert actually reads RB.
- 5490 Hallmark 1915-D MS 64 Red. Fully struck with bright mint color.
- 5491 PCGS 1915-D MS 65 Red. Scarcer issue in the better grades of mint state, this piece has bright, satiny mint luster over fine-grain matte-like surfaces. Fully struck, the coin shows attractive mint red color with a bit of flyspecking noted, primarily on the reverse.
- 5492 PCGS 1916 MS 65 Red. Exceptionally bright, original red-gold colorations lightly accent the carbon-free fields.
- 5493 PCGS 1916-D MS 65 Red. Sharply struck with some hazy, opaque patination.

Very Rare Gem 1916-S Cent With Full Red Color

- 5494 **PCGS 1916-S MS 65 Red.** While not recognized as a key date in the Lincoln series, the advent of census data from the certification services has proven how scarce this issue really is. Only 8 coins have been graded in 65 and with red color by PCGS (12/94), and none are finer. To find a coin with comparable striking details to this one, it would be necessary to locate a proof—each whisker is completely defined in the 16th president's beard. There are only the slightest flecks of carbon noted on each side, and the surfaces exude a warm reddish-coppery glow with a slight gray-lilac color accenting the portrait of Lincoln on the obverse. A rare opportunity for the collector of this popular 20th century series.
- 5495 **ANACS 1917 MS 65 Red,** bright color with a few tiny carbon flecks; **1919 MS 65 Red,** sunset-red and bright-golden patina; and a **1929 MS 65 Red,** bright-golden, a partial peripheral ring of deep-crimson has formed. (Total: 3 coins)
- 5496 **PCGS 1917-D MS 65 Red.** Bright, satiny luster and sharply defined throughout. The surfaces have the original reddish-orange color intact with a crescent of blue around the top of the reverse.
- 5497 **PCGS 1918 MS 65 Red.** Fully lustrous, fully struck, and fully original, a premium piece.

Conditionally Rare 1918-S Gem BU Full Red

- 5498 **PCGS 1918-S MS 65 Red.** Extremely rare in gem condition, in fact one of the premier condition rarities in the entire series with only 7 pieces certified by PCGS as gem and with full red color. This is a lovely coin that is sharply struck and displays bright, original, satin-like luster. Both sides show even reddish-orange color with a faint underlying iridescence in the fields. Look for this coin to bring a strong price.
- 5499 **NGC 1919-D MS 63 Red.** Pleasing mint red color but too spotted to grade higher.
- 5500 **PCGS 1920-D MS 64 Red and Brown.** Well struck with slightly subdued color scattered about. Minimal traces of carbon, but remains of a fingerprint can be seen in the left obverse field.
- 5501 **PCGS 1921 MS 64 Red.** Full original mint red color, there are just a few minimal obverse abrasions that remove this from the gem category.
- 5502 **PCGS 1921 MS 65 Red;** and a **1923 MS 65 Red,** blazing luster with subtle reddish-orange accents. A pair of high quality P-mint Lincolns. (Total: 2 coins)

Scarce, Semi-Key 1921-S in Gem Condition

- 5503 **PCGS 1921-S MS 65 Red.** Long considered as a semi-key issue, the 1921-S is usually found with a weakly impressed mintmark and the strike overall is often soft. This piece is the exception, however, as the devices are well defined and the mintmark strongly brought up. Even red color on the obverse with a bit of bright orange intermixed on the reverse. Population: 10 in 65, none are finer.
- 5504 **PCGS 1922-D MS 64 Red.** An exceptionally bold strike with fiery original color. Borderline gem quality.
- 5505 **PCGS 1923-S MS 63 Red.** Weakly struck, as usual, with a spot on each side. Excellent color.
- 5506 **PCGS 1924 MS 65 Red;** and a **1929 MS 65 Red,** the latter just a couple of tiny carbon flecks from superb. (Total: 2 coins)
- 5507 **NGC 1924 MS 66 Red.** Uncommonly bright for the issue with rich-golden color on both sides. A boldly struck gem.

Near-Gem 1924-S Lincoln Cent

- 5508 **NGC 1924-S MS 64 Red.** Bright, satiny luster makes this an appealing, near-gem example of this scarce and difficult issue. The red color is accented by an arc of iridescent blue, scarlet, and orange patina on the right side of the obverse. A bit softly struck on the highpoints, as usual, but remarkably clean for the grade and showing only one obvious carbon spot, that being below the B in LIBERTY. Population: 17 in 64, only 5 finer.

Full Red 1925-D Cent

- 5509 PCGS 1925-D MS 65 Red. While available in circulated grades with relative ease, the '25-D is a very elusive item in gem condition coupled with full red color. This is a sharply defined example that has rich cherry-red color on both sides. Just a bit of light carbon is scattered over each side and limits the grade. Population: 187 in 65, only 1 finer.
- 5510 PCGS 1926-D MS 65 Red. Well struck with rich cherry-red color across both sides, the surfaces are fresh and original, and undiminished by the passage of the decades. On each side there is a field mark that limits the grade, but this is a minor consideration in the overall presentation of this attractive, original cent. Population: 17 in 65, only 1 finer.
- 5511 PCGS 1927 MS 66 Red. Just a couple of pinpoint marks in the field away from perfection. An amazing gem that defies its nearly 70 year old origin.
- 5512 PCGS 1927 MS 66 Red. As pristine and glistening as if it had just been struck, a gem specimen.
- 5513 NGC 1927-D MS 65 Red. An elusive coin above XF with choice mint state pieces being especially difficult. This is a well struck coin with slightly muted, but still complete, mint red color. When closely examined one notices a couple of minor flecks of carbon on each side, not enough to be considered distracting but a grade limiting factor nonetheless.
- 5514 PCGS 1927-S MS 64 Red. Slightly mellowed on the highpoints, with a pleasing, original appearance. Very scarce any finer.

A Heritage of Excellence

The year 1995 marks the beginning of our 20th year in the auction business. Since 1975, Heritage has conducted nearly 150 sales, with a total prices realized in excess of \$200 million. The experience we've gained over the years goes to work for you every time we have a sale.

Our consignment coordinators carefully examine your coins, and will offer their recommendations regarding grading and certification, two crucial elements in obtaining the best price for your coins. Our expert catalogers consult a wide variety of references, making sure no important attribute of your coin goes unmentioned. Our catalog is sent to thousands of the nation's leading collectors and dealers, many of whom will be in attendance at the convention where the sale is held.

At Heritage, we are continually innovating, and using our two decades of experience to conduct the finest numismatic auctions in the world. Call today to find out how you can become a part of our next sale.

Exceptionally Rare Gem 1927-S With Full Red Color

- 5515 NGC 1927-S MS 65 Red. Lincoln cent collectors have long known how difficult several of the S-mints from the 1920s are in gem condition. Anyone who has ever attempted to put together a gem set is well acquainted with this issue and its near impossibility in both gem grade and with full red color. We have not seen one in many years. This is a very impressive specimen. The surfaces are bright orange-red, seemingly unaffected by the passage of so many years since its minting. The strike is as well brought up as one can probably ever hope to find on a '27-S with slight detail seen on Lincoln's beard, but not complete. There are a few microscopic flyspecks of carbon that are mentioned for the sake of accuracy, but these do not have any effect on the overall eye appeal of this important condition rarity. Population: 3 in 65, none are finer.
- 5516 PCGS 1928 MS 66 Red. Glowing sunset-red colorations are equally divided on each side. A fully struck gem.
- 5517 PCGS 1928-D MS 64 Red. Deep cherry-red color with minor flyspecking on each side.
- 5518 PCGS 1928-D MS 65 Red. While available in lesser grades, the 1928-D is quite a find in gem condition. This is a fully struck piece that has even, red color and appears free from carbon. Scarce.
- 5519 ANACS 1931-S MS 63 Red and Brown. The original mint red has uniformly mellowed and now shows as an undertone with most of the coin a light brown. Light flyspecking.

PROOF LINCOLN CENT

- 5520 PCGS 1910 PR 66 Red and Brown. Even, muted brown patina covers the obverse while the reverse shows a large splash of original orange-red. Nearly spot-free, this is an immaculate example of a matte proof cent.

TWO-CENT PIECE

- 5521 PCGS 1864 MS 64 Red and Brown. Well struck and mostly red with some light brown color on the highpoints.

THREE-CENT SILVER

- 5522 PCGS 1851 MS 64. Mostly untuned with bright, satiny luster. Die polishing on the obverse has created a halo of brilliance surrounding the star.
- 5523 PCGS 1851 MS 64. A choice example of a Type One trime that exhibits some natural patina on each side and is well struck. A few roller marks show in the centers, a common occurrence on these coins.
- 5524 PCGS 1852 MS 64. Some satiny luster is visible under mottled-ochre toning. A sharply struck example.
- 5525 NGC 1853 MS 63. Satiny luster is enhanced with mottled, mixed toning shades of golden-magenta and dark-gray.
- 5526 PCGS 1861 MS 64. Peripheral rainbow colorations are present on the obverse, the reverse displays a small arc of color. A popular Civil War year.

PROOF THREE-CENT SILVER

- 5527 NGC 1859 PR 63. Always popular as the first year of type.

THREE-CENT NICKEL

- 5528 PCGS 1865 MS 65. By far the most common three-cent nickel in lower uncirculated grades accounting for over 25% of the entire population for the type. However, in MS 65 it falls into line with many other dates. This type was once nearly \$1,500.

PROOF THREE-CENT NICKELS

- 5529 NGC 1884 PR 64. Moderately frosted devices and mirrored fields, a bit of light-golden toning shows on this piece.
- 5530 PCGS 1885 PR 65. Interesting colorations show on the obverse, wide streaks of bright-gold, sky-blue, and rose-violet, the reverse is pale-rose and light-blue. A shimmering gem.

Superb Proof 1885 Three-Cent Nickel

- 5531 PCGS 1885 PR 67. Brilliant and essentially flawless. The fields are shallowly mirrored, but this can hardly be considered a detractor on such a superb all-around coin.

SHIELD NICKELS

- 5532 ANACS 1867 Rays MS 63. Much scarcer than the 1866 issue with only a fraction of the mintage. Light gray and rose patina, the central devices are a bit softly struck—that being the reason for the design change in this year.
- 5533 NGC 1883 Shield MS 66. A sparkling, original example with sky-blue and deep-golden colorations accenting each side. The finest quality in a Shield nickel.

PROOF SHIELD NICKELS

Rare, Key Date 1877 Shield Nickel

- 5534 PCGS 1877 PR 66. Key date in the Shield nickel series, the 1877 is a proof-only issue with a mintage of only 510 pieces. This is one of the most attractive examples we have seen recently of this important date. The surfaces are toned a light golden-brown over both sides. The obverse fields show a moderate depth of reflectivity, but the reverse is shallowly mirrored. There are no obvious post-striking impairments, but close examination with a magnifier reveals numerous lint marks in the fields. These were created at the time of striking by lint adhering to the die and its impression being transferred to the finished coin, a common occurrence on proofs from this era.

- 5535 PCGS 1883 PR 66. Deep, shimmering proof fields with some light-blue and golden color.

LIBERTY NICKELS

- 5536 PCGS 1883 No Cents AU 58, 1869 half dollar XF 40, 1871-S half dollar AU 55, and an NGC 1890 MS 64 dollar. (Total: 4 coins)
- 5537 NGC 1883 No Cents MS 66. A superlative specimen of this unique, first year type coin. The coin is fully lustrous and complemented with some blue and pastel-violet color.
- 5538 PCGS 1883 With Cents MS 64, well struck with slightly subdued luster; 1889 MS 64, fully struck with some streaky toning on the reverse; and an 1890 MS 64, an attractive coin with a couple of small contact marks. (Total: 3 coins)
- 5539 PCGS 1893 MS 63, bright, well struck, and very lustrous; 1894 MS 61, fully struck with some streaky toning; 1897 MS 63, some light golden color; 1910 MS 62, medium golden patina; and a 1911 MS 63, attractive sky-blue toning on each side. (Total: 5 coins)
- 5540 PCGS 1899 MS 64, a sharp, nicely toned coin; 1900 MS 64, pale blue and gold colors; 1904 MS 64, very choice with multicolored rainbow patina on each side, 1905 MS 64, lustrous with a small contact mark on the reverse. (Total: 4 coins)
- 5541 PCGS 1902 MS 64. Muted gray patina with one reverse spot.
- 5542 PCGS 1912-D MS 63. A better date in the series that displays pretty, soft toning shades, and a very sharp strike. A conservatively graded, abrasion free specimen.
- 5543 PCGS 1912-S MS 63. One of the key Liberty nickel dates, and not often encountered in choice and higher grades. This specimen is attractive with glossy, lustrous surfaces endowed with light, iridescent hues, mostly on the obverse. It is well struck, although not quite full, and there are only a couple of small contact marks prohibiting a higher grade.

PROOF LIBERTY NICKELS

- 5544 PCGS 1883 No Cents PR 65. The always popular No Cents variety.
- 5545 NGC 1883 With Cents PR 66. Nicely mirrored fields reflect through some hazy-golden toning on each side. A very popular, first year proof issue.
- 5546 PCGS 1884 PR 65. Always popular.
- 5547 PCGS 1885 PR 64. The 1885 is considered the key proof date in the series although there was a comparatively high mintage of 3,790 pieces. The higher value of this issue is controlled by the rarity of the 1885 business strike. This coin exhibits nicely mirrored fields complemented with some natural golden toning, and is a very choice selection.

- 5548 PCGS 1886 PR 64, bright and mostly untoned with a little streaky, golden color on the reverse; 1892 PR 64, a glittering, two-tone example with frosted devices, deeply mirrored fields, and a little golden color; and a 1907 PR 64, reflective fields are graced with golden-rose toning. (Total: 3 coins)
- 5549 PCGS 1887 PR 64, a select specimen with a little golden color over brightly mirrored surfaces; 1888 PR 63, a popular date with some hazy, golden patina on each side; and an 1896 PR 64, sparkling with sunset hues of red and orange. (Total: 3 coins)

PR68 Liberty Nickel

- 5550 PCGS 1909 PR 68. As of December, 1994, PCGS has certified only seven proof Liberty nickels in PR 68 with no specimens finer. This is the one, and only, 1909 in this lofty grade. When one views this specimen, only superlatives come to mind. The deeply mirrored fields are flawless and watery, the devices are heavily frosted yielding the highly desired, two-toned cameo effect. Whispers of golden-rose patina are delicately displayed on both sides. Simply a must see specimen!

BUFFALO NICKELS

- 5551 PCGS 1913-D Type One MS 65. Very sharply defined on the obverse, the bright satiny surfaces show some light, rose-golden color. An exquisite early Buffalo.
- 5552 PCGS 1913-S Type Two MS 63. Sharply defined details on each side, an unusual characteristic for this issue. The luster is a little subdued for the coin to qualify for a higher grade.
- 5553 PCGS 1914-S MS 64. A pleasing example with some sky-blue and pale-rose toning. Lustrous, there are a few minor carbon flecks on the reverse.

- 5554 PCGS 1915 MS 65. Sparkling mint luster combines with a bold strike. Some rich-golden toning is present and lends a lot of eye appeal to this gem.
- 5555 PCGS 1915-D MS 64. A highly lustrous specimen enhanced by rich, golden toned surfaces.

Lovely Gem BU 1915-S Nickel

- 5556 NGC 1915-S MS 65. The 1915-S is a scarce coin above Fine and is seldom seen in mint state with gem pieces rated R.4. This piece is well struck, especially on the reverse and shows no objectionable abrasions on either side. The fields are bright and semi-prooflike, probably the result of die polishing done to remove the clash marks that are so often seen on this issue. Light toned in subtle iridescent gradations of color. (See Color Photo)

- 5557 PCGS 1920 MS 65. Bright and fully struck, the obverse is mostly untoned, the reverse displays attractive colorations of pale-blue and gold. A very impressive gem.

- 5558 PCGS 1920-S MS 64. While not completely struck up (very few are), the surfaces are exceptionally clean and clearly suggestive of a higher grade. Light in color with excellent mint frost. Very scarce in the better grades of uncirculated.

- 5559 ANACS 1924-D MS 65. Golden and crimson peripheral toning fades to light-blue centers. An above average strike for the date and a very colorful specimen.

- 5560 PCGS 1927-D MS 64. The lustrous fields are complemented with some golden and blue colors. A slight amount of weakness is noted on the devices, a normal characteristic of this issue.

- 5561 PCGS 1934 nickel MS 64, shimmering luster and some rose and blue toning; NGC 1934-D quarter MS 63, mostly brilliant with a light, opaque haze; and a PCGS 1943-S half dollar MS 64, bright, satiny luster. (Total: 3 coins)

- 5562 ANACS 1934-D MS 65. A well defined example, the luster is subdued under multicolored toning shades.

5563 PCGS 1937 S MS 66. A scarcer example in the superb category. Fully bright and sparkling.

5564 PCGS 1937-S MS 66. Another superb example with light, original patina on each side.

EARLY HALF DIMES

Beautifully Toned V-8 1795 Half Dime One of Only 5 Believed Known

5565 PCGS 1795 AU 50. V-8, R.7. Showing the diagnostic rim to rim die crack on the obverse that passes through the lowest curl and terminates left of the T in LIBERTY. A very rare variety, Breen estimates only 5 pieces are extant. An attractive example of this always popular second year of issue, the centers are untuned while the margins are heavily toned a deep golden-russet and blue color. Well struck on the obverse with the usually seen softness of detail on the eagle's breast. The only marks of note are a few scratches that run parallel to the back of the head of Liberty, otherwise showing only the normally encountered handling marks.

5566 PCGS 1795 AU 58. V-5, R.3. Seven curls, the first star points between curls 2 and 3, the reverse shows the berries arranged 3-4 with none beneath the wings. The bold diagnostic die crack extends from the upper rim to Y in LIBERTY to the nose and then across the neck to the top of the 7 in the date. Toned an even, light gray on both sides, there are virtually no adjustment marks noted on either the reverse or obverse. Very sharply struck on the obverse with the usually seen softness on the eagle's breast.

Choice BU V-4 1795 Half Dime

5567 NGC 1795 MS 63. V-4, R.4. Easily attributable by the large rim break over TY and on down to star 9. Undoubtedly from the Wadsworth-Rea hoard from the early 1880s, this coin is mostly brilliant with just the faintest suggestions of color evident when angled just so. The striking quality is variable with strong detailing on Liberty's hair curls and the peripheral stars. On the reverse, the left wing of the eagle is mushy but there is some faint definition on the feathers on the eagle's breast. A clean piece overall that is held back from an even higher grade by a lack of luster.

Don't Procrastinate

Every auction, it seems, somebody tells us, "If only I'd known that such-and-such a lot was going to sell for only \$ _____, I'd have gladly paid that price or more."

There are always great values in every auction sale. But, you can't buy them unless you bid. If you would buy a particular coin at a price, bid on it. You may even be pleasantly surprised, and buy it for well below your maximum bid.

Well Struck, Almost Uncirculated 1796 Half Dime

- 5568 PCGS 1796 AU 50. V-1, R.4. The first of only two years of issue for the Draped Bust, Small Eagle design type, this is a scarce, low mintage date with only 10,230 pieces originally produced. Well struck on the central devices with good definition on the feathers of the eagle, the only area of striking softness we see is on the wreath on the reverse. Much original luster remains in the protected areas, and the centers are untoned but framed at the margins by a ring of golden patina. There are a few more obvious handling marks on each side, the most obvious ones being to the right of the date and another (a planchet flaw?) behind the eye of Liberty.

- 5569 NGC 1796 AU 53. V-1, R.4. A very popular and interesting two year type coin that is elusive in high grades. This specimen is the normal date variety, and a very well struck example. All the obverse details, the lettering and wreath on the reverse, are sharp and well defined, but there is a little weakness on the eagle's breast. It is rather deeply toned in gunmetal-blue and deep-violet colors.

An Unreserved Sale

All Heritage auctions are unreserved sales. By this, we mean that all lots are sold to the highest bidder. If a consignor bids on his or her own lot, that consignor must still pay a commission.

This is actually an advantage to both the consignor and to the bidder.

The bidder isn't forced to waste time bidding on coins that are unlikely to be sold at the fair market price.

The consignor is better off, because unreserved sales attract more bidders. Your consignment is far more likely to actually sell for the full market value in an unreserved auction sale.

Heritage doesn't waste your time. So, in the words of the Federal Express commercial, "Why fool around with anyone else?"

1797 15 Stars Half Dime, Late Die State

- 5570 PCGS 1797 XF 40. 15 Stars. V-2, R.3. Although die states of V-2 are not listed in Reiver's *Manual* this is obviously a late, if not terminal, state. There are three heavy die cracks on the obverse, two of which intersect on the lower portion of that side. Moderate gray patina overall with darker gray and blue toning surrounding the outer portions of each side. A couple of shiny spots are noted in the right obverse field, obviously caused by friction of some sort.

- 5571 NGC 1800 AU 50. V-1, R.3. An attractive high-grade example of this tiny early issue. Pleasing light grey surfaces with a trace of mint luster and a good strike. No noticeable marks or problems.

BUST HALF DIMES

- 5572 NGC 1829 MS 62. V-12, R.2. Semi reflective surfaces are adorned with deep toning shades of cobalt-blue and rich-gold. Well struck and sharp.
- 5573 NGC 1832 MS 62. V-2b, R.1. The obverse is well struck but is quite darkly toned with no luster showing. The reverse is a little weak on the eagle's shield and shows some dark-gray patina.

Superb Quality 1832 Half Dime

- 5574 PCGS 1832 MS 66. V-6, R.4. A superb Bust half dime, the surfaces are nearly flawless and the luster overall is excellent. Light in color, there are no reportable defects on the coin, just a bit softly struck, but this does not impair the eye appeal of this high grade type piece.
- 5575 NGC 1835 MS 62. Small Date, Large 5c. V-5, R.2. A bit softly struck in the centers and a facial scratch is visible. Medium to dark multicolored toning shades are present on each side.
- 5576 NGC 1836 MS 62. Large 5 C. V-4b, R.2. Deep, multicolored toning. Well struck.
- 5577 PCGS 1836 MS 64. If you were this old and still looked this good you'd have all the gals after you.

SEATED HALF DIMES

- 5578 NGC 1839 No Drapery MS 63. Sharply struck, the bright underlying surfaces show an overlay of deep blue and golden-brown patina over both sides.

Heritage Goes To The Buyers

Each and every Heritage Auction is held in conjunction with a major numismatic event, with hundreds of dealers and thousands of collectors in attendance. This insures your material will be viewed by a large number of interested buyers, and will bring top market prices.

At a Heritage sale, there's never a fear of the "right people" not being there. All the major dealers and interested collectors in the region attend the major shows and conventions, and that's exactly where Heritage goes to offer your coins.

Important 1859 Half Dime

- 5579 NGC 1859 MS 67. V.2. An important date in the half dime series, now recognized as a one year type coin with hollow centers to the stars. This is a well struck coin that displays shimmering mint luster beneath incredibly vibrant blue, violet, and red toning. While not nearly as common as the 1858 in mint state, the 1859 is, nevertheless, usually available for a price. It is rated as R.2 in mint condition, but of course, is significantly rarer in MS 67. Population: 6 in 67, 2 finer. (See Color Photo)

BUST DIME

- 5580 PCGS 1821 MS 64. JR-6, R.2. Large Date. A very choice example exhibiting bright satiny luster and some light russet toning on each side, particularly in the peripheral areas. The coin is well struck with most details being defined nicely, although some of the eagle's feathers are not quite fully brought up. One of the finest if not the finest of this variety in existence. Population: 13 in 64, 1 higher.

SEATED DIMES

Unique 1839-O Proof Dime

- 5581 NGC 1839-O Specimen MS 64. Called a Specimen on the NGC holder, close inspection shows this to be a proof striking whose surfaces are comparable to 1838-O and 1839-O half dollars. Examined by Walter Breen (letter of authentication is included) prior to its consignment to Auction '89. In part Walter stated: "I unhesitatingly declare it a genuine Proof 1839-O dime...the only one reported. It is on a polished planchet, struck from brilliantly polished dies. The importance of this dime would be hard to overestimate. The surfaces show a few trivial hairlines and the coin is toned a medium gray, gold, and blue. Ex: WGC (*Numismatic Gallery*, 3/48), lot 675; Auction '89 (*Akers'* section, 7/89), lot 1048. (See Color Photo)

5582 PCGS 1841 MS 60. Subdued luster is complemented by a very sharp strike. There is a small amount of green-blue peripheral toning on the reverse.

5583 PCGS 1853 Arrows MS 61. A popular type coin with a good strike and minimal abrasions. The surfaces are lackluster and lightly toned.

5584 PCGS 1856 MS 66. Obviously original and just as obviously well taken care of since the year of issue. This piece is well struck on most of the design elements and shows thick mint frost beneath a light layering of rose-ochre toning seen on each side. Superb quality and an unbeatable, original, high-grade type coin. Population: 3 in 66, 1 finer (12/94).

5585 PCGS 1871-S MS 64. This is a true condition rarity which contradicts its high mintage of 320,000 and the suggestion that such a high mintage coin should be readily available in mint state. This example is very boldly struck and the fields suggest a bit of reflectivity. Untoned, there are only a couple of microscopic abrasions visible to the eye. A premium example of this elusive date. Population: 3 in 64, none finer (12/94).

Superb Quality 1879 Dime Only 14,000 Business Strikes Produced

5586 PCGS 1879 MS 67. First year of reduced production of subsidiary silver coinage, only 14,000 business strikes were minted this year. This piece is extraordinary. The striking details are complete, and the fields show a mixture of cartwheel luster and semi-prooflikeness. The surfaces are nearly perfect with the only flaws being several microscopic lint marks, caused at the time of striking. The interior portion of the obverse is almost brilliant and surrounded by light golden-brown peripheral color. The reverse, on the other hand, is a warm russet and rose with a ring of deep blue around the rim. Superb quality.

5587 ANACS 1886 MS 60. Brilliant.

5588 PCGS 1889 MS 63. A deeply toned example, heavy overtones of steel and gray-blue are present on both sides.

PROOF SEATED DIME

5589 PCGS 1866 PR 65. Of great importance to the date collector as business strikes are so difficult to locate. Brilliant and untoned, a few scattered hairlines are visible in the fields.

BARBER DIMES

5590 NGC 1892 MS 63. Once again an affordable type.

5591 NGC 1916 MS 64. Richly toned in a deep golden brown color with hints of blue and rose.

5592 PCGS 1916-S MS 64. Fully struck and lightly toned.

MERCURY DIMES

5593 PCGS 1916-S MS 64 Full Bands, a sharp, bright first year coin; and a 1929-D MS 64 Full Bands, blazing luster and near mark-free fields. (Total: 2 coins)

5594 PCGS 1917-D MS 64 Full Bands. Full, satiny luster and rich, original, light-violet toning lend this piece a great deal of eye appeal. The rarity of this coin in this grade is evident in the information gleaned from the grading services. PCGS has graded only 36 examples in MS 64 FB (12/94), with 9 higher (compare this with the 1916-D that is represented by 48 examples in MS 64 FB or better). Despite the fact that the 1917-D is rarer in MS FB than the 1916-D, it still sells for considerably less money.

5595 PCGS 1918-S MS 64 Full Bands. Uniformly untoned, there is a bit of an opaque haze on the obverse. The importance of this piece derives from the split bands on the reverse, a condition rarely noted on 1918-S dimes. PCGS reports seventeen examples in MS 64 FB, and only eight finer (12/94).

5596 PCGS 1928-S MS 64. Fully bright and untoned, the fields are virtually free of abrasions.

5597 PCGS 1929-S MS 64 Full Bands, fully struck and a bright, satiny appearance; and a PCGS 1930-S MS 64 Full Bands, a dazzling, lustrous example. (Total: 2 coins)

5598 PCGS 1931-D MS 66 Full Bands. A semi-key date in the Mercury (Winged Liberty Head) dime series. Fully bright and defined, this superb gem is elusive in this superlative grade. Population: 33 in 66, 4 finer (12/94).

5599 NGC 1935 MS 65; 1937 MS 65; 1944 MS 65; and a 1945-D MS 65. All four coins are mostly brilliant and untoned. (Total: 4 coins)

5600 NGC 1942-S MS 67. Mercury dimes have fallen on hard times as of late, and whoever thought they were rare in MS 65 condition need only look at a recent population report. However, if you look in the MS 67 column you will see that this is really a tough coin to find in that lofty state.

PROOF MERCURY DIMES

5601 NGC 1938 PR 64. Brilliant and highly reflective, there is a bit of coloration seen on each side.

5602 NGC 1939 PR 65. A sparkling little gem displaying some light-golden patina on each side.

5603 NGC 1940 PR 65. A bright, untoned example.

5604 NGC 1941 PR 65. A glittering specimen with some golden patina on the reverse, and a light fingerprint on the obverse.

5605 NGC 1941 PR 65. Fully original, there is a milky haze visible on both sides.

PROOF TWENTY-CENT PIECE

Beautifully Toned 1876 Twenty-Cent Piece

- 5606 **PCGS 1876 PR 64.** Deeply reflective, mirrored fields beam strongly through the multicolored toning that envelopes both sides. The devices are heavily frosted, but one tends not to notice this as attention is immediately drawn to the richly variegated orange, scarlet, and sea-green toning. There are a few small contact marks that account for the grade, but this lovely piece has to be an upper-end coin by anyone's standards.

BUST QUARTER

- 5607 **PCGS 1825 AU 58.** At first glance, one might think this is a choice, mint state coin with bright, satiny luster and peripheral toning in shades of russet and deep blue-green. Boldly struck, there is just the slightest amount of friction on the highpoints. There are no detracting marks or abrasions on either side.

SEATED QUARTERS

- 5608 **PCGS 1853 Arrows and Rays MS 64.** Medium gray toning is present on both sides of this popular, one year type coin. The arrows at the date and the rays on the reverse were added late in 1853 to indicate a weight reduction. In 1854, the rays were omitted from the reverse, but the arrows remained through 1855. The strike is good and there is only a small chatter mark in the right obverse field.

- 5609 **NGC 1875-S MS 64.** A much scarcer date in the series, and particularly elusive as a mint state specimen. Originally toned in soft shades of rose and gold, the striking details are well defined and the surfaces show a strong underlying mint luster. Population: 6 in 64, 2 finer (10/94).

- 5610 **PCGS 1876 MS 61.** Well struck with some russet and blue-green toning, the luster is subdued.

- 5611 **PCGS 1888-S MS 64.** Well struck, the surfaces exhibit some mottled gray and golden toning. An excellent choice for a type coin.

Financially Secure

Heritage Numismatic Auctions is a division of Heritage Capital Corporation, the world's largest coin firm. When you consign your coins to a Heritage auction, you have the peace of mind of knowing that you will be paid in full, and on time.

Financial references, and a net worth letter from Arthur Andersen & Co. are available to you upon request.

A Heritage of Excellence

The year 1995 marks the beginning of our 20th year in the auction business. Since 1975, Heritage has conducted nearly 150 sales, with a total prices realized in excess of \$200 million. The experience we've gained over the years goes to work for you every time we have a sale.

Our consignment coordinators carefully examine your coins, and will offer their recommendations regarding grading and certification, two crucial elements in obtaining the best price for your coins. Our expert catalogers consult a wide variety of references, making sure no important attribute of your coin goes unmentioned. Our catalog is sent to thousands of the nation's leading collectors and dealers, many of whom will be in attendance at the convention where the sale is held.

At Heritage, we are continually innovating, and using our two decades of experience to conduct the finest numismatic auctions in the world. Call today to find out how you can become a part of our next sale.

Finest Certified 1889 Quarter

5612 NGC 1889 MS 68. Spectacular one-of-a-kind quality in a Seated quarter, boasting a colorful mixture of orange and bluish-green iridescence. The surfaces, even upon magnification, come temptingly close to perfection. On top of all that, the 1889 enjoys tremendous popularity with its modest business strike mintage of just 12,000 pieces. The finest certified by either of the major services (11/94). (See Color Photo)

PROOF SEATED QUARTERS

Spectacular Proof 1865 Quarter

5613 PCGS 1865 PR 66. A spectacular proof example of this final year of the No Motto design. The obverse is beautifully toned in multiple shadings of golden-russet, cobalt-blue, yellow, and rose with deeply reflective proof mirrors that flash forcefully through layer upon layer of color. The reverse presents quite a contrast from the obverse with very deep blue and charcoal-gray toning evenly covering that side. An unsurpassable proof type coin.

5614 ANACS 1873 Arrows PR 61. Dull gray surfaces and barely recognizable as a proof, but the devices have the telltale sharpness of strike that only proofs possess.

5615 NGC 1880 PR 64. The mirrored fields enliven the reddish-golden colors on the obverse and the predominately, gunmetal-blue reverse. A few scattered hairlines and contact marks are visible on the obverse.

5616 PC1 1883 PR 62 100% Toned. A bit dull on the obverse but vibrant still on the reverse.

BARBER QUARTERS

5617 PCGS 1901 MS 64. An extremely choice specimen with overtones of cobalt-blue, crimson, and gold lusciously displayed over deep, satiny luster on each side. Well struck and unusually free of detracting abrasions.

5618 ANACS 1909-D AU 58. Untoned, just the slightest rubbing shows on the highpoints.

5619 ANACS 1912 MS 61. A few minor contact marks result in the grade on this lustrous Barber quarter.

5620 NGC 1912 MS 65. An obviously original coin, the surfaces show good mint luster and are lightly toned on both sides. Minimal marks.

PROOF BARBER QUARTERS

5621 PCGS 1893 PR 67. A near-flawless proof, the obverse is toned a light golden in the center with rich sea-green patina toward the rim, while the reverse has even golden-rose toning over that entire side. At the pinnacle of perfection, this coin exhibits unsurpassable quality in this popular first year of issue. Population: 7 in 67, only 2 finer (11/94). (See Color Photo)

Magnificent 1893 Proof Quarter

5622 PCGS 1893 PR 68. An exquisite proof quarter. Eye appeal is what this coin is all about, and it has plenty of it. The hairline-free fields are deeply reflective and shine brightly through the layerings of color seen throughout. The interior of each side has a fragile mix of aqua and sea-green patina and is framed at the rims by a light rose tinting. The only technical demerits on this lofty graded coin are a couple of minute grazes on the highpoint of the cheek which disturb the toning. A rare opportunity for the quality conscious collector. Population: 2 in 68, none finer.

STANDING LIBERTY QUARTERS

Mint State 1916 Standing Liberty Quarter

5623 PCGS 1916 MS 61. This is a nice, lustrous example of this scarce, key date issue in the Standing Liberty quarter series. It actually appears much finer at first glance than the stated grade. The most obviously detracting features on the coin are a softness of strike on the head of Liberty and a few small pecks on the left half of the obverse. Excellent mint luster, the surfaces are mostly brilliant still, but there is a significant presence of deep golden-brown toning surrounding the devices. Matte-like, as usually seen.

5624 PCGS 1917 Type One MS 64 Full Head. Full satiny luster and a razor sharp strike are present on this usually well struck issue. There is a hint of original toning also.

5625 ANACS 1917 Type One MS 64 Full Head. Brilliant and highly lustrous with the usual fine grain matte surfaces.

- 5626 PCGS 1917 Type One MS 64 Full Head. Some golden patina is present as well as a little flatness on Ms. Liberty's leg.
- 5627 PCGS 1918 MS 63. Untoned, there is a strong display of original mint frost.
- 5628 PCGS 1918-S MS 64. A scarcer San Francisco date exhibiting bright, satiny luster and a very light, pale-golden coloration on each side. The head is well struck, although not quite full.
- 5629 PCGS 1920 MS 63. Very lustrous and bright for the grade.
- 5630 ANACS 1920-D MS 61 Full Head. Sharply struck, though a bit dull.
- 5631 PCGS 1923 MS 64. An attractive, original example with a smattering of rich-golden color on each side.
- 5632 PCGS 1923-S MS 64. One of the keys to the Standing Liberty quarter series, this is a fully lustrous piece that is elusive in choice grades. Well struck, although not quite full, the surfaces are very satiny in appearance.
- 5633 PCGS 1924 MS 63. Mostly untoned, there are several minor abrasions on each side.
- 5634 PCGS 1924-D MS 63. Untoned, satiny luster prevails on this specimen.
- 5635 PCGS 1924-S MS 64. Well struck, although not quite full. A very lustrous example that is accented with some red-violet toning on the obverse, the reverse displays a light golden color.
- 5636 PCGS 1925 MS 64. A boldly struck coin displaying nearly full head detail, and very lustrous surfaces. Also, there is a hint of pale-golden patina.
- 5637 PCGS 1926-D MS 63. Exceedingly lustrous and about as well struck as you would expect for this date.

- 5638 PCGS 1926-S MS 64. A more elusive date in the series, this example displays some natural dove-gray, rose-violet, and golden colorations on both sides. Although the head is not quite full, the details are well defined and quite sharp.
- 5639 PCGS 1926-S MS 64. A much scarcer date, especially in mint state. A bright example, there is some mottled ochre toning on the obverse, and some light green-gold patina on the reverse.

Superb 1926-S Quarter With 90% Complete Head Detail

- 5640 PCGS 1926-S MS 66. 90% Full Head. A remarkable example of this important strike rarity. The '26-S is extremely rare with complete definition on the head of Liberty. It has been estimated that perhaps only a dozen or so coins exist with absolute full detailing, but there are quite a few that are known with 60-80% definition. This piece is so close. It only lacks the hole in the ear to qualify for Full Head status, otherwise it is fully brought up. As usually seen, the luster is bright and flashy, due in part to the die striations seen in the reverse fields. Superior quality overall with no noticeable abrasions. Population: 6 in 66, none are finer (12/94).
- 5641 PCGS 1927-D MS 65. Even though the head is not quite full, this example is well struck and fully lustrous. Bright and untoned.
- 5642 ANACS 1927-S VF 30. A desirable mid-grade circulated example of this elusive date.
- 5643 PCGS 1928 MS 63 Full Head, bright and mostly untoned; PCGS 1930 MS 63, subdued luster on the obverse; and a PCGS 1930-S MS 63, some light toning covers each side. (Total: 3 coins)
- 5644 PCGS 1928-D MS 65. A virtual, full head specimen, this boldly struck coin displays full, coruscant luster, and is completely brilliant and untoned.
- 5645 PCGS 1928-S MS 64. A virtual full head with blazing luster and some light, colorful toning.
- 5646 PCGS 1929 MS 64 Full Head. A wonderfully original piece exhibiting a sharp strike and a very light patina on both sides.
- 5647 PCGS 1929-S MS 64 Full Head. Satiny luster is complemented with some champagne-violet toning.
- 5648 PCGS 1930 MS 63 Full Head. Well struck on most details with a bit of ochre toning on each side.

5649 PCGS 1930-S MS 66. Superbly original with near full head detail. Deep, satiny luster is complemented with some light, hazy patina.

WASHINGTON QUARTERS

Beautifully Toned 1932-D Quarter

5650 PCGS 1932-D MS 65. The undisputed key to the Washington quarter series, this is a coin that must be seen to be believed. While not technically perfect (there is a minor abrasion on each side), the surfaces are original and very attractively toned. Each side displays varying amounts of golden, rose, and steel-blue toning with strong underlying mint frost. An exceptional '32-D that should be of interest to many collectors of this modern series. Population: 15 in 65, none are finer (12/94).

5651 NGC 1932-S MS 63. One of the keys to the set, a bright lustrous example.

5652 NGC 1932-S MS 65. An originally toned gem, the surfaces show light, scattered toning with strong underlying luster. Minimally abraded. A nice example of this key Washington quarter.

5653 NGC 1936-D MS 63. Mostly untoned, there is a light opaque haze on both sides.

Don't Procrastinate

Every auction, it seems, somebody tells us, "If only I'd known that such-and-such a lot was going to sell for only \$ _____, I'd have gladly paid that price or more."

There are always great values in every auction sale. But, you can't buy them unless you bid. If you would buy a particular coin at a price, bid on it. You may even be pleasantly surprised, and buy it for well below your maximum bid.

We Must Be Doing Something Right

Over 80% of the prospective consignors who talk to us eventually choose Heritage to auction their coins. Of course, there is no way we can convince you to consign your coins to Heritage if you never call us. But, it pleases us that we win most of the races we're allowed to enter. Talk to us, and we'll convince you that your coins will get the best results in a Heritage sale.

Major the Lord Saint Oswald 1795 Half Dollar
Finest Known for the Date and Variety
Purchased Directly from the Mint in 1795

5654 NGC 1795 Saint Oswald MS 65. Double Date, Two Leaves Reverse. O-112, R.4; later die state of Beistle 4a-G. In addition to being the finest 1795 half dollar known, this piece is also undoubtedly one of the most original halves extant from this important second year of issue for the denomination. No others have been certified in gem condition by either of the major services.

This coin was obtained directly from the Mint in the late summer of 1795 by Major the Lord Saint Oswald. Oswald's coin collection remained intact until 1964, at which time it was sold by Christie's in London, this piece being lot 143 in that landmark sale. Another important, collateral piece from the collection was Oswald's 1794 dollar, a coin we were proud to offer for sale in our Charmont Sale in August, 1983. While the surfaces of this half dollar are not perfect, in terms of post-striking impairments there is very little to comment upon. When examining this coin what one notices first is the obvious originality of the surfaces, and secondarily the mint caused defects.

As this is a very late die state of the O-112 dies, some softness of highpoint detail is evident on the uppermost hair curls of Liberty, above Liberty's forehead. Also, on the reverse the eagle's legs and claws are indistinct, perhaps because metal was filed away from this area in the Mint as evidenced by the adjustment marks above the wreath, a common practice in the early Mint and a quick method for reducing the weight of planchets to legal limits prior to striking. A bit of softness is also noted on the upper curve of the eagle's wings. Otherwise, the striking details are uncommonly bold with fine details noted on the lower portion of Liberty's hair as well as the eagle's breast and the interior portion of the wings. Die clashing is noted in the fields on each side, this of course being the inevitable result of striking so many coins from a single pair of dies—eventually the dies came together and struck each other without a planchet between them, leaving a faint, mirrored image of the obverse on the reverse and vice versa on each coin subsequently produced. There is also what appears to be a curved grease stain (as struck) inside the wreath on the lower reverse beginning roughly below the U in UNITED and terminating beneath the D. In the center of the reverse there is also a diagonal mark, perhaps also of Mint origin, and possibly related to the adjustment marks seen just below. We enumerate these blemishes (and once again emphasize that there are almost no out-of-Mint marks) in order to identify this coin as a unique piece. Its singular stature, however, is hardly in question as only one MS 64 coin has been certified by the major services, and the closest coin listed on the condition census for the O-112 variety is an XF 45. The obverse is toned a light gray with innumerable flecks of golden-brown patina scattered about. The reverse shows much rose tinted patination on the lower portion of that side. Exceptionally lustrous, the mint frost is undiminished by the passage of two hundred years as are the layerings of toning that have accrued to the coin's surface over that amount of time.

Of the utmost historical importance, this coin was struck when George Washington was president, and Tennessee was still not a state. It is essentially as struck, with only the 18th century design and the natural patina mentioned above to indicate its age.

Purchased directly from the Mint in 1795 by Major the Lord Saint Oswald; Christie's 10/64, lot 143; Lester Merkin 2/71, lot 589; The Reed Hawn Collection (Stack's 8/73), lot 2; sold by private treaty in 1975 by Brit Simons to the present consignor. (See Color Photo)

Extremely Rare, High Grade 1796 16 Stars Half Dollar

5655 PCGS 1796 XF 45. 16 Stars. O-102, R.6. The half dollars of 1796-97 are one of the most highly regarded and valuable type coins in all of U.S. numismatics. Of the two years, the 1796 coins are the rarer, and the 16 Stars variety is the scarcer of the two 1796 varieties. Usually only seen in Fine or lesser grades, high grade pieces such as this are rarely encountered. Most of the high grade specimens known of this type are from the estate of Colonel E.H.R. Green, but most of those pieces are prooflike, which this coin is not.

The surfaces have an overall steely-gray appearance over both sides with light golden-brown patina scattered about. Striking details on the portrait of Liberty are uncommonly bold. On the reverse there is slight softness of details on the eagle's breast but well defined elsewhere. The most noticeable marks are a couple on the upper and lower neck of Liberty on the obverse, and a scalloped mark below the head of the eagle. A premium example of this very rare type and sure to be of great interest to advanced type collectors. (See Color Photo)

5656 NGC 1801 VF 30. O-101, R.3. First year of the Heraldic Eagle type and a very scarce issue with a mintage of 30,289 coins. The surfaces are a brilliant silvery-gray with some weakness of strike along the obverse border and noticeable adjustment marks in the corresponding area of the reverse.

5657 PCGS 1806 XF 45. O-125, R.5. Mostly untoned with just a bit of light gray patina on each side. Well struck except on the left side of the obverse. There are no adjustment marks and the only mark of note is a shallow, curved abrasion on the cheek of Liberty.

BUST HALF DOLLARS

5658 ANACS 1810 AU 50. O-109, R.3. Well struck and lightly toned with a fair amount of original mint luster remaining.

Possibly Finest Known 1815 Half Dollar

5659 PCGS 1815/2 MS 64. After English troops marched through Washington, D.C. and New York, few people trusted the government enough to circulate banknotes. As a result, gold and silver was hoarded and virtually no precious metals were turned into the mint for conversion into coins until late in the year. Only 47,150 half dollars were struck in 1815, and all are from a single pair of dies that were leftover from 1812. While 1815 halves are scarce, it is the demand from date collectors that makes them so expensive.

This is undoubtedly one of the finest examples known of this rare and desirable year. The finest piece listed in the latest edition of Overton is a 65, followed by a 64 and three 63s. The surfaces are originally and attractively toned in rather deep shades of russet-brown with faint suggestions of rose and blue scattered about. Exceptionally well struck in all areas, there are no obvious abrasions that can be used to trace the pedigree of this important coin. Well preserved pieces such as this are rarely seen and enjoy a constant demand from both date and variety collectors. Population: 3 in 64, none are finer (12/94). (See Color Photo)

Superb Quality 1826 Bust Half Dollar

5660 NGC 1826 MS 66. O-110, R.2. The surfaces of this coin are as near to perfection as any Bust half we can remember having ever seen. There are no post-striking impairments that we can see, and the only ripple in the fabric of this coin are a few die clash marks. Sharply struck in all areas, the hair curls of Liberty are well brought up and the eagle's plumage shows crisp detailing as well. Evenly toned a light golden-brown over both sides. A memorable Bust half. (See Color Photo)

5661 ANACS 1830 AU 50, Large 0, O-122, R.1, dusky gray toning; and an 1835 AU 50, O-109, R.2, deep peripheral toning. (Total: 2 coins)

5662 PCGS 1833 AU 50. O-104, R.1. Darkly toned with pronounced die clashing on the obverse.

5663 PCGS 1834 MS 64. Small Date, Small Letters. O-109, R.1. This variety is distinguished by a die scratch extending into the left obverse field from the end of the bust, and a lump in the field near the milling under the left wing tip on the reverse. A well struck example with bright, lustrous surfaces that show deep, variegated toning over both sides.

5664 PCGS 1835 AU 58. O-102, R.3. At a glance, one might look at the obverse and think this coin was a proof due to its deeply reflective fields. The reverse is satiny and is rotated about 30 degrees to the right. There is some pretty peripheral gold, magenta, and blue toning on both sides.

5665 PCGS 1837 Reeded Edge AU 55. Satiny luster is present on this interesting type Bust half dollar. The centers are well struck, but the borders show some weakness on both the obverse and reverse. There are no noticeable marks or abrasions.

SEATED HALF DOLLARS

5666 PCGS 1849 AU 55, bright, well struck, and mostly untoned; 1875 AU 58, brilliant, semi-reflective surfaces and some light peripheral color; and a 1946 MS 64, satiny surfaces with some champagne color. (Total: 3 coins)

5667 PCGS 1871-CC Fine 15. A scarce CC half dollar and rarely seen in better grades. An original coin with light gray patina.

PROOF SEATED HALF DOLLARS

5668 NGC 1871 PR 65. Only 960 proofs were struck, and this is a splendid example of the date. There is a peripheral area of toning on each side that is composed of rich russet, lavender, and blue colors. A few inconsequential hairlines are noted on each side, but these have little effect on this solid gem proof.

5669 NGC 1882 PR 64. Still a great deal of flash in the fields even though lightly hairlined. Covered with steel-blue, gray, and golden colors evenly distributed on both sides.

WALKING LIBERTY HALF DOLLARS

Brilliant Gem 1916-D Half Dollar

- 5670 NGC 1916-D MS 65. A scarce early Walker that is somewhat difficult to locate in higher mint state grades. This is a brilliant coin that has bright, satiny luster over a fine grain matte-like finish. Sharply defined overall with complete detailing on the obverse. The reverse is somewhat ill-defined in the center of the eagle's breast, as usual, most likely the result of the Denver mint setting the dies a bit further apart than normal to extend die life. A worthwhile example and seldom seen any finer.
- 5671 PCGS 1917 MS 64. Exceptionally clean fields display a satiny appearance. A faint, light-blue patina is present on both sides of this choice specimen.

- 5672 PCGS 1917-D Reverse MS 64. The surfaces are untoned and display a deep, satiny brilliance. Only a couple of well concealed milling marks remove this well struck, vibrant example from consideration as a gem.

It's Just Like Being There

When you bid by mail in a Heritage auction, we try to buy every lot for you as inexpensively as possible – for just a 5-10% increment over the next highest bid. For example, suppose you bid \$600 on a lot, and the next highest bid received (by mail or on the floor) is \$425. That lot is yours for \$450 (plus the 10% buyer's charge, of course) – a savings of \$165 including the buyer's charge.

Also, with our exclusive "CompuBid" service, you can limit your total purchases to a specific amount.

It's practically as if you were attending the sale in person. Bid with confidence – Heritage will represent you at the auction.

Near-Gem 1919-S Walking Liberty Half Dollar

- 5673 PCGS 1919-S MS 64. The 1919-S is one of the premier rarities in the early Walker series. It is widely recognized as such and even collectors that specialize in other series are aware of the scarcity of this coin. Perhaps this is so because it has always been a highly regarded date. Two generations have now grown up knowing the '19-S Walker is rare, just as collectors in all fields know the '14-D cent is rare. In 1947 a mint state piece was valued at \$67.50, and in the "heat" of 1980 gems were bid up to \$23,000.
- This piece has lovely satin-like mint luster. The surfaces are lightly toned, but one has to look closely to see color as the coin presents as brilliant from arm's length. Exceptionally well struck with a boldly defined mintmark. The coin shows only the slightest abrasions, giving this high end piece most of the eye appeal of a gem. Population: 18 in 64, 25 finer (12/94). (See Color Photo)

High Grade 1921 Half Dollar

- 5674 PCGS 1921 MS 64. A high visibility issue because of both its low mintage (246,000 pieces) and the rarity of the Denver and San Francisco coins. The P-mint is the usual choice for collectors who are interested in a date-only set, as it is the least expensive of the three. The striking details on this coin are uncommonly bold on the obverse with a finely detailed head and hand area. The reverse is just a trifle soft, as usual, in the center of the eagle's breast. Bright and lustrous, there are just a few small, widely scattered marks on either side that prevent a gem grade. Mostly brilliant, there is a smidgen of dark charcoal patina seen around some of the outer devices. (See Color Photo)

Untoned Gem 1929-D Half

- 5675 PCGS 1929-D MS 65. An absolute full strike coin, and scarce as such, with intricate detailing on the head, hand, and skirt lines on the obverse. Thick, frosted mint luster throughout, the surfaces show only a few scattered field marks, none of which are important or individually detracting.

- 5676 PCGS 1933-S MS 64. Last of the early Walkers, and an important coin as such. This date is not easy to locate in high grades. This particular piece is fully struck in all areas and even sports fully defined feathers in the center of the eagle's breast. A few small, scattered marks account for the grade, and the surfaces are mostly untuned with just the slightest bit of peripheral color noted.
- 5677 PCI 1934 MS 61, 95% White, a few digs on the obverse; 1942 AU 58; 1942 MS 63, 95% White, very bright; and a 1945 MS 63 95% White, satiny luster. (Total: 4 coins)
- 5678 NGC 1934-D MS 64. Brilliant with a little golden toning.
- 5679 PCGS 1934-S MS 64. A few contact marks show in the fields and on the eagle of this lightly toned example.
- 5680 ANACS 1935 MS 65. Well struck, the reverse is satiny, the obverse exhibits some rich-golden color.
- 5681 PCGS 1935-S MS 64. A bold strike and bright luster, but a few too many contact marks for a higher grade.
- 5682 PCGS 1937 MS 65. Fully struck, there is some light-golden toning on both sides.
- 5683 ANACS 1937-S MS 64. Some luster shows under an opaque haze.
- 5684 PCGS 1937-S MS 65. Satiny luster with a little light toning.
- 5685 PCI 1938-D XF 45 Cleaned.
- 5686 PCGS 1938-D MS 65. Bright, satiny luster abounds on this gem. The fields are near mark-free on this key date to the second series of Walkers.
- 5687 PCGS Short Set Walking Liberty half dollars 1941-47 PDS MS 65. A gem set of Walkers, all coins being MS 65 and well struck. Some are fully white and untuned, some exhibit light shades of patination. No coins in this group are heavily toned. (Total: 20 coins)
- 5688 PCGS 1942-S MS 65.

FRANKLIN HALF DOLLAR

- 5689 PCI 1949-S MS 62, 90% White; 1950 MS 63PQ, 100% White; 1951 MS 65, 100% White; 1952-S MS 65, 100% White; 1953-S MS 64PQ, 100% White; and a 1954-S MS 65, 100% White. (Total: 6 coins)

EARLY DOLLARS

- 5690 PCGS 1797 VF 30. Stars 9x7, Large Letters. B-1, BB-73. A pleasing example of this classic early dollar that has remained a perennial favorite of collectors because of its low official mintage of only 7,776 pieces. The surfaces are uncommonly clean and free of detracting abrasions. Even the normally seen adjustment marks are noticeably absent. An outstanding specimen.

- 5691 NGC 1797 9x7, Large Letters XF 45. B-1, BB-73. A pleasing example of this classic early dollar which has remained a perennial favorite of collectors because of its low official mintage of only 7,776 pieces. Faint bits of subdued luster are seen beneath the gray-golden patina. A trifle softly struck on the highest portions of the design.

Splendid, High Grade 1797 Dollar

- 5692 NGC 1797 AU 58. Stars 10x6, Large Letters. B-3, BB-71. An exceptionally clean and problem-free example of this significant early dollar. The 10x6 star arrangement is unique in the history of dollar coinage in this country. Well struck, the coin is also well centered and shows no adjustment marks or obvious abrasions. Toned in deep shades of blue-gray with lighter accents of gray-lilac. Just the slightest bit of rub on the highpoints keeps this coin from grading mint state.

- 5693 PCGS 1799 AU 53. B-9, BB-166. The "Apostrophe" variety with die flaws seen after the final S in STATES. A splendid and unquestionably original early dollar, the surfaces are toned in deep shades of gray with blue and yellow-gold undertones. Just a bit softly defined on the highest portions of Liberty's hair and in the center of the eagle's breast.

- 5694 PCGS 1802 AU 50. B-6, BB-241. Well struck and also well centered with deep splotchy gray and sea-green toning splashed across both sides. A solid coin for the grade with the only noticeable mark being a shallow one below the eye of Liberty.

SEATED DOLLARS

- 5695 PCI 1841 AU 55 Cleaned. The surfaces reflect some very light polishing at one time, although it is not readily evident. A mostly bright and untuned coin, a respectable example.

Attractive, Semi-Prooflike 1842 Seated Dollar

- 5696 PCGS 1842 MS 61. In circulated grades the 1842 Seated dollar is one of the most plentiful dates among the early issues of this series. It is also occasionally available in mint condition, but it would be erroneous to consider this as a "common" coin in uncirculated grades. This piece has the finish usually seen on dollars from the 1840s, that is, semi-prooflike rather than frosted. The fields show obvious die striations that impart the bright sheen seen on this piece. Well struck in general, there is a bit of softness noted on the eagle's left wing and neck feathers on the reverse, and the stars on the right side of the obverse are softly defined also. Minimally abraded for a coin of this grade, the surfaces are generally brilliant except for a thin ring of light golden patina around the margins of each side.

- 5697 PCGS 1842 MS 61. A solid uncirculated coin that has bright mint luster and is well struck throughout, only kept from a higher grade by the presence of numerous small bagmarks scattered across both sides. One of the more available dates from the 1840s, but still quite a scarce item in mint condition.

Originally Toned, Near Gem 1872 Seated Dollar

- 5698 PCGS 1872 MS 63. The 1872 is one of the more frequently encountered dates in the With Motto series, but seldom is a coin seen of this or any other date that is of such unquestioned originality. Well struck, the surfaces have taken on a light gray-golden patina with underlying shadings of olive and rose, a bit darker at the margins. Minimally abraded, just the slightest marks are seen on either side of this lovely coin.

PROOF SEATED DOLLARS

- 5699 **PCGS 1867 PR 62.** This is a perfect addition for a proof type set. The coin is bright and shows a bit of peripheral golden color. The fields are reflective with frosted devices of Liberty on the obverse and the eagle on the reverse. Only 625 proofs were originally struck.

Cameo Proof 1869 Seated Dollar

- 5700 **PCGS 1869 PR 63.** A choice Seated dollar that has a surprising amount of eye appeal for a coin of this grade. The fields are deeply reflective and the devices heavily frosted, rendering a profound white on black cameo contrast. Mostly brilliant, there are several parallel slide marks in the right obverse field that limit the grade, as do a few stray hairlines. A bit softly struck on the eagle's leg as is often the case on proofs from this era.

MORGAN DOLLARS

- 5701 **PCGS 1878 7TF Reverse of 1878 MS 61, 1878-CC AU 58, 1878-CC MS 60, and three 1878-S MS 62.** (Total: 6 coins)
- 5702 **PCGS 1878 7TF Reverse of 1878 MS 65.** A satiny, first year example with just a few minimal contact marks.
- 5703 **PCGS 1878-S MS 62, noticeable contact marks in the fields; 1879-S MS 61; (2) 1881-S MS 62, some original toning on one coin; 1882-O MS 62; 1882-S MS 62; 1888 MS 62, gray luster; 1901-O MS 62; and a 1921-D MS 63.** Except as described, all other coins are mostly bright and untuned. (Total: 9 coins)
- 5704 **PCGS 1879 MS 64.** Some mottled, original toning is present on the obverse, the reverse reflects a gentle golden peripheral ring.
- 5705 **PCI 1879-S MS 64, 90% White; 1882-CC MS 63, 75% White; and an 1883-O MS 62PQ, 95% White.** (Total: 3 coins)
- 5706 **PCGS 1879-S MS 64, a pretty arc of rainbow toning covers about half of the obverse, the reverse is brilliant; NGC 1886 MS 64, some splotchy, russet color is seen on both sides; and an NGC 1887 MS 64, some deep, natural patina is evenly distributed on each side.** Three dollars for the toning enthusiast. (Total: 3 coins)
- 5707 **PCGS 1880-CC MS 65.** Frosty white luster and extra clean surfaces are present on this gem.
- 5708 **PCGS 1880-S MS 65.** Gold and blue toning accents the obverse, the reverse is fully brilliant.
- 5709 **NGC 1881-CC MS 63.** Bright with semi-prooflike fields and just a hint of golden peripheral toning.
- 5710 **PCGS 1881-S MS 67.** A superb, satiny specimen that is virtually flawless. Intense mint luster is complemented with a bold strike and bright surfaces that are fully white.

- 5711 **PCGS 1881-S MS 67 Prooflike.** A visual stunner. Both sides are toned in a deep, iridescent blend of cobalt-blue and bright-crimson colors that are totally original and incredibly beautiful. Just under the toning, the viewer is treated to the impressive quality of the underlying prooflike surfaces and their full reflective appearance. This coin represents that rare, special combination of quality and superb eye appeal that occurs so infrequently. When it does, record prices are often set. (See Color Photo)

- 5712 **PCGS 1882 MS 65.** After all these years of certification, this date remains a tough "common" date.

- 5713 **NGC 1882-O MS 64.** Attractive gunmetal-blue and dove-gray colorations overlay satiny fields on the obverse, the reverse is bright with a golden peripheral ring.

- 5714 **PCGS 1883 MS 67.** A near perfect specimen, satiny in appearance and, unlike many of this issue, boldly detailed in the centers. Wait, there is more. The obverse of this remarkable P-mint Morgan is delightfully toned in pastel shades of green-gold, bluish-green, and orange. Picture the ideal non-prooflike 1883 dollar in your head and this essentially blemish-free specimen should come very close to matching it.

- 5715 **PCGS 1883-CC MS 64, satiny luster and a clean cheek; and an 1885-CC MS 62, bright with some abrasions mostly on the obverse.** (Total: 2 coins)

- 5716 **PCGS 1883-O MS 63, satiny luster; PCGS 1885-O MS 62, some deep-gold obverse color; Hallmark 1891-O MS 60, flatly struck on the center of the reverse; PCGS 1902-O MS 62, a little golden patina; and a PCGS 1904-O MS 62, bright and untuned.** (Total: 5 coins)

- 5717 **PCGS 1884-CC MS 65.** A blazing white gem with just a few marks.

- 5718 **PCI 1884-O MS 64PQ, 95% White; and an 1888 MS 64PQ, 90% White.** (Total: 2 coins)

- 5719 **NGC 1885-CC MS 64.** Creamy, frosty luster and just a little purple toning.

- 5720 **PCGS 1886-S MS 62.** An affordable example of this scarce Morgan that gets very pricey in higher grades. Lustrous and well struck.

- 5721 **NGC 1887 MS 64 Prooflike.** A boldly struck specimen with nicely mirrored fields. There is some golden-brown patina on the obverse.

- 5722 **ANACS 1888 MS 65.** An attractive, white coin with a minimum of contact marks.

Finest Certified 1889-O DMPL Dollar

5723 **PCGS 1889-O MS 66 Deep Mirror Prooflike.** Heavy surface abrasions and a profoundly soft strike plague the few prooflike coins that are known of this elusive issue, thus limiting the grade potential of most mirrored field 1889-O dollars. This coin is the finest certified by either of the major grading services, and its grade is well deserved. The surfaces are uncommonly free from blemishes with the only noticeable ripples in the fabric of the coin being a few small luster grazes on the portrait of Liberty. Brilliant throughout, the striking details are well brought up for an '89-O with only slight softness noted over the ear of Liberty. A rare opportunity for the advanced dollar collector. (See Color Photo)

- 5724 PCGS 1890-CC MS 64 Deep Mirror Prooflike. A stunning white on black cameo, the surfaces are refreshingly free from any major marks, just a few minor ones and several luster grazes on the portrait of Liberty.
- 5725 PCGS 1891-CC AU 58 and two 1891-CC MS 61. (Total: 3 coins)
- 5726 PCGS 1891-CC MS 63, (4) coins, all are bright and untoned. A normal amount of contact marks are seen on each specimen. (Total: 4 coins)
- 5727 PCI 1892-O MS 64. 100% White. Full, coruscant luster abounds on each side. The centers are softly struck and the surfaces are exceptionally clear of abrasions for the grade.
- 5728 PCI 1892-O MS 64PQ. 90% White. Weakly struck in the centers as is normal for the issue.
- 5729 PCGS 1893 MS 61. Just a little flatly struck above the ear and on the eagle's breast, still a lustrous example of this more difficult year.
- 5730 PCGS 1893 MS 62. A lustrous, well struck example of this tougher date that displays a few too many abrasions to be assigned a higher grade.
- 5731 NGC 1894 MS 62. With a mintage of only 110,972 pieces, the 1894-P has always been a favorite date of dollar collectors. While not nearly as scarce as the 1893-S (a coin with a similar mintage), the 1894-P is more available in all grades, but is very scarce and desirable in mint state. This piece shows just a little of softness of strike over the ear and on the eagle's breast feathers, and the luster is thick and satiny. There are only a few small marks that account for the grade, and most of them are concentrated on the obverse. A difficult coin.

- 5732 PCGS 1894 MS 63. A better known, low-mintage scarcity in this popular series, this piece exhibits nicely frosted features and an excellent strike.

- 5733 PCGS 1894-O MS 63. Mostly brilliant, showing only a faint blush of golden color in the centers. Intense satiny luster, but a trifle soft, as is normal, over Liberty's ear and on the eagle's breast.
- 5734 PCGS 1896-O MS 62. Despite some obverse marks and abrasions, this is an important example of this scarcer date. The strike is slightly above average, with only slight weakness noted in the hair above Liberty's ear and on some of the eagle's breast feathers. Both sides are satiny and some golden-brown overtones have formed over the years.
- 5735 PCGS 1896-S MS 60. A lustrous example that is very flatly struck on the highpoints. There are a few roller marks also visible on each side.
- 5736 PCGS 1896-S MS 63. Quite frosty with better than average sharpness for this scarcer issue and specks of russet toning scattered over both sides.
- 5737 PCGS 1902-O MS 65 Prooflike. Fully brilliant with bold central details.

- 5738 PCGS 1903-O MS 62, (2) coins, one nicely toned in deep-golden and crimson, the other brilliant. Both are MS 62s. (Total: 2 coins)
- 5739 PCGS 1904-S MS 63. Brilliant with prooflike tendencies on the obverse where it shows far fewer abrasions. Always popular and in demand in mid-grade uncirculated condition.

- 5740 PCGS 1904-S MS 63 Prooflike. Well, but not fully, struck, the surfaces are bright, reflective, and untuned. A scarcer date not generally found in choice prooflike grades.

PROOF MORGAN DOLLARS

- 5741 PCGS 1892 PR 60. A nice looking coin for the grade.

Superb Proof 1892 Dollar

- 5742 PCGS 1892 PR 66. While 1892 proofs have a high mintage of 1,245 pieces, true gems are quite difficult to come by. This piece is far above average with extraordinarily clean surfaces that are deeply mirrored. The center of each side is brilliant and is surrounded by concentric rings of deep rose and blue patina toward the rims. A bit softly struck over the ear, as often seen, there are no other mentionable deficiencies on this lovely coin. Population: 14 in 66, 9 finer.
- 5743 PCGS 1893 PR 61. An affordable proof Morgan dollar with bright reflective surfaces that are accented with some purple toning. The centers are not completely struck up, as is normal for some of the dates in the '90s, some hairlines and slidemarks are also present.

PEACE DOLLARS

- 5744 PCGS 1921 MS 62. Quite lustrous and lightly toned, there are a few heavy contact marks on Liberty's neck that account for the grade.
- 5745 PCGS 1921 MS 65. Originally toned with gray-violet patination equally distributed on each side. Well struck for the issue with some softness still evident in the centers, as usual.
- 5746 PCGS 1922 MS 65. Full brilliant with a nice, satiny appearance.
- 5747 PCGS 1922-D MS 65. A well struck, bright, satiny example.

Lustrous and Original Gem 1922-S Dollar

5748 **PCGS 1922-S MS 65.** A very difficult issue to locate in strict gem condition because of the dual problems of weakness of strike and plentiful abrasions. This is a splendid example of unquestionable originality. There are a few minor marks and luster grazes scattered about, but none that deserve individual mention. The strike, of course, is not completely brought up, but is above average for the issue. Population: 59 in 65, only 4 finer (12/94).

5749 **PCGS 1923 MS 65.** Satiny, coruscant luster abounds on each side.

5750 **PCGS 1923 MS 66.** All Peace dollars are scarce and most are downright rare in MS 66 condition. Only once in a while one can locate an early date in superb condition. This coin is virtually flawless except for a couple of tiny abrasions on the eagle. Its soft, frosted luster is complemented by a lack of color and fully struck devices.

Fully Struck Gem 1924-S Peace Dollar

5751 **NGC 1924-S MS 65.** Over the years, several S-mint Peace dollars have attained a reputation of being nearly "impossible" to locate in fully struck gem condition. The '24-S is one of the foremost examples of this elusiveness. This piece, however, is a rare exception to the rule. The strike is fully brought up, not only on the obverse, but also on the eagle's plumage on the reverse. The surfaces are bright and lustrous and generally untoned. Population: 36 in 65, none are finer.

5752 **PCGS 1925 MS 65.** A lovely, frosty piece with the slightest amount of golden patina.

Frosted Gem BU 1925-S Peace Dollar

5753 **NGC 1925-S MS 65.** The typical 1925-S is weakly struck and heavily marked, and thus gems are virtually non-existent. Even dispersal of the vast Redfield holdings failed to bring any noticeable increase of gems onto the market. This is a superior quality piece that has frosted mint luster and exceptionally clean surfaces. The strike, of course, is not complete. However, the details are uniformly and lightly impressed. Meaning, that all of the design elements are present, just incompletely brought up. Brilliant with a trace of a thumbprint in the left obverse field. A superior 1925-S and one that would be difficult to improve upon. Population: 26 in 65, none are finer.

5754 **PCGS 1926 MS 65.** Boldly struck and exceptionally bright.

5755 **PCGS 1926-D MS 65.** Brilliant and lustrous with a minimum of abrasions.

5756 **ANACS 1926-S MS 65.** A nearly blemish-free specimen, exhibiting dazzling, white luster. A conservatively graded specimen.

Gem 1927 Peace Dollar

5757 **PCGS 1927 MS 65.** The 1927 is a notable issue in the Peace dollar series because of its low mintage of only 848,000 coins. It is actually a bit more available than one might expect in lower grades, but better mint state pieces are very elusive because of excessive bagmarking. This is an attractive, fully struck piece that has excellent luster characteristics and light golden-rose patina, as often seen. There are a couple of small abrasions on the cheek of Liberty, but little of note elsewhere on the coin.

Don't Procrastinate

Every auction, it seems, somebody tells us, "If only I'd known that such-and-such a lot was going to sell for only \$ _____, I'd have gladly paid that price or more."

There are always great values in every auction sale. But, you can't buy them unless you bid. If you would buy a particular coin at a price, bid on it. You may even be pleasantly surprised, and buy it for well below your maximum bid.

Financially Secure

Heritage Numismatic Auctions is a division of Heritage Capital Corporation, the world's largest coin firm. When you consign your coins to a Heritage auction, you have the peace of mind of knowing that you will be paid in full, and on time.

Financial references, and a net worth letter from Arthur Andersen & Co. are available to you upon request.

Lightly Toned Gem 1927-S Dollar

5758 NGC 1927-S MS 65. A scarce, semi-key date Peace dollar with an impressively low mintage of only 866,000 pieces. The surfaces of this coin show the satiny brilliance that is peculiar to this issue, and it is overlaid with a fine film of light russet patina that deepens a bit at the rims. Well struck, there are no reportable abrasions on this lovely coin. Population: 23 in 65, only 1 finer (10/94).

5759 PCGS 1928 MS 61. Just a few abrasions away from a higher grade. Lustrous and bright.

5760 PCGS 1928 MS 63. One of the keys to the series, this example is lustrous with some light-golden color on the obverse, and pale violet on the reverse.

Key Date 1928-P in MS 65 Condition

5761 PCGS 1928 MS 65. With the lowest mintage in the series, 1928-P dollars have been the object of collector attention since the year of issue. Quite a few mint state coins were saved at the time because of the low mintage, but strict gems are quite elusive, nonetheless. This is a well struck piece that is untoned and shows only the slightest abrasions on each side.

5762 NGC 1934 MS 65. Full, satiny brilliance and a bold strike are accented with a bit of golden patina on the reverse.

5763 ANACS 1934-D MS 64. A scarcer date, some mottled-ochre toning is present. An exceptionally clean specimen.

5764 PCGS 1934-D MS 65. Fully lustrous, there is a light, opaque haze on both sides. A boldly struck example of this better date.

5765 PCI 1934-S AU 50. Untoned, a high grade, circulated example of the key date in the series.

5766 PCGS 1934-S AU 55. Ever so close to MS with only the slightest amount of friction on the highpoints. Fully brilliant and very lustrous, an excellent example with a lot of eye appeal.

5767 PCGS 1934-S MS 62. The key date in the Peace dollar series, this example displays a streak of golden toning on the obverse, the remainder is brilliant and lustrous.

Exceptional Quality 1934-S Dollar

5768 PCGS 1934-S MS 65. An outstanding example of this always popular key date Peace dollar. The lustrous surfaces glow with bright, coruscating mint frost that rolls around both sides virtually unimpeded by post-striking impairments. The strike on the obverse is just a trifle soft over the ear, this being the most critical thing we can say about the coin, and it being only a minor consideration. A high-end example of this very scarce issue, and one of the better '34-S dollars we have seen recently.

5769 NGC 1935 MS 65. This coin's soft, frosted luster is complemented by a lack of color and fully struck devices.

5770 NGC 1935-S MS 65. Final year of issue and a popular and elusive item in gem condition. Mostly brilliant over most of the surfaces with a ring of faint rainbow iridescence around the rim on the obverse. Well struck with excellent luster.

EISENHOWER DOLLAR

5771 PCGS 1973-S Silver MS 67. Bright, fully struck, and near mark-free, all one looks for in an Ike dollar.

COMMEMORATIVE GOLD

5772 PCGS 1903 Louisiana Purchase/Jefferson MS 64. Shimmering, satiny luster with pretty golden color and only a few minor luster breaks in the reverse field.

5773 PCGS 1903 Louisiana Purchase/McKinley MS 63. Boldly struck and satiny.

- 5774 PCGS 1904 Lewis and Clark MS 63. Sparkling mint luster and only a few trivial hairlines in the fields from even higher quality. Flashy and scarce.

- 5775 PCGS 1905 Lewis and Clark MS 63. A shimmering example tinted green-gold at the borders. The '05 Lewis and Clark has proven to be the most difficult of all the smaller commemorative gold issues in MS 63 and higher grades.

- 5776 PCGS 1915-S Panama-Pacific Gold Dollar MS 62. Both the color and luster on this attractive Pan-Pac appear finer, but the normal friction on the miner's cap limits the grade.

- 5777 PCGS 1915-S Panama-Pacific Quarter Eagle MS 63. Original satiny luster with frosted features and only a few modest surface marks. This popular issue is one of the keys to the commemorative gold series.

- 5778 PCGS 1916 McKinley MS 64. Nearly blemish-free with blushes of rose color through the centers.

- 5779 PCGS 1917 McKinley MS 64. A strong strike with distinct prooflike qualities on both sides.

- 5780 PCGS 1922 Grant with Star MS 63. A bright yellow-gold, razor sharp example of this small mintage issue.

- 5781 PCGS 1926 Sesquicentennial MS 63. Lustrous with subtle orange highlights.

- 5782 PCGS 1926 Sesquicentennial MS 63. Good luster and a rich-golden color, a few small contact marks account for the grade.

GOLD DOLLARS

Sparkling, Near Gem No-L 1849 Gold Dollar

- 5783 NGC 1849 No-L MS 64. Only 1,000 pieces were struck of this initial gold dollar issue, but in spite of its low mintage, No-L dollars have been a perpetually overlooked and undervalued issue among gold dollars. This is a stunning example that has bright, sparkling mint luster and is fully struck. Only the slightest luster grazes prevent a full gem classification of this coin.

- 5784 NGC 1849-D AU 58. Just a whisper away from full mint state. The first in a nice mini-run of D mint dollars in this sale.

- 5785 NGC 1853-D AU 55. A pleasing example of this elusive issue. One of only 5 pieces to be graded by NGC.

- 5786 NGC 1854 Type Two AU 53. Well struck with considerable frostiness remaining. There are a few specks of coppery color here and there on the obverse.

A Winning Team

Since 1980, Heritage Numismatic Auctions has been selected by the American Numismatic Association to conduct their annual convention auction no fewer than nine times! That's more than all others combined, and is a reflection of the confidence and respect with which Heritage is regarded by the nation's largest organization of coin collectors and dealers. In addition, Heritage has conducted eleven auctions at the "Early Spring" conventions and in the past few years, has held a Bullet Sale prior to the annual convention auction.

In all, we have conducted almost 25 sales for the ANA since 1980, totaling nearly \$75 million. That's an enviable record – one that no other firm can match.

Superb Type Two Gold Dollar

- 5787 NGC 1854 Type Two MS 66. Unparalleled quality in a Type Two gold dollar. Type Two dollars, while not rare in the absolute sense, are important condition rarities in such lofty condition as this. Only 5 pieces have been certified in this grade by both certification services, and only one piece is finer. Superb quality.

- 5788 NGC 1855 Type Two MS 62. The striking details are surprisingly strong for this issue with well defined hair curls and date. A bit of die clashing is evident as is somewhat subdued luster on both sides. Popular as a type coin.

Splendid 1855-O

- 5789 NGC 1855-O MS 62. The 1855-O is doubly popular because it is not only a one-year type coin, but it is also the final year of production for this denomination from the New Orleans mint. The fact that it is a Type Two issue adds a certain charm as well. Circulated examples are only moderately scarce, but in mint state they quickly become quite elusive. This specimen exhibits a better than average strike for the issue. There is only the slightest evidence of die clashing on the reverse, as compared to the usual heavy clash marks. Rated as a mid to high R.6 in mint condition, no doubt this is one of the finer 1855-O gold dollars in existence. Population: 1 in 62, 5 higher (10/94). The finest is an MS 64.

- 5790 PCI 1856 AU 53. Slanting 5. A well struck example of this relatively common issue. Bright surfaces with good remaining luster.
- 5791 NGC 1857 AU 58. A sharp strike with virtually complete satiny brilliance.
- 5792 PCGS 1857-D AU 53. One of the more elusive dates in this popular series.
- 5793 NGC 1858-D AU 53. A pleasing example of this popular issue. With only a single mint state example graded, excessive pressure is put on the dozen or so AU examples available.
- 5794 PCGS 1859-D AU 53. Another nice example of Dahlonega gold. We are fortunate to have a nice little run of D mint dollars to offer in this sale.
- 5795 PCI 1862 MS 64 Repaired Field. Bright and lustrous, there is a small area of discoloration at the bottom of the obverse.
- 5796 NGC 1885 MS 61. A bright example with semi-reflective fields.
- 5797 NGC 1886 MS 61. Some rich golden patina is present.

- 5798 NGC 1888 MS 62. A well struck, satiny specimen.
- 5799 ANACS 1889 MS 62. Mildly prooflike and only a few minor hairlines from choice to gem quality.

PROOF GOLD DOLLAR

Proof 1881 Gold Dollar/Only 87 Minted

- 5800 PCGS 1881 PR 64. Only 87 proofs were produced this year, but the large number of prooflikes has confused the picture of availability of 1881 proof dollars. The glassy mirrored fields have taken on a rich orange-gold patina with faint suggestions of lilac interspersed. While there is virtually no contrast between the fields and devices, the coin does not lack in eye appeal. Population: 6 in 64, only 3 finer.

CLASSIC QUARTER EAGLES

- 5801 PCGS 1834 Classic XF 40. Quite lustrous for the grade and perhaps finer save for a few scattered reverse field marks.

- 5802 NGC 1834 Classic MS 61. Large Head. The fields are bright and semi-prooflike, giving the coin an inordinate amount of flash for the grade. The trade-off, though, is a noticeable weakness of strike on the hair curls of Liberty and the eagle's plumage. Still, quite an attractive example of the Classic design and a good value in this grade. (See Color Photo)

Mint State 1834 Classic Quarter Eagle

- 5803 NGC 1834 Classic MS 62. Small Head. A solid, uncirculated example of this always popular first year of issue for the Classic design. The hair curls around Liberty's face are softly defined, as is almost always the case, but elsewhere the coin is well struck. A few light marks account for the grade, and the fields are semi-prooflike as often seen on 1834 quarter eagles and half eagles.

Highly Lustrous 1835 Quarter Eagle

- 5804 PCGS 1835 MS 62. A very attractive type coin that shows an interesting mixture of both thick mint frost overall and semi-prooflike reflectivity in the fields. Softly struck on the hair curls, as usual. Sure to be of great interest to a wide range of bidders.

Pleasing, Mint State 1836 Quarter Eagle

- 5805 NGC 1836 MS 61. Head of 1835. The Head of 1835 features a small curl adjacent to star 6, and it is the most plentiful of the three varieties of this date. There is also a pronounced die crack that runs from rim to rim from star 6 to the space between stars 12 and 13. Good luster characteristics, the coin is a bit softly struck in the centers, and there are several small abrasions and luster grazes that account for the grade.

**Extremely Rare Mint State 1839 Quarter Eagle
Tied For Finest Known**

5806 NGC 1839/8 MS 61. While the 1839 does not have an impressively low mintage, it is, nevertheless, a very scarce item in all grades. Usually only seen in VF-XF condition, AU coins are rarely encountered. In mint condition this is a landmark opportunity for the specialist. Only one other coin has been certified in mint state, that one by PCGS and graded the same as this piece. The hair curls are very sharply defined as are the feathers on the eagle. However, there is just a bit of softness noted on the peripheral stars. Excellent mint luster, the fields are bright and semi-prooflike. While there are numerous tiny marks on each side, the only blemish on the obverse that might be used as an identifier for pedigree purposes is an alloy spot in the left field. A vertical milling mark is noted in the upper reverse field at the juncture of the right wing and shield. A rare and important coin for the specialist.

5807 PCGS 1839-O XF 45. A popular first year New Orleans issue, boldly struck with green-gold color and somewhat lustrous on both sides. A few of the normally seen die breaks can be seen on the reverse along with 180 degree die rotation.

LIBERTY QUARTER EAGLES

5808 PCGS 1845-D XF 40. A scarce coin in all grades and especially difficult to locate any finer than XF. Typical for the issue, the centers are softly defined but there are no distracting planchet flaws as often seen. Deep reddish-coppery color covers both sides, and there are a few small abrasions noted, none of which are particularly distracting.

**Mint State 1847-C Quarter Eagle
One of the Finest Known**

5809 NGC 1847-C MS 61. The '47-C is the most commonly encountered Charlotte quarter eagle and as such enjoys strong demand by collectors. However, in mint condition it certainly cannot be considered common. Rated as a mid-R.7 in mint state, with an estimated 7-9 pieces believed extant, this piece is an important condition rarity as such. The center of the obverse is sharply defined and there is only slight softness on the reverse. Medium orange-gold color overall with a few grade limiting field marks, the most obvious ones being a small cluster between the TA in STATES and the eagle's head. Population: 1 in 61, none finer (10/94).

5810 NGC 1852 MS 63. Well struck with excellent luster characteristics, there are a few minor abrasions scattered about, the most noticeable ones in the field above the eagle's head. While a common date, early issues from the '40s and '50s are many times scarcer than their post-1900 type coin counterparts.

5811 NGC 1852 MS 64. Early dates such as this are scarce in all grades of mint state, but in near-gem condition they are nothing less than rare. Sharply struck on the obverse, the reverse shows a bit of softness on the eagle's plumage. Minimally marked with bright, lustrous surfaces. Population: 7 in 64, only 1 finer (10/94).

5812 PCGS 1852-C VF 35. Heavily abraded and weakly struck, as invariably found, this piece has bright greenish-yellow color. A very scarce date and seldom found any finer.

5813 NGC 1861 MS 64. Sharply struck with near abrasion-free surfaces, the fields are semi-prooflike and overall, the coin has a rich coppery-reddish patina that is most appealing. A nearly unimprovable type coin from this early decade of production of the Coronet design.

5814 NGC 1877-S MS 61. Moderately available in mint condition, this piece is well struck and has bright, lustrous, golden-orange surfaces.

5815 PCGS 1877-S MS 62. A much scarcer mint state date in the quarter eagle series. The surfaces are quite satiny, but there are numerous tiny contact marks. Population: 5 in 62, 8 finer (12/94).

5816 NGC 1881 AU 55. An exceedingly rare date in the Liberty quarter eagle series with a miniscule mintage of only 650 business strikes. There are very few survivors today, and this is one of the finer known examples. Only eleven circulated and two higher grade, mint state specimens have thus far been certified by NGC (10/94). As is normal, the surfaces are deeply mirrored, suggesting a proof striking, but a close examination reveals a lack of definition that is inherent with a single strike of the dies. Proofs are created with two or more impressions of the coining press. A light amount of circulation is evident by the contact marks and scuffing. An important opportunity for the gold specialist.

5817 NGC 1885 AU 53. It is, indeed, a very unusual and pleasant opportunity to be able to offer one of the rarest Liberty quarter eagles in the entire series. The 1885 has the fourth lowest business strike mintage—800 pieces—of any Liberty quarter eagle coin, next to the 1881, the 1875, and the prohibitively rare 1854-S. One theory for the exceedingly low business strike production is that even as late as the 1880s, individuals could come personally and bring their gold to the mint for conversion into coin of the realm. There was a glut of gold coins, particularly in the East, and no production had been specified. Maybe these precious few coins were produced from direct public demand. From this tiny mintage, a total of 32 pieces have been certified by both services in all grades, undoubtedly, some of which may be the same coin. AUs seem to be the median grade for the date, and this specimen hits right in the middle. The strike is sharp and the surfaces show some prooflike reflectivity. This is truly an opportunity for the astute gold buyer, as this is an exceptional coin that is rarely offered for sale.

5818 NGC 1888 MS 63. An attractive, uncirculated example and a scarcer date as only 16,001 were coined as business strikes. Satiny, lustrous surfaces.

5819 NGC 1897 MS 64. Extremely lustrous with great eye appeal, a lower mintage date in the '90s. Some peripheral lemon-yellow patina has formed.

5820 PCGS 1898 MS 64. Bright, satiny surfaces are complemented with a razor sharp strike.

5821 NGC 1898 MS 65. This type is certainly pretty when it appears in the gem condition such as this piece. Whether you like surfaces, blazing luster, full strike, superb eye appeal—you can have it all in this singular jewel. Perfect for type purposes.

5822 NGC 1899 MS 63. Satiny and very lustrous, a bright example.

Exceptional Quality 1903 Quarter Eagle

5823 NGC 1903 MS 66. An outstanding type coin, this piece is at the pinnacle of preservation with no mentionable abrasions on either side. Fully struck with thick, satiny luster. The only ripple in the fabric of the coin is a light alloy spot on the reverse. A must-see specimen for the type collector. (See Color Photo)

5824 NGC 1907 MS 63. Fully struck with satiny surfaces.

PROOF LIBERTY QUARTER EAGLES

Impressive Cameo Proof 1864 Quarter Eagle
Tied For Second Finest Certified

5825 NGC 1864 PR 65 Cameo. According to official mint documents, 50 proof quarter eagles were produced in 1864. However, judging from the number extant, it is likely that far fewer were actually distributed. It is entirely possible that the Civil War took precedence in people's minds over coin collecting in 1864, and a fair number of those struck were melted as unsold at year's end. Only 12-16 examples are known today, this piece being tied for second finest certified.

The fields have an unfathomable depth of mirrored reflectivity and go "black" as the coin is angled slightly. The devices are heavily frosted, and the overall appearance is one of a two-toned cameo. Only the faintest hairlines are evident in the fields, and these we cannot see without a magnifier. A superb quality specimen and, of course, of the highest rarity and importance as an early proof. (See Color Photo)

Matchless Cameo Proof 66 1884 Quarter Eagle

5826 NGC 1884 PR 66 Cameo. A rare issue as a proof and seldom encountered in the better grades when found. This is the finest proof certified by either grading service, and it is a visually stunning coin. The deeply reflective fields show evidence of heavy die polishing, and faint striations can still be seen in the reverse fields. The devices have a fair amount of frost on them, providing a moderate white on black cameoed appearance. The only surface imperfection that could be used as an identifier for pedigree purposes is a small alloy spot on the reverse between the bottom two arrowheads. Unmatchable quality. (See Color Photo)

INDIAN QUARTER EAGLES

5827 PCGS 1908 MS 63. Bright, dazzling luster enhances both sides of this first year issue.

Bright, Lustrous Gem 1910 Quarter Eagle

5828 PCGS 1910 MS 65. As a type, Indian quarter eagles are very scarce in the better grades of mint state. This is the result of the design being struck in sunken relief, thus exposing larger areas of the coin, especially the fields, to abrasions. This piece has bright, lustrous surfaces and is fully brought up in all areas. Minimally abraded and a lovely gem type coin.

5829 PCGS 1913 MS 63. Deep frosty luster is combined with a good strike.

5830 PCGS 1915 MS 63. Well struck with some deep-golden patina.

THREE-DOLLAR GOLD PIECES

5831 PCGS 1858 AU 50. The 1858 is the first "issue rarity" from the Philadelphia mint with only 2,133 pieces struck. It is also a significant condition rarity. The vast majority of survivors are VF or XF at best with very few AU coins known. Akers ranked the 1858 as 8th in the series according to rarity by average grade. This is a solid AU coin that is sharply struck and shows exceptionally bright surfaces overall. There are a few field marks on the obverse, but none that are individually significant.

5832 PCGS 1874 MS 62. Good luster and eye appeal characterize this common, late date three-dollar. The strike is a bit soft on the highest portions of the design, but this is a minor concern. There is a slight rose tinge to the luster that gives the piece a colorful accent on each side.

5833 PCGS 1878 AU 50. Bright surfaces showing only modest wear.

5834 PCGS 1878 AU 55. A satiny, high grade specimen. An affordable example of this popular type coin.

Financially Secure

Heritage Numismatic Auctions is a division of Heritage Capital Corporation, the world's largest coin firm. When you consign your coins to a Heritage auction, you have the peace of mind of knowing that you will be paid in full, and on time.

Rare Gem BU 1883 Three-Dollar Only 900 Business Strikes Minted

5835 PCGS 1883 MS 65. The 1883 has one of the lowest mintages of the series with only 900 pieces struck. It is a genuinely rare coin that apparently did circulate to some degree as most survivors are XF or AU, and mint state pieces are quite elusive. In gem condition the 1883 is of the utmost rarity and importance, only one other piece has been so graded, and that one also is certified by PCGS.

The surfaces of this piece have the full, frosted mint luster that is so prevalent on high grade threes, and on this coin there is also a bit of semi-prooflikeness noted. Fully struck in all areas, the surfaces are minimally abraded with no marks large enough to use for pedigree purposes. (See Color Photo)

PROOF THREE-DOLLAR GOLD PIECE

Very Rare 1864 Gem Proof Three-Dollar
Only 50 Minted

5836 PCGS 1864 PR 65. Like the 1864 proof quarter eagle previously offered, the three-dollar also has a mintage of 50 pieces, higher than normal during this decade. But far fewer exist today, suggesting that quite a few were probably melted as unsold at year's end. Today no more than 20 examples are believed known with one estimate placing the number extant in the range of 13-16 pieces.

Of the few known proof survivors of this date, quite a few are circulated, damaged, or somehow impaired. Only 2 other coins have been certified in gem condition by both of the major grading services, and none are finer. The fields of this coin are deeply mirrored and the devices have a moderate amount of mint frost, yielding a pleasing, two-toned effect. There are several tiny lint marks and a few stray hairlines in the fields, but these have virtually no effect on the overall eye appeal of this impressively rare gold coin. One tiny alloy spot is noted by the R in AMERICA on the obverse, and this might be noticeable enough to use as an identifier for pedigree purposes. (See Color Photo)

FOUR-DOLLAR GOLD PIECE

Extremely Rare 1880 Flowing Hair Stella

5837 NGC 1880 Flowing Hair PR 65. Judd-1657. During the 1870s the idea of an internationally convertible coin received much support from two men in Washington, Dana Bickford and Representative John A. Kasson. Several patterns were struck as a result of their efforts, the most famous of which were the four-dollar gold pieces or stellas of 1879 and 1880. While technically a pattern issue, there were sufficient quantities minted that this curious coin has long been collected as a part of regular issue U.S. coinage.

First struck in 1879, the Flowing Hair design was engraved by young Charles Barber and was struck again in 1880. George Morgan also produced a design for the stella with the figure of Liberty having coiled hair. The overwhelming majority of Flowing Hair stellas are dated 1879 with 415 pieces reportedly struck. Mint records indicate that only 15 pieces were produced in 1880, but this number is obviously in error as some 18-25 examples are known today, making the total minted probably around 50 coins. As an individual issue, the 1880 Flowing Hair is closer in rarity to the famed Coiled Hair pieces. The 1880 is 12 to 15 times scarcer than its 1879 Flowing Hair counterpart, but it seldom sells for more than twice the price.

This is an amazing stella, regardless of year or design type. The surfaces are uncleaned, and thus unhairlined, with only a few small contact marks seen on either side, none of which are mentionable or distracting. There is only a small black speck of grease or verdigris on the bridge of the nose that could be used as an identifying mark. Both sides exhibit the light die striations that are almost invariably seen on stellas, but these of course are not deep or distracting, and are only mentioned for the sake of accuracy. Bright, reflective fields, the devices are lightly frosted. A solid gem example of this famous numismatic rarity. (See Color Photo)

EARLY HALF EAGLES

5838 NGC 1806 AU 55. Round Top 6. A well defined example displaying a few of the normally seen adjustment marks on the reverse. Struck in bright, yellow gold, there are portions of luster still showing in some of the protected areas. A handsome coin and one that will be of interest to many type collectors.

5839 PCGS 1807 Bust Right XF 40. A bit softly struck in the centers, but not objectionably so. The surfaces are free from any large contact marks but there are two heavy die cracks that radiate inward from 12 and 5 o'clock on the obverse. A pleasing mid-range example of this popular final year of issue.

5840 NGC 1807 Bust Left XF 45. Popular as the first year of the Capped Draped Bust type, the 1807 is also one of the more frequently encountered coins in the series. This is a well struck piece that has rich orange-gold color overall and is accented by an even deeper rose tinting around the devices. There are a few more obvious marks in the center of the obverse.

Very Rare 1832 Half Eagle One of Only 14-18 Believed Known

5841 PCGS 1832 13 Stars MS 62. The extended series of Capped Bust Left half eagles from 1813 to 1834 is unquestionably the rarest group of regular issue coins in the entire catalog of United States coinage. Most rarities in other series are explainable by their low mintages, but in the case of this series the mintages are sufficiently high (in most cases) to give one the misperception of availability. The rarity of these coins is explained not by what happened in the mint, but rather what happened after they left the mint.

As the gold to silver ratio continued to climb in the early decades of the 19th century, it became profitable to melt U.S. gold coins and convert the gold bullion into silver coins. This was extensively done for years whenever a sufficient number of gold coins could be found to cover the expense of melting. There were also large scale meltings. In Paris in 1831 some 40,000 half eagles of recent vintage were melted and found to be of sufficient weight and fineness. Legislation was finally passed in 1834 that changed both the weight and fineness of U.S. gold coins, but not before the Capped Bust Left series was almost extinct.

Most coins of this type were not circulated, and as a result, the few pieces that do survive are almost all high grade. There are most likely no more than 18 examples known of this variety in collector's hands today. This is a solid uncirculated coin that has good luster characteristics. The strike is a bit soft in the centers, and there are a few stray marks that account for the grade. A rare opportunity to acquire a representative example from the most elusive series in U.S. coinage. (See Color Photo)

Unique 1832 13-Stars Proof Half Eagle

5842 NGC 1832 13 Stars PR 64. A stunning coin of undeniable rarity and importance, this piece was formerly a part of the famous Virgil Brand Collection. The write-up in the Brand catalog (B& M, 11/83, lot 281) was so extensive that we can add nothing to it, so rather than paraphrasing, we reproduce the description from that historic sale 12 years ago.

"David Akers, who did not know of or examine the present coin, does not describe the existence of such a coin, noting "to the best of my knowledge, no Proofs of this date exist." However, Walter Breen observes that "a single 13-star Proof coin is rumored to exist." To the best of our knowledge this coin, long hidden from the view of scholars, is unique. We are not aware of any other specimen in any other collection. At a Chicago Numismatic Society meeting on October 2, 1908, Virgil exhibited an 1832 half eagle in Proof. This must be the coin that is rumored to exist by Walter Breen.

On its own, irrespective of date or variety, the present 1832 would be a landmark coin because of its Proof status. However, the desirability does not end there...The 1832 13-star half eagle is a rarity in its own right. It is believed that only 20 or so specimens exist in all grades, despite a reported mintage of 157,487 pieces! Probably most of them were kept on hand and were melted after 1834...such pieces were worth more on a melt-down basis than face value, so they went into the hands of brokers and speculators."

Purchased by Virgil Brand from Chatlin in August 1908; in 1935 Armin Brand gave this coin as a Christmas gift to his daughter Jane. (See Color Photo)

Choice Mint State 1834 Classic Half Eagle

5843 PCGS 1834 Plain 4 MS 63. Unlike the Capped Bust Left series which preceded it, the reduced weight and fineness in the Classic design by Kneass caused these coins to circulate widely, and today mint state pieces are very difficult to locate. This is a commanding coin that has cartwheel luster and light reddish patina at the peripheries. The strike is a bit soft in the centers (as often seen) and there are a few small abrasions scattered about that account for the grade. Sure to be of great interest to gold type collectors. (See Color Photo)

LIBERTY HALF EAGLES

Choice BU 1839 Half Eagle
One of the Finest Known

5844 PCGS 1839 Small Letters MS 63. First year of the modified design by Christian Gobrecht. While many first year type coins were saved at the time of issue, there was almost no collector base in this country in 1839 that collected each date and mintmark in a given series. As a result, the survival of coins such as the 1839 half eagle was more a matter of chance than design. This is a charming example that has greater eye appeal than its grade would indicate. The surfaces are lustrous and peppered with only slight abrasions, and the striking details are uncommonly bold. To help trace the pedigree of this important coin, there is a small alloy spot on the obverse rim below star 7, another by star 8, and a third to the right of the second S in STATES. Population: 1 in 63, only 1 finer (12/94). (See Color Photo)

5845 NGC 1840 AU 55. Narrow Mill. By far the more common of the two varieties, this Narrow Mill piece is well struck, and the surfaces overall are bright with a fair amount of mint luster remaining. The most obvious abrasion is a milling mark in the left obverse field.

5846 PCGS 1840-O XF 45. Narrow Mill. The more commonly seen of the two varieties, the Narrow Mill O-mints of 1840 are among the best produced of all branch mint issues of this year. However, that being said, the centers are somewhat softly struck on this piece but the margins are well defined. Bright orange-gold color with traces of prooflikeness in the fields, and showing no mentionable abrasions.

5847 PCI 1842 AU 58 Seawater. Boldly struck, the surfaces are dull and matte-like from prolonged exposure to saltwater.

Attractive 1842-D Small Date Five Tied For Second Finest Known

5848 PCGS 1842-D Small Date AU 58. A scarce date among Dahlonega half eagles, but one that pales in comparison to its more famous Large Date counterpart. The Small Date is seldom seen above XF, and this is one of the finest examples known being tied with two other pieces for second finest honors. This is a very sharply struck piece that has bright surfaces and shows numerous, small scattered abrasions, the only ones that deserve mention being in the upper reverse field below STATES.

Mint State 1847 Half Eagle

5849 NGC 1847 MS 62. One of the more available No Motto half eagles in mint condition, but a very scarce coin when compared to later, post-1900 issues. Only 10 pieces have been so graded by NGC (10/94) with 4 finer. Well struck for a coin of this decade, there is only slight softness on the hair curls of Liberty and on the neck of the eagle. There are a couple of prominent die cracks on the obverse, but no large or objectionable post-striking impairments. Not quite lustrous enough to grade higher.

5850 PCGS 1847-C VF 25. A high mintage Charlotte date (84,151 pieces struck) and very difficult to locate in better grades. In VF and XF the '47-C is relatively common and usable for type purposes. This piece has numerous small abrasions scattered over both sides and the softness of strike one usually sees on examples of this issue.

Mint State 1848 Half Eagle

5851 NGC 1848 MS 61. Only occasionally available in mint condition, the 1848 is a better date P-mint No Motto half eagle. Yet, it is surprisingly affordable for a coin with no more pieces available than there are. Sharply defined, the fully lustrous surfaces show a few medium sized abrasions that are consistent with the grade. Population: 2 in 61, 6 finer.

5852 PCI 1851 AU 53 Altered Surfaces. A dull, lackluster appearance is displayed on both sides.

5853 NGC 1851-O XF 40. Much scarcer than the mintage of 41,000 pieces would indicate. This coin is typical for the issue with softly defined hair curls and plumage on the eagle. Numerous small abrasions are peppered across both sides.

Near-Mint 1852-C Half Eagle

5854 NGC 1852-C AU 58. While a common date among Charlotte fives, the '52-C is extremely scarce in AU condition, meriting a mid-R.7 rating with an estimated 7-9 pieces known in that grade. This is a bright coin that only shows the slightest friction in the fields and over the highpoints. Well struck for a Charlotte product, there is only slight softness noted on the hair curls around the face and on the feathers on the eagle's neck. A few small marks are noted on each side, the most obvious ones being on the reverse above the eagle's head and on the rim at 2 o'clock. Of great importance to date or type collectors in this lofty condition.

Near-Gem 1852-C Half Eagle
Tied For Finest Certified

5855 NGC 1852-C MS 64. While the 1852-C is widely recognized as one of the more "common" issues among Charlotte fives, its rarity and importance cannot be overstated in near-gem condition. Charlotte and Dahlonega gold coins were used extensively in the channels of commerce at the time of issuance, are not generally available in mint condition. Only one other MS 64 has been certified, and that also by NGC. This is a splendid coin whose surfaces are bright and lustrous. The fields are semi-prooflike and, as usual with mintmarked coins from this era, the central striking details are not fully brought up. There are several pinpoint abrasions in the fields, the most obvious ones being a cluster on the lower left of the obverse. An exceptional coin and sure to be placed in a premier collection of Charlotte gold coins. (See Color Photo)

- 5856 **PCGS 1852-D AU 50.** One of the more commonly encountered D-mint fives, and an issue that is almost always found softly struck in the centers. This coin has exceptionally bright surfaces, and while there is some softness of strike, it is not nearly as noticeable as on other examples we have seen. Numerous small abrasions are seen peppered throughout the fields.

**Almost Uncirculated 1858-S Half Eagle
One of the Finest Known**

- 5857 **PCGS 1858-S AU 50.** A very rare coin in any grade and a major condition rarity above XF. In fact, at the time that Akers wrote his auction survey on the half eagle series, he had not seen an AU piece and none had been offered at public auction since 1963. This is a moderately well struck coin that has rich orange-gold color and numerous small handling marks. Undoubtedly one of the finest examples known of this rare issue.

- 5858 **NGC 1861 AU 55.** An ideal No Motto type coin tinted reddish-gold about the peripheries.

- 5859 **PCGS 1864 XF 40.** Despite a similar and very low mintage figure (4,220 pieces), the 1864 is not considered quite as rare as the 1862. Nevertheless, it is very scarce in any grade. This coin's sharp strike is accented with hints of original luster still showing through.

Very Scarce XF 1871-CC Half Eagle

- 5860 **NGC 1871-CC XF 40.** Rare in all grades, almost all known examples of the '71-CC half eagle are in the Fine to Very Fine grade range with XF pieces being conditionally rare. Judging by degree of wear and remaining luster, this piece should actually grade several points higher. However, the central devices are softly struck and the coin's grade has obviously been adjusted accordingly. There are only small abrasions scattered across both sides, none of which are individually significant.

Choice AU 1872-S Half Eagle

- 5861 **PCGS 1872-S AU 55.** Much more elusive than even its low mintage of 36,400 pieces would indicate, the '72-S is rare both in the absolute sense as well as being a condition rarity. Coins in XF condition are not easy to locate, there are only a handful of strict AUs, and mint state pieces are virtually unknown. This is one of the finer AU coins extant. The obverse is well struck, but the reverse is softly defined on the eagle's plumage. Bright yellow-gold color with a few small abrasions in the left obverse field and the right reverse field.

Second Finest Known 1873-S Five-Dollar

- 5862 PCGS 1873-S AU 53. The 1873-S is very rare with most surviving specimens only grading VF; XF coins are quite scarce. This is the second finest known example of this seldom seen condition rarity, exceeded only by a single mint state NGC coin. The surfaces are bright and well struck. There is a good amount of remaining luster for a circulated coin, and a milling mark on the cheek of Liberty serves as an identifier for pedigree purposes. A very rare opportunity for the specialist in this popular and widely circulated denomination.

High Grade 1875-CC Half Eagle

- 5863 PCGS 1875-CC AU 50. An issue rarity as well as a condition rarity with most of the few known pieces only grading Fine and Very Fine. This is the first AU we have handled in over two years, and as such represents an extraordinary opportunity for the gold collector. This is a well struck specimen that has light yellow-gold surfaces that are enhanced by a deeper orange-gold patina at the rims. Reasonably well struck for the issue, the most obvious surface distraction is a milling mark on the lower cheek of Liberty.

Mint State 1876 Half Eagle

- 5864 NGC 1876 MS 62. A very rare date in all grades. Only 1,432 business strikes were produced in this centennial year, the lowest production of any With Motto half eagle. Very few survive in any grade, but a couple of mint state pieces do exist of this date. Most business strikes are prooflike, and so it is with this coin. There is also considerable cartwheel luster intermixed over the surfaces as well. The striking details on the obverse are well defined, and there is just a bit of softness noted on the eagle's neck on the reverse. There are numerous small abrasions scattered about each side which account for the grade, but the most distinctive ones are on the upper lip of Liberty and another on the jawline. An important half eagle and the finest example we have offered since we sold the Miles coin this past summer. Population: 1 in 62, none are finer (10/94). (See Color Photo)
-

Problem-Free AU 1879-CC Five-Dollar

- 5865 PCGS 1879-CC AU 50. Scarce in all grades, as one can easily believe from looking at the mintage of only 17,281 pieces. Virtually all known examples are in the VF-XF grade range and very few specimens exist in AU or mint state. This is the finest piece we have offered in more than two years. Well struck on the obverse, the reverse is a bit softly defined on the eagle, as usual. Only faint bits of luster still remain, and the coin's surfaces are remarkably free from the usual number of abrasions.
- 5866 PCGS 1880-S MS 63. Frosty with excellent color and luster for the grade. Fairly common in lesser grades of mint state, but pieces nicer than this coin are quite scarce.
- 5867 PCGS 1883 MS 60. A slightly scarcer mint state date in the series, well struck but lacking its original lustrous brilliance.
-

Conditionally Rare 1883-CC Half Eagle

- 5868 NGC 1883-CC AU 50. A very scarce Carson City issue with an original mintage of only 12,958 pieces. Most of the known survivors are VF or XF at best, with precious few examples remaining in AU condition. This is a solid AU piece that has noticeable portions of mint luster still in evidence around the devices. Minimally abraded and reasonably well struck for a coin from this mint.
- 5869 PCGS 1887-S MS 63. A Liberty half eagle that is very common as a circulated specimen, but very scarce in a higher mint state grade. In fact, PCGS has certified 41 MS 63s with none finer. Bright mint frost enhances the surfaces.
- 5870 PCGS 1890 AU 55. Bright and lustrous with attractive pinkish-gold color. A conditionally rare Philadelphia half eagle from an original mintage of just 4,240 pieces.
- 5871 PCGS 1891 MS 62. Bright luster and a sharp strike, a normal amount of contact marks are noted.
- 5872 NGC 1891-CC MS 61. Only a trifle scuffy in the left obverse field, otherwise bright, lustrous, and very clean.
- 5873 PCGS 1891-CC MS 62. Fully struck, the surfaces show none of the usual reddish color. A bit lackluster to grade any higher though.
- 5874 PCI 1891-CC MS 62 Repaired. An attempt has been made on the obverse to smooth some abrasions in the fields, still quite attractive.
- 5875 NGC 1892-CC AU 55. A near mint state example and, as such, a high grade for this otherwise common CC five. Minimally abraded with a few specks of coppery color most noticeable on the reverse.
- 5876 NGC 1893-CC AU 55. A bold striking with virtually complete mint brilliance and minimal abrasions. Final year of CC production and a scarcer issue in AU and higher condition.

- 5877 NGC 1894-O AU 53. Bright surfaces with pinpoint marks in the fields. A conditionally scarce O-mint.
- 5878 NGC 1894-O AU 55. Lustrous yellow-gold surfaces with only the slightest friction in the fields. Rarely found in mint state, this essentially new coin should fit well in a high grade set of New Orleans half eagles.
- 5879 PCGS 1907-D MS 63. Fully struck with excellent luster and showing some even golden patina over both sides. A lovely type piece and clearly a choice coin.

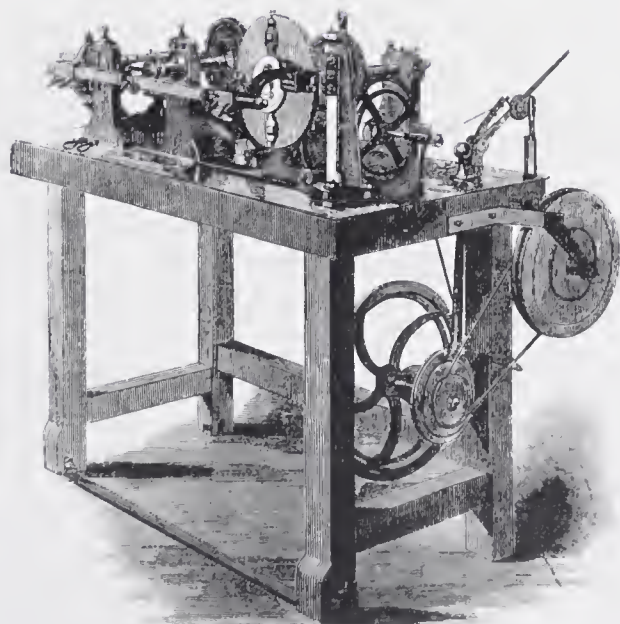

INDIAN HALF EAGLES

- 5880 PCGS 1908 MS 61. Minimal marks and a good strike accent this piece. Perhaps only a bit of slightly subdued luster accounts for the 61 grade.
- 5881 PCGS 1909-D MS 63. Boldly struck and as bright as the day it was struck, a choice specimen.

Scarce 1910-S Indian Half Eagle

- 5882 PCGS 1910-S MS 62. A scarce five-dollar Indian and seldom seen any finer. This coin has an uncommonly soft strike, as most examples are quite well defined. This piece shows some softness of details on the headdress and just a bit of weakness on the eagle's feathers. Conservatively graded, were it not for the strike, the coin would undoubtedly grade one or two points higher. The soft, frosted mint luster has just a bit of light golden-orange patina, and there are a few field marks noted, most especially on the upper reverse.
- 5883 NGC 1916-S MS 61. The toughest 20th century gold type coin in BU, this is one of the more obtainable issues in this difficult series and certainly the easiest of the S-mints.
- 5884 PCGS 1916-S MS 62. A bright, well struck example with typically indistinct mintmark. The most common of the S-mint Indian half eagles in mint state.

EARLY EAGLES

Very Rare Mint State 1800 Ten-Dollar

- 5885 NGC 1800 MS 62. B. 1-A. A very scarce date and one that has been overlooked by all but the most dedicated early gold specialists. Only 5,999 pieces were produced and the limited output of this issue is undoubtedly accounted for by the obverse die cracks seen on almost all known examples. Few coins could have been produced from such badly cracked dies. Breen estimates that possibly only 2% or less of the mintage survives today, which would certainly go far toward explaining how rare this date is in mint condition. This is the first uncirculated specimen of this date we have handled in some time. The surfaces are bright and highly lustrous with a semi-reflective sheen in the fields. The striking details are uncommonly bold with each strand of hair fully articulated and the eagle's breast feathers completely defined. In fact, the only area of softness we see is on several of the stars on the left side of the obverse. There are several small surface blemishes in the left obverse field and a couple are also noted toward the bottom of the reverse. The only moderately distracting marks on the coin are a series of shallow adjustment marks on the left reverse rim. Exceptional quality in this rarely seen date. (See Color Photo)

Rare 14th Star 1803 Eagle

- 5886 NGC 1803 14th Star MS 62. A scarce variety that has a most unusual feature. On the cloud on the extreme right, below the letter F, there is a small star that was impressed in the die, lying entirely within the borders of the cloud itself. We cannot think of another variety in any series where this happened in exactly this manner. The only similar occurrence was on the 1799 B-3 dollar that has two stars partially buried beneath the clouds. As such it is quite rare and remained unknown until discovered by Harry Bass in 1966. The striking details on the obverse of this coin are exceptionally well defined with sharp definition on the hair curls. There is just the slightest softness noted on the eagle's left claw and on the highpoint of the eagle's breast on the reverse. A few shallow die striations extend from the left obverse field onto the trailing hair curls, and a few more run vertically down the top of Liberty's face. Bright, lustrous surfaces overall and showing no singularly important marks on either side. (See Color Photo)

Choice XF 1839 Small Letters Eagle

- 5887 NGC 1839 Small Letters XF 45. While sharing the same date as the Large Letters type, this is a separate type altogether, and as an issue the Small Letters coins are much scarcer than the much better known Large Letters. Only 12,447 pieces were struck and examples are rare in any grade, and the finest grade one can reasonably expect to locate is a Choice XF such as this. This is a well struck coin whose only noticeable area of weakness is on the large hair curl immediately above the ear. The golden-olive surfaces are remarkably clean for the grade with the most notable abrasions being a couple of reverse field marks, one above the head of the eagle and the other left of the juncture of the wing and eagle's leg. A scrape is also noted in the right reverse field. A truly choice example of this rare, first year of issue for the modified Coronet design.
- 5888 PCGS 1842-O XF 40. A mid-R.6 coin with an estimated 22-24 pieces believed to exist in this grade range. A bit softly struck on the highpoints, there are several more noticeable abrasions in the left obverse field and above the eagle on the reverse.
- 5889 PCGS 1842-O XF 45. A more choice example of this popular O-mint issue, this piece has none of the larger marks in the fields that the coin above shows. Well struck with small portions of mint luster still seen around the devices.

A Heritage of Excellence

The year 1995 marks the beginning of our 20th year in the auction business. Since 1975, Heritage has conducted nearly 150 sales, with a total prices realized in excess of \$200 million. The experience we've gained over the years goes to work for you every time we have a sale.

Our consignment coordinators carefully examine your coins, and will offer their recommendations regarding grading and certification, two crucial elements in obtaining the best price for your coins. Our expert catalogers consult a wide variety of references, making sure no important attribute of your coin goes unmentioned. Our catalog is sent to thousands of the nation's leading collectors and dealers, many of whom will be in attendance at the convention where the sale is held.

At Heritage, we are continually innovating, and using our two decades of experience to conduct the finest numismatic auctions in the world. Call today to find out how you can become a part of our next sale.

Fifth Finest Known 1842-O Eagle

- 5890 NGC 1842-O AU 58. A low condition census coin, the '42-O, while it may be one of the more common No Motto eagles in lower grades, is a condition rarity at the AU level. This piece appears to be the fifth finest known. The surfaces are bright and retain much of the mint luster with semi-prooflike fields that add even more to the overall eye appeal of the coin. Sharply defined in all areas. The surface blemishes that could be used to track the pedigree of this important coin are: alloy spots on the obverse rim at 12, 5, and 10-11 o'clock, there is also a long horizontal mark just above the date.
-

Lustrous AU 1845 Eagle

- 5891 PCGS 1845 AU 55. A difficult coin in all grades, and considered "prohibitively rare" above XF according to Breen. Apparently only two mint state pieces are known, and this is one of the very few AU coins extant. The surfaces retain much bright mint luster and the devices are fully struck. There are no large or detracting blemishes on either side, just the normal amount of light marks one would expect from a lightly circulated gold coin.
-
- 5892 PCGS 1847-O VF 35. A common date New Orleans ten that is a bit softly struck. There is a long scratch across the lower point of the truncation of the bust extending into the field.
- 5893 NGC 1848 AU 58. A scarce and underrated date, and seldom seen any finer. Semi-prooflike fields and showing just a touch of striking softness on the highpoints.

Scarce 1848-O Ten-Dollar

- 5894 **PCGS 1848-O XF 45.** A very scarce and largely underappreciated issue in the No Motto series. The '48-O is probably the worst produced O-mint ten-dollar from the 1840s. This piece is softly impressed, as usual, but the surfaces overall are bright and show virtually no marks. Scarce in this grade and close to the lower end of the condition census.

Mint State 1850 Large Date Eagle

- 5895 **NGC 1850 Large Date MS 62.** The more frequently encountered of the two date varieties, but still a scarcer coin and one that is rarely found any finer than AU. In mint condition this coin is of obvious importance to both the date as well as the type collector. This is a well struck coin that only shows slight softness on the radicals of the peripheral stars. Bright and lustrous with some semi-prooflike in the fields. Minimally abraded, there are two small pits left of star 8. Population: 3 in 62, none finer.

Choice AU 1850 Small Date Ten-Dollar

- 5896 **NGC 1850 Small Date AU 55.** Considerably scarcer than its Large Date counterpart, the Small Date of 1850 is very elusive in high grades and only a couple of marginal uncirculated pieces are known. This is a bright, semi-prooflike coin that has numerous small abrasions scattered across both sides. Reasonably well struck with some softness noted on the peripheral stars.

- 5897 **PCGS 1851-O AU 53.** A common date by No Motto standards with lower grade pieces plentiful, but AU and mint state coins being quite elusive. This is a moderately well struck coin that shows rich orange-gold color and a few small marks that are consistent with the grade.

Heritage Goes To The Buyers

Each and every Heritage Auction is held in conjunction with a major numismatic event, with hundreds of dealers and thousands of collectors in attendance. This insures your material will be viewed by a large number of interested buyers, and will bring top market prices.

At a Heritage sale, there's never a fear of the "right people" not being there. All the major dealers and interested collectors in the region attend the major shows and conventions, and that's exactly where Heritage goes to offer your coins.

Splendid Mint State 1852 Ten-Dollar

5898 NGC 1852 MS 61. Very scarce in all grades and rare in AU with only a handful of pieces known in mint condition. The rarity of this coin is actually quite surprising for a date with a mintage of more than a quarter million pieces. The centers are especially well struck with slight softness noted on the radials of the peripheral stars. Die striations show prominently in the fields and give the coin a bright, semi-prooflike glimmer. A few light abrasions are noted, the most obvious ones are a series of diagonal marks in the field above the eagle's head. A lovely mint state example of this scarce P-mint issue.

AU 1852-O Eagle A Mid-R.7 Coin in This Grade

5899 NGC 1852-O AU 53. An extremely rare coin in AU, and tied for third finest known with the Eliasberg piece. Aside from the extraordinary state of preservation, the coin is fairly typical for the issue. The stars around the obverse are flat and remnants of an original prooflike surface are seen in the fields. The single most identifying feature on this coin (for pedigree purposes) is an angling mark across the highpoint of the cheek of Liberty.

5900 NGC 1853/2 XF 45. A scarce overdated gold coin and rarely seen any finer than XF. This is a remarkably clean example whose only notable mark is an angling scrape in the upper reverse field. Well defined in the centers, the peripheral stars are ill-defined on the radials, as often seen.

5901 NGC 1854-O Large Date XF 40. A rare coin with this size date punch. As always, the central details are softly defined, but the surfaces are very clean for the grade and show good color with a thin outline of charcoal-gray surrounding the outer devices.

Finest Known 1854-O Eagle

5902 PCGS 1854-O Large Date MS 60. The rarer of the two varieties, the Large Date '54-O is a coin that is seldom seen above VF with XF specimens quite desirable. This is the finest specimen certified and the finest known. The surfaces are fully lustrous and the central striking details a bit softly defined. The coin has a lovely, muted orange-gold color. An angling mark is noted in the upper left obverse field and there is a squiggly die crack from the obverse rim at 3 o'clock that terminates at the bun in the back of the head. A rare and important opportunity for the specialist.

5903 NGC 1855 AU 58. A moderately scarce issue, this piece has bright surfaces and almost complete mint luster. Lightly marked with a grease stain (as struck) on the reverse through the first S in STATES.

Scarce 1855-O Ten-Dollar

- 5904 NGC 1855-O XF 45. A very scarce O-mint No Motto ten with a mintage of only 18,000 pieces. But the mintage does not begin to convey the true rarity of this issue. There are very few '55-O tens known in any grade, and accurately graded XF pieces (such as this one) are quite rare. Only one coin is believed to exist today in mint state. This example is reasonably well defined in the centers with some softness noted on the peripheral stars. Traces of a prooflike finish remain and both sides are covered with numerous small abrasions. Light reddish color accents the peripheries on both sides.

- 5905 NGC 1856 AU 58. A scarce P-mint No Motto ten that is usually only seen in VF and XF condition. AU pieces such as this one are quite scarce and this is undoubtedly one of the finest examples known, ranking in the lower range of the condition census. This is a bright coin with almost full mint luster remaining. Well defined in the centers, the radials on the stars are a bit soft, as often seen on this issue.

- 5906 NGC 1858-O AU 55. A common date No Motto ten that turned up in relatively plentiful numbers (15-30 pieces) in the Jackson, Tennessee hoard. This is a well struck piece that has bright yellow-gold color and numerous small abrasions peppered across both sides.

Lustrous XF 1859-O Eagle

- 5907 NGC 1859-O XF 45. The 1859-O is the rarest O-mint eagle and, in fact, is one of the rarest coins in the entire denomination from 1795 to 1933. Some of the radial details on the stars are evident, and elsewhere the coin is well defined. There is almost enough remaining mint luster for this piece to grade AU 50. The surfaces are lightly, but extensively, marked and there is an alloy spot on the obverse between the 5 of the date and the lower line of the bust. Very elusive and seldom seen any finer.

Sharply Struck, Semi-Prooflike 1860-O Eagle

- 5908 NGC 1860-O AU 55. A rare coin in any grade with most known specimens in the VF-XF range. Pieces above XF are very rare with this being one of the finest examples known, just missing the condition census. This is a sharply struck coin with bright, sparkling prooflike fields. There are numerous small abrasions scattered across both sides with a couple of alloy spots on the obverse.
-

Choice XF Example of the Extremely Rare 1863 Eagle

- 5909 NGC 1863 XF 45. An extremely rare No Motto eagle with a mintage of only 1,218 pieces. High grade business strikes are even rarer than the proofs of this date. This is an above average example that has the prooflike fields as always seen, yet does not have the heavily bagmarked surfaces usually encountered. Well struck with just a bit of friction on the highpoints and pleasing orange-gold color. There is a thin scratch down the cheek of Liberty, an alloy spot on the obverse rim at 2 o'clock, and another alloy spot over the D in UNITED on the reverse. A rare opportunity for the gold collector.
-

Possible Finest Known 1865-S Inverted Date

- 5910 NGC 1865-S 865 Over Inverted 186 AU 53. A very interesting "overdate" that has the first three digits of the date logotype punched in upside down in the exergual area. While not a unique occurrence, such upside down punches are rarely encountered. The inverted date is very scarce, but actually not as scarce as the normal date. Normally only seen in Fine or Very Fine condition, this piece is far above average and is, in fact, the finest example certified by either of the major services. The bright surfaces have taken on a rich reddish-orange color. The central striking details are softly defined on each side, and there are no abrasions that merit individual mention. Possibly the finest example known of this scarce variety.
-

- 5911 PCGS 1868-S AU 53. "Better than EF, it is unknown to the best of my knowledge." That was how Dave Akers described the 1868-S in his comprehensive survey of ten-dollar gold pieces. This is a solid AU coin and is certainly one of the finest pieces extant of this very rare issue. A mere 13,500 pieces were struck and only a couple of handfuls survive today in all grades. A bit softly struck in the centers, the surfaces are lightly abraded for the most part except for a prominent horizontal mark in the left reverse field. Good remaining mint luster, the coin has moderate yellow-gold color.
-

- 5912 NGC 1869 AU 58. An extremely rare date. With a mintage of only 1,830 pieces, the 1869 is one of the premier rarities in the With Motto series and indeed among all Coronet tens. In fact, its rarity is such that in the past 1869-S tens with a weak mintmark have been offered as the Philadelphia coin and proofs have been offered as the rarer business strikes. This is probably the finest example known of this rare issue. The striking details are sharply defined and the fields are deeply reflective. Just a few small abrasions are noted in the fields on each side, and none are of singular importance. An outstanding example of this rare ten-dollar date. (See Color Photo)
-

Exceptional 1869-S Eagle

5913 **PCGS 1869-S MS 60.** As with nearly all early With Motto ten-dollar Liberty issues, the '69-S, struck from a mintage of 6,430 coins, is very rare in all grades. This exceptional specimen exhibits distinctive golden-orange color and is particularly sharp in all areas save for the radials of the stars. There is a hint of scuffiness, but few appreciable surface marks. Its overall appearance for the assigned grade is excellent. This is currently the only example certified by either major grading service as uncirculated, although Akers reports the existence of three pieces, one being a gem. We can, unhesitantly, call this one of the finest known examples of this extremely elusive Coronet eagle.

- 5914 **PCGS 1870 AU 50.** An elusive P-mint ten, both in absolute terms as well as conditionally, this bright yellow-gold specimen, one of a mere 4,025 pieces struck, very nearly merits a condition census rating for this rare issue. No mint state pieces are currently reported by either PCGS or NGC. An important opportunity for the collector in the challenging ten-dollar Liberty series.

- 5915 **PCGS 1872-CC VF 30.** When one considers both condition as well as absolute rarity, the '72-CC eagle ranks high on both lists in the ten-dollar Liberty series. Just 5,500 pieces were struck and the few survivors are almost always heavily worn, to the point where AU and better pieces have never been reported. This piece shows even wear and a bright, moderately abraded appearance.

- 5916 **PCGS 1873-S XF 45.** A difficult S-mint eagle from a mintage of only 12,000 pieces, with high grade survivors being quite rare. Displaying some of the usual softness on the highpoints, this piece exhibits pleasing color and few appreciable marks.

- 5917 **NGC 1880-CC AU 58.** Boldly struck in yellow-gold, this lustrous example certainly ranks as one of the finest known '80-CC eagles. A few low-end AU pieces show up occasionally, but a coin approaching mint state is of the utmost importance and rarity for this very scarce issue, one of just 11,190 pieces originally struck.

- 5918 **NGC 1884-CC XF 45.** Slightly above the norm for this issue of just 9,925 pieces. Well struck and displaying considerable underlying luster.

- 5919 **PCGS 1884-CC AU 55.** Quite frosty and sharp, exhibiting only a touch of friction in the obverse field. A near-mint '84-CC ten is highly important for this issue of just 9,925 coins, with only a handful of uncirculated pieces known.

- 5920 **PCGS 1886 MS 62.** Rich rose-golden patina.

- 5921 **NGC 1891-CC MS 62.** A sparkling example just a few stray field marks from a choice or even higher rating. The centers are extremely well defined and display full mint frost.

- 5922 **NGC 1896-S AU 50.** A scarce late date S-mint ten that is difficult in AU and mint state. This is a bright coin with deep reddish-orange color and a few small to medium sized abrasions scattered about.

- 5923 **NGC 1901-O MS 62.** Satiny and bright, with razor sharp detail. This piece is definitely a step up from the usual heavily abraded piece, itself of moderate scarcity.

- 5924 **PCGS 1901-S MS 63.** A conservatively graded specimen exhibiting satiny luster and a full, sharp strike.

- 5925 **PCI 1906 MS 60.** A lower mintage date and difficult to locate in all mint state grades.

- 5926 **NGC 1907 MS 63.** The last year for the Liberty eagle series which had run for seventy years with basically, the same design. This specimen has a pleasing, rich golden color and is very well struck.

- 5927 **PCGS 1907-S MS 62.** Long an unsung rarity among later date Liberty eagles, the '07-S is now correctly recognized as an exceedingly difficult issue in mint state. This piece exhibits rich golden color, is struck with razor sharp detail, and only a few wispy obverse hairlines hold back the grade. Population: 9 in 62, 9 higher.

INDIAN EAGLES

Attractive 1907 Ten-Dollar Indian

- 5928 **ANACS 1907 No Motto MS 64.** A lovely example of this first year of issue for Saint-Gaudens' ten-dollar design. This piece has soft, frosted mint luster and shows a significant overlay of rich reddish patina around the peripheries on each side. Well struck for the issue, especially on the reverse.

- 5929 **ANACS 1908-S MS 60.** Well struck with attractive orange-gold color.

- 5930 **NGC 1910-D MS 62.** Satiny and free of appreciable marks.

LIBERTY DOUBLE EAGLES

5931 **PCGS 1910-D MS 65.** While one has the right to expect much from a gem coin, this one certainly exceeds expectations in all areas. The surfaces are amazingly free from abrasions, the mint luster is thick and frosted, and the coin is toned with a delicate interplay of rose and lilac patina. Fully struck as well. (See Color Photo)

5932 **PCI 1911 AU 58.** Matte-like surfaces with soft, frosted luster and only a hint of friction on the highpoints.

5933 **PCI 1911 MS 63.** Mildly granular yellow-gold surfaces. One of the more obtainable issues in the ten Indian series.

5934 **NGC 1913 MS 60.** Well struck with bright, golden luster. Numerous contact marks account for the grade.

5935 **PCGS 1926 MS 63.** Lustrous with rich, golden colorations.

5936 **NGC 1850 MS 61.** With the exception of the unique 1849 double eagle, this date represents the first collectible twenty-dollar gold piece. This example is very sharply struck and shows numerous scattered obverse abrasions. Fairly common in circulated grades, the 1850 twenty is quite scarce in mint state and invariably only of average quality.

5937 **PCGS 1851 AU 53.** Razor sharp and probably as appealing as the few well abraded mint state pieces, displaying rich golden color over both sides.

5938 **PCGS 1853 AU 53.** Breen-7160. The 3 in the date has obviously been repunched, but this should not be confused with the very rare overdate. Well struck with much luster remaining and showing only the numerous, small marks one would expect from a circulated gold coin.

5939 **PCI 1854-S MS 64 Repaired Rim.** Superb luster, this is a fully struck coin that shows only slight abrasions and a few luster grazes. The only serious flaw on the coin is that the edge has been filed on each side. This was a 19th century practice, whereby the ungodly would take a file and rasp the rims on each side just a bit, giving the coin a beveled look, and capturing a small amount of gold from each coin so filed. The visual effect on the coin is minimal, especially in the holder, but anyone concerned with originality of surfaces would naturally have a certain wariness about such a piece. Still, an attractive coin and an especially difficult gold type to locate in the better grades of mint state.

5940 **NGC 1861-O VF 30.** A scarce and very popular New Orleans twenty being struck under both Federal and Confederate control at the outbreak of the Civil War. Only 17,741 pieces were minted and this example, showing traces of luster on the reverse, is fairly typical, condition-wise, of the modest number of surviving examples.

5941 PCGS 1866 MS 60. First year of the Type Two design and a true rarity in mint state. The surfaces here are nicely frosted and original, being moderately abraded on the obverse. Population: 5 in 60, 1 higher.

5942 PCGS 1867 AU 58. An attractive near-mint example of this popular Type One issue. Bright yellow-gold color is noted on both sides and the striking details are well brought up. The only large abrasion is located in the glory of rays at the top of the reverse.

5943 PCGS 1867 MS 60. Full, bright mint luster dominates the surfaces of this piece. There are a few larger surface marks that one would expect from a coin of this grade. Well struck.

5944 PCGS 1868-S XF 45.

5945 PCGS 1874-CC MS 61. One of the higher mintage CCs of this denomination, but virtually all pieces extant are circulated to some degree. This piece is a bit scuffy on Liberty's cheek, but shows full original color and luster. Very scarce as such. Population: 2 in 61, none higher.

5946 NGC 1875-CC AU 58. Struck in pale, yellow-gold alloy, a lustrous double eagle representing the ever popular Carson City mint. Only 111,000 pieces were coined.

5947 PCGS 1875-CC MS 60. The mintage is a bit lower for this date, and the scarcity is greater than several of the other issues. Also, being in a very high grade puts this coin in a different perspective. Bright, satiny surfaces show up under myriad small contact marks that are consistent for the MS 60 grade.

5948 NGC 1879-S MS 60. Bright, lustrous surfaces and well struck. An attractive example of this issue that is scarce in strict mint condition.

5949 PCGS 1881-S MS 60. Well struck, one particularly large contact mark shows on the reverse.

5950 NGC 1890-CC MS 61. Fully lustrous with pleasing color and well scattered field marks. Found without too much difficulty in AU condition, but strict mint state pieces, particularly nicer ones, are scarce.

5951 NGC 1891-CC AU 58. With a mintage of just 5,000 coins, the 1891-CC twenty is immediately recognized as a scarcity both in circulated and mint state grades. Finer than the typical surviving example, this lustrous piece displays minimal surface marks and a pleasing frosty portrait. Only a whisper of rub precludes an uncirculated rating.

5952 PCGS 1894 MS 63. Some rose colored patina is seen on each side.

5953 PCGS 1895 AU 55. Conservatively graded with pleasing original luster and color.

5954 PCGS 1895 MS 63. Richly colored with deep, satiny brilliance and frosty devices.

5955 NGC 1900 MS 64. A popular, turn of the century year, this specimen is abundantly toned with rich-golden peripheral color fading to brilliant in the centers, just as if it had been in a paper roll for the last 95 years. Very attractive.

5956 PCGS 1904 MS 61. Rich, orange-golden patina covers both sides.

5957 PCGS 1904 MS 63. An excellent type coin with lustrous, satiny surfaces.

5958 PCGS 1904 MS 64. A very choice specimen with original patina.

5959 PCGS 1904 MS 64. Satiny on both sides, there is a noticeable grease spot (as struck), on the reverse.

5960 PCGS 1904 MS 64. A premium quality example of this common date, with intense yellow-gold colorations and excellent eye appeal.

5961 NGC 1904-S MS 63. Original and quite clean for the issue, with shimmering brilliance in the fields.

Conditionally Rare 1906

5962 PCGS 1906 MS 65. A superb example of this scarce date Liberty type double eagle. Being large, heavy, and very soft, many of these coins became abraded as soon as they were ejected from the coining dies into the collecting hopper. If not then, the troublesome abrasions would multiply as the coins were bagged, transported, stored, and ultimately distributed into the banking system. One might consider the scenario that this pristine coin was, somehow, rescued at the mint level and carefully saved for the past 90 years. The luster is full, bright, and satiny, and there are virtually no contact marks anywhere. Population: 1 in 65, 1 finer. (See Color Photo)

SAINT-GAUDENS DOUBLE EAGLES

Lustrous High Relief

- 5963 **PCGS 1907 High Relief MS 62.** Wire Rim. This coin has a surprising amount of mint luster and overall attractiveness considering the grade, which seems to us to be unduly harsh. True, there are a few small contact marks scattered about, but none that could be considered large or truly objectionable. A nice collector coin with good eye appeal and available for several thousand dollars less than a gem.

- 5964 **NGC 1908-D Motto MS 62.** Very bright mint luster and a minimum of troublesome contact marks make this an above average example of this double eagle.

- 5965 **NGC 1909/8 AU 50.** Clear overdate details show on the obverse, a popular issue.

- 5966 **NGC 1910 MS 64.** In average uncirculated grades, the 1910-P Saint-Gaudens is relatively common. That situation changes rapidly when looking for a choice example because average is almost always the way they come. MS 64 pieces are relatively scarce and elusive. Both sides of this outstanding '10-P exhibit a fresh, satiny appearance and few appreciable blemishes.

- 5967 **NGC 1910-D MS 63.** A well detailed specimen.

Vibrant 1910-S

- 5968 **NGC 1910-S MS 65.** Incredibly vibrant for this condition rarity, only a few pinpoint marks in the fields and at the base of the reverse on the sun keep this remarkable '10-S Saint from an even higher rating. One of the finest we've seen of the date and a candidate for the finest set. Population: 9 in 65, none higher. (See Color Photo)

- 5969 **Hallmark 1911-D MS 65.** A satiny gem, obviously original and without most of the commonly seen surface marks. Mint state examples of the date are often nice, but seldom of gem quality.

- 5970 **NGC 1911-S AU 55.** A satiny example with just the slightest rubbing.

5971 **PCGS 1914 MS 64.** A very elusive issue in MS 64 and better condition. This piece is well struck with soft, frosted mint luster. Just a few too many abrasions to grade higher.

5972 **PCGS 1914-D MS 62.** Sharp and lustrous.

5973 **PCGS 1914-D MS 65.** A scarcer date in gem condition, this piece has sparkling mint luster over matte-like surfaces.

5974 **PCGS 1915 MS 62.** Bright golden patina.

5975 **NGC 1915-S MS 65.** An exceptionally clean, satiny lustrous example. There is one small abrasion on Liberty's leg, and one on the eagle on the reverse.

Stunning 1915-S

5976 **NGC 1915-S MS 66.** Stunning quality for this issue, the refreshing lack of abrasions and orange-gold originality result in matchless eye appeal. While fairly common in grades up to and including MS 64, the '15-S double eagle is relatively scarce at the 65 level. Pieces grading above MS 65 must be considered quite rare and can currently be counted on one hand, with this lone NGC specimen and three from PCGS. Undoubtedly one of the finest examples of this date and mintmark. (See Color Photo)

5977 **NGC 1922 MS 64.** Pale, rose-gold colorations. Nice and satiny, with loads of cartwheel luster on both sides. This is an important coin due to the rarity of gem examples of the date.

5978 **PCGS 1923-D MS 64.** A select example of this popular mintmarked issue that displays remarkable mint luster and bright-rose color.

5979 **NGC 1924 MS 63.** A good type coin.

5980 **NGC 1924 MS 63.**

- 5981 PCGS 1924 MS 65. Shimmering luster and rich-golden colorations.
- 5982 NGC 1924 MS 65. A shimmering, yellow-gold specimen, identifiable by a small toning spot within the sun's rays.
- 5983 PCGS 1924-D AU 50. A much scarcer date in the series, this represents a rare opportunity to actually purchase an affordable example. Many of the original mintage of over 3 million coins was melted after the gold recall leaving few for modern day collectors.
- 5984 PCGS 1925 MS 62. Some light abrasions show on the obverse.
- 5985 NGC 1925 MS 63. Green-gold appearance.
- 5986 PCGS 1925 MS 65. Well struck and lustrous, there are several dark alloy spots on the obverse.
- 5987 PCGS 1925 MS 65. The lustrous surfaces show an accent of reddish color on both sides.
- 5988 PCGS 1925 MS 65. A great looking Saint with rich-golden color, a bold strike, and exceptionally clean surfaces.
- 5989 PCGS 1926 MS 63. Bright satiny luster.
- 5990 PCGS 1927 MS 62. Some golden patina shows on each side. Good eye appeal for the grade.
- 5991 PCGS 1927 MS 62. A conservatively graded example that is very bright and nicely toned.
- 5992 PCGS 1927 MS 64. Highly lustrous with a single coppery alloy spot in the rays to the right of Ms. Liberty.
- 5993 PCGS 1928 MS 62. Bright, coruscant luster.
- 5994 PCGS 1928 MS 64. Satiny with rich golden color.

COMMEMORATIVE SILVER

Gem Lafayette

- 5995 NGC 1900 Lafayette Dollar MS 65. A one-in-a-thousand Lafayette dollar. The surfaces of this piece are smooth and virtually unblemished. Soft, frosted luster is noted beneath the pale overlay of golden patina on each side that deepens gradually toward the rims. A rare find in such lofty condition.
- 5996 PCGS 1936 Albany MS 64, sparkling, untuned, and very bright; 1937 Boone MS 64, a clean well struck example; 1936 Bridgeport MS 64, beautiful, bright lustrous appearance; and a 1934 Texas MS 64, a popular first year issue. (Total: 4 coins)
- 5997 PCGS 1936 Albany MS 65. Shimmering, lustrous surfaces, this is a lovely coin that is mostly brilliant with just a hint of pale-violet color.
- 5998 PCGS 1937 Antietam MS 64. Thoroughly brilliant with bright mint frost, a very choice example of this popular Civil War commemorative that shows exceptionally clean surfaces.
- 5999 PCGS 1937 Antietam MS 65. Thoroughly brilliant with bright mint frost, just an exceptional example of this popular Civil War commemorative that shows virtually perfect surfaces.
- 6000 PCGS 1935 Arkansas MS 64. A bright and untuned specimen.
- 6001 PCGS 1936-S Boone MS 64. An untuned, sharp specimen.
- 6002 PCGS 1938 Boone PDS Set. The Philadelphia is MS 65, the Denver and San Francisco are MS 64. All three coins are mostly brilliant and very sharply struck. (Total: 3 coins)
- 6003 PCGS 1936 Bridgeport MS 63. Bright, untuned.
- 6004 PCGS 1936 Bridgeport MS 64. The obverse displays some pretty, rose-golden coloration.

- 6005 PCGS 1925-S California MS 63, mostly brilliant with a bit of purple patina; 1936 Cleveland MS 63, clean, satiny surfaces; 1935 Connecticut MS 62, bright and untoned; 1936 Gettysburg MS 63, a well struck, satiny example; 1925 Lexington MS 63, lustrous and brilliant; and a 1936 Lynchburg MS 63, a few chatter marks on the reverse. (Total: 6 coins)
- 6006 NGC 1936 Columbia MS 64. Pale peripheral color.
- 6007 PCGS 1936-S Columbia MS 65. Untoned and virtually free of surface imperfections.
- 6008 PCGS 1893 Columbian MS 63. A bold strike with bright, cartwheel luster abounding on both sides. A very choice specimen.
- 6009 PCGS 1936 Delaware MS 64, semi-reflective and completely untoned; 1936-S Cincinnati MS 64, near mark-free surfaces and virtually untoned; and a 1936 Norfolk MS 64, boldly struck. (Total: 3 coins)
- 6010 PCGS 1936 Delaware MS 64. Some mottled golden patina is present, mostly on the obverse.
- 6011 PCGS 1936 Delaware MS 65. Bright and lustrous, virtually no toning shows on this well struck example.
- 6012 NGC 1936 Delaware MS 66. Untoned with a noticeable prooflike-ness to the fields. A very well preserved early striking of this ter-centenary issue.
- 6013 PCGS 1936 Delaware MS 66. The peripheral areas are toned in patterns of deep-gold, crimson, and a bit of sea-green.
- 6014 PCGS 1936 Elgin MS 65. Deeply frosted surfaces resemble an icy glass brought from a freezer into a humid room. Just a hint of ochre color is seen on exceptionally clean surfaces.
- 6015 PCGS 1922 Grant MS 63. Very lustrous and completely untoned.
- 6016 PCGS 1935 Hudson MS 63. Untoned with slightly subdued luster.
- 6017 NGC 1924 Huguenot MS 64. An arc of peripheral color is seen on the obverse.
- 6018 PCGS 1936 Long Island MS 64. Bright, fully lustrous, and exceptionally clear of abrasions.
- 6019 PCGS 1934 Maryland MS 63. An untoned coin.

- 6020 PCGS 1921 Missouri 2x4 MS 64. A well struck example with a partial wire edge. Natural toning has formed that displays peripheral shades of rich-gold and crimson, fading to dove-gray in the centers. An unusually choice example of this popular variety.
- 6021 PCGS 1923-S Monroe MS 63. Satiny luster prevails on both sides of this mostly untoned specimen.

Superb Monroe

- 6022 PCGS 1923-S Monroe MS 66. Monroe halves are one of the great condition rarities in the commemorative series. They are a common enough coin in lower grades and can occasionally be found in circulated condition (John Ford remembers spending them as a child from a roll his father had). Approaching gem condition, however, the situation changes dramatically and the number of pieces in MS 64 and better drops off quickly. In MS 66, the Monroe is exceptionally difficult to locate, and in fact, according to the December *Population Report* only 27 other pieces have been so graded with 3 finer. The luster on this piece is simply outstanding, being thick and frosted. Both sides show a mottled sea-green, crimson, and golden-brown toning with much underlying brilliance still in evidence. There are a few minor marks and luster grazes but these have little or no effect on the overall attractiveness of the coin. (See Color Photo)
- 6023 PCGS 1938 New Rochelle MS 65. Just a faint hint of golden color on each side of this lustrous specimen.
- 6024 PCGS 1938 New Rochelle MS 65. A light, opaque haze is present over nearly mark-free fields.
- 6025 PCGS 1926-S Oregon MS 64. Well struck and mostly untoned.
- 6026 PCGS 1926-S Oregon MS 65. Beautiful peripheral iridescent patina.

6027 PCGS 1921 Pilgrim MS 66. A pristine silvery-gray example with rose-golden accents over much of the coin. Even scarcer in superb condition than its higher mintage counterpart.

6028 PCGS 1936 Rhode Island MS 64. Completely untoned, the surfaces are semi-reflective in appearance.

6029 PCGS 1937 Roanoke MS 65. Lustrous and boldly struck.

6030 PCGS 1937 Roanoke MS 67. A truly superlative specimen that is well struck and virtually free of nagging abrasions. Superb, rainbow colorations adorn each side and gradually fade to mostly brilliant centers. A remarkable Roanoke.

6031 PCGS 1935 Spanish Trail MS 64. Exceptionally clean fields on a coin that was very vulnerable to visual marks and impairments. A bit of light, hazy patina is seen on each side.

6032 PCGS 1935 Spanish Trail MS 64. Just a hint of hazy, opaque toning is present over lustrous fields, accompanied by the normal, strong striking characteristics of this issue.

6033 PCGS 1925 Stone Mountain MS 64. Bright, frosty luster.

6034 PCGS 1934 Texas MS 64. Well struck and satiny in appearance.

6035 PCGS 1934 Texas MS 65; 1936 Texas MS 65; and a 1937-S Texas MS 65. All three are fully brilliant with sparkling luster and all are virtually blemish-free. (Total: 3 coins)

6036 NGC 1927 Vermont MS 64. Shimmering mint luster and almost completely brilliant with just a smidgen of color on each side.

6037 PCGS 1946-D Booker T. Washington MS 64. Subdued luster is covered with some mottled gray patina.

6038 NGC 1946-S Booker T. Washington MS 64. Exceptionally bright and lustrous, there is a peripheral ring of gold and sea-green color on the obverse, the reverse is beautifully toned in varying colorations of the rainbow. Only a couple of minor obverse abrasions restrict this coin from a higher grade.

6039 PCGS 1936 Wisconsin MS 65. Brilliant with full, frosty luster. The fields are impeccably clean and free of defects. A gem quality specimen.

6040 PCGS 1936 York MS 64. A very sharp specimen with a bit of hazy, opaque toning.

CALIFORNIA FRACTIONAL GOLD

6041 PCGS 1875 Indian Round 25 Cents, BG-878, R.4, MS 66. Prooflike fields with impeccably preserved surfaces.

COINS OF HAWAII

6042 PCGS 1883 Hawaii half dollar MS 62. Semi-prooflike on the obverse, completely untuned and very bright. An interesting coinage from the island of Hawaii, issued only in this year by King Kalakaua I. Struck by the United States mint at San Francisco. Originally, 700,000 half dollars were struck, but 612,245 were recalled and melted, thus making this a scarce issue.

6043 PCGS 1883 Hawaii Dollar MS 60. Untoned and lustrous, the fields exhibit a bit of reflectivity. A pleasant example of the scarcest of the 1883 Hawaiian issues. According to Breen, the net mintage for this issue is only 46,348 pieces. This is due to the recall of 453,622 pieces years after the original 500,000 were issued into circulation. Boldly struck and extremely well defined.

PATTERNS

Gem Proof Judd-161, Original Striking

6044 PCGS 1854 Large Cent, Judd-161 Original, Pollock-187, R.4, PR 65 Brown. Similar to the adopted design for the Large cent, but smaller and without stars. Struck in bronze with a plain edge. While designated as a brown coin, there is much underlying red, blue, and violet color beneath the brown.

6045 PCGS 1859 Indian Cent, Judd-228, Pollock-272, R.1, MS 65. A transitional pattern with the obverse of 1859 paired with the reverse of 1860. Struck in copper-nickel with a plain edge. Lustrous honey-tan surfaces with light rose undertones, light flyspecking is noted on each side.

- 6046 NGC 1859 Indian Cent, Judd-228, Pollock-272, R.1, MS 65. Adopted design of 1859 paired with the reverse of 1860. Struck in copper-nickel with a plain edge. Pleasing red color with slight touches of brown scattered about and only the slightest flecks of carbon evident.

- 6047 PCGS 1859 Half Dollar, Judd-242, Pollock-298, R.5, PR 65 Brown. Paquet's design for the obverse resembles the Greek god Dionysus with a ribbon inscribed LIBERTY set at odd angles at the base of the neck. The reverse has 50 CENTS in the center and is surrounded by a large wreath. Struck in copper with a reeded edge. For a brown coin this piece is quite colorful with lime-green and rose as secondary, underlying colors.

- 6048 PCGS 1869 Dime, Judd-702, Pollock-781, R.6, PR 65. Standard Silver dime pattern with Liberty facing right, diadem on her head, and scroll below. The reverse is simply laid out with 10 CENTS in the center, surrounded by a thick wreath, and STANDARD SILVER 1869 around the perimeter. Struck in silver with a reeded edge. Deep, mottled iridescent toning. An original piece.

- 6049 PCGS 1871 Five-Cents, Judd-1051, Pollock-1185, R.5, PR 65 Brown. An interesting pattern that uses the three-cent nickel obverse design in a larger format. The reverse has V CENTS in the center with the V reversed, surrounded by a wreath. Struck in copper with a plain edge. Spectacular violet, blue, and maroon toning covers both sides of this impressive piece.

- 6050 PCGS 1873 Trade Dollar, Judd-1310, Pollock-1453, R.4, PR 64. A Trade dollar design that shows Liberty seated on the obverse with an Indian headdress on top of her head, Liberty pole and cap in her right hand, left hand resting on a globe, and conjoined flags behind. The reverse has a small eagle in the upper half with most of the statutory legends above and below, two of which are on scrolls. Struck in silver with a reeded edge. The surfaces are deeply toned a gray and blue patina with occasional flashes of rose undertones.

Lovely, Near-Gem Trade Dollar Pattern, Judd-1322

- 6051 NGC 1873 Trade Dollar, Judd-1322, P-1465, R.4, PR 64. Virtually identical to the adopted design on the obverse, the reverse shows a small eagle with spread wings and billowing scroll in its beak. Struck in silver with a reeded edge. A charming Trade dollar pattern that is mostly brilliant with just a touch of peripheral golden color. Lightly hairlined in the fields, thus limiting the grade. The devices are frosted and give a moderate cameo contrast against the mirrored fields.

Est. 100-125
- 6244 Lot of over 200 world minor coins mostly dated 1800-1925 from Canada, Germany, Switzerland, China, Mexico and other European countries. All are loose in a box with some interesting coins including: Norway 1876 2 ore VF, 50 ore 1899 VF; Switz. 1/2 fr. 1913 XF, 1/2 fr. 1875 VG/F, 10 rappen 1873 F/VF, 20 rappen 1859 F/VF; Baden 1906 2 mk. AU/UNC; Neth. 1915 gulden VF and Fr. Guiana 1846 10 cent VF. A must see lot.
Est. 125-225
- 6245 **World Minors and Paper Money** lot of over 125 items mostly miscellaneous Canada and WWII era European coins. Also are a few military payment notes and a few other European banknotes. All are contained in neatly typed brown envelopes with no real rarities.
Est. 50-75

CURRENCY

- 6246 1922 \$10 Gold Certificate, Fr-1173, Ch CU.
- 6247 Colonial Currency. Connecticut Five Shillings authorized June 19, 1776 AG, signers illegible; Massachusetts Eight Dollars authorized May 5, 1780 Fine-VF Cut Cancelled, signers Richard Cranch and Thomas Dawes (said to have ridden with Paul Reverse); New Jersey One Shilling authorized June 22, 1756 XF, signers John Smyth, Hugh Hartshorn, and Joseph Smith; North Carolina Three Pounds authorized April 4, 1748 Fair, only signer Edward Moseley is completely legible. (Total: 4 notes)
- 6248 1862 \$1 Legal Tender, Fr-16, VF, well centered and free from noticeable defects; and an 1862 \$2 Legal Tender, Fr-41, VG, a couple of trivial tears are seen on the the border, otherwise choice for the grade. (Total: 2 notes)
- 6249 1862 \$1 Legal Tender, Fr-16, CU. Decent centering and vibrant colors. Quality that could easily be sold as choice.
- 6250 1875 \$1 Legal Tender, Fr-20, AU; 1880 \$1 Legal Tender, Fr-30, CU; 1880 \$1 Legal Tender, Fr-34, XF-AU; and a 1917 \$1 Legal Tender, Fr-39, AU. (Total: 4 notes)
- 6251 (3) 1878 \$1 Legal Tender, Fr-27, all VF-XF, one with several pinholes in the area of Washington's portrait. (Total: 3 notes)
- 6252 1880 \$1 Legal Tender, Fr-28, three notes, all XF-AU, each displays rich color and broad borders. (Total: 3 notes)
- 6253 1917 \$1 Legal Tender, Fr-36, XF; 1917 \$1 Legal Tender, Fr-36, AU; 1917 \$1 legal Tender, Fr-37, Choice CU; and a 1917 \$1 Legal Tender, Fr-39, Choice CU. (Total: 4 notes)
- 6254 1917 \$1 Legal Tender Note, Fr-36, Choice CU; 1923 \$1 Legal Tender Note, Fr-40, CU; and a 1917 \$2 Legal Tender Note, Fr-59, CU. (Total: 3 notes)
- 6255 (3) 1917 \$1 Legal Tender Notes, Fr-37, from a cut sheet of four, all Choice CU. (Total: 3 notes)
- 6256 1917 \$1 Legal Tender Note, Fr-39, VF Advertising Stickers on Either Side; (4) 1923 \$1 Silver Certificates, Fr-237, XF-CU; (2) 1923 \$1 Silver Certificates, Fr-238, XF-CU; and an 1898 \$1 Dominion of Canada Note, Charlton-13, VG. (Total: 8 notes)
- 6257 1917 \$1 Legal Tender Note, Fr-39, XF; 1907 \$5 Legal Tender Note, Fr-91, CU; 1899 \$2 Silver Certificate, Fr-250, VF; and an 1899 \$5 Silver Certificate, Fr-281, VG Scattered Light Punctures. (Total: 4 notes)
- 6258 An album of Large Size United States notes that includes: 1917 \$1 Legal Tender Note, Fr-39, XF; 1917 \$2 Legal Tender Note, Fr-58, AG; 1917 \$2 Legal Tender Note , Fr-60, VG; 1901 \$10 Legal Tender Note, Fr-114, AG Frayed and Torn Margins; 1899 \$1 Silver Certificate, Fr-228, VF; 1899 \$1 Silver Certificate, Fr-235, VG; 1899 \$1 Silver Certificate, Fr-236, VF; 1923 \$1 Silver Certificate, Fr-237, AU; 1899 \$2 Silver Certificate, Fr-249, VG; 1899 \$2 Silver Certificate, Fr-258, VG; 1918 \$1 Federal Reserve Bank Note, Fr-729, AU; 1918 \$1 Federal Reserve Bank Note, Fr-739, VF; 1918 \$5 Federal Reserve Bank Note, Fr-804, VG; 1914 \$5 Federal Reserve Note, Fr-846, CU; and a 1914 \$20 Federal Reserve Note, Fr-995, VF. (Total: 15 notes)
- 6259 (4) 1917 \$1 Legal Tender Notes, Fr-39, from a cut sheet of four, all CU to Choice CU. (Total: 4 notes)

- 6260 (5) 1923 \$1 Legal Tender, Fr-40, including three AUs, a CU, and a Choice CU. (Total: 5 notes)
- 6261 1923 \$1 Legal Tender Note, Fr-40, Choice CU; and an 1891 \$1 Treasury Note, Fr-352, AU Choice, very well centered and only a faint center fold from CU. (Total: 2 notes)
- 6262 1923 \$1 Legal Tender, Fr-40, Gem CU. Bright and crisp.
- 6263 1862 \$2 Legal Tender Note, Fr-41, Good with Stains; 1899 \$1 Silver Certificate, Fr-229, Good, "One Dollar" written twice on either side; (2) 1923 \$1 Silver Certificates, Fr-237, Good; 1923 \$1 Silver Certificate, Fr-238, VG, star note; 1899 \$5 Silver Certificate, Fr-278, AG Ragged Edges; 1914 \$5 Federal Reserve Note, Fr-859, VG Torn; and a 1914 \$10 Federal Reserve Note, Fr-906, VG. (Total: 8 notes)
- 6264 1862 \$2 Legal Tender, Fr-41, VF. A pleasing mid-grade example with bright green and red color.
- 6265 1875 \$2 Legal Tender, Fr-47, XF. Clean, well centered, and lightly pressed to appear finer.
- 6266 1878 \$2 Legal Tender, Fr-48, CU. Not quite as richly colored as the preceding, but creaseless and similarly centered.
- 6267 1878 \$2 Legal Tender, Fr-48, Choice CU. Tiny crease in the upper right margin.
- 6268 1917 \$2 Legal Tender, Fr-60, four notes, AU to Choice CU. Terrific dealer or trading stock of this popular, large size \$2. (Total: 4 notes)
- 6269 1917 \$2 Legal Tender, Fr-60, Choice CU; and an 1880 \$5 Legal Tender, Fr-79, Choice CU, just a hint of soiling in the upper right corner, otherwise a gem. (Total: 2 notes)

- 6270 1862 \$5 Legal Tender, Fr-61a, CU. Tightly trimmed as nearly always, with full crispness, and bright coloration.
- 6271 1862 \$5 Legal Tender Note, Fr-62, CU Tiny Corner Tip Fold Upper Left. Bright, fresh, and otherwise choice. This and the following lot were part of Lot 496 from Superior's Orlando Sale in August, 1992.
- 6272 1862 \$5 Legal Tender Note, Fr-62, CU Tight Left Margin. A crisp greenback from a cut sheet of four in the previously mentioned sale.
- 6273 1862 \$5 Legal Tender, Fr-63, CU. Uncommonly broad margins. A choice note downgraded by slight yellowing at the borders.
- 6274 1869 \$5 Legal Tender, Fr-64, Choice AU. The first of four high grade examples of this colorful early "woodchopper."
- 6275 1869 \$5 Legal Tender, Fr-64, AU. Crisp and quite choice save for a tiny repaired corner tear.
- 6276 1869 \$5 Legal Tender, Fr-64, Choice AU. Bright green and red colorations. Tiny corner fold at upper left.
- 6277 1869 \$5 Legal Tender, Fr-64, Choice AU. Well centered with broad margins all around.
- 6278 1862 \$10 Legal Tender, Fr-93, Fine. A tightly trimmed First Obligation note, slightly yellowed from age and displaying a few pinholes and paper breaks to the left.

- 6279 1863 \$10 Legal Tender, Fr-95a, VF. Second Obligation reverse, two serial numbers. Close trim at top and to the right, but evenly worn and without defects.

- 6280 1869 \$10 Legal Tender, Fr-96, Ch CU. An attractive rainbow colored note, one in the famous "Jackass" series (Fr-96 through 113), so called because the eagle looks like the head of a jackass when turned upside down. There is a small green ink smudge on the upper left of the back, and the bottom margin of that side is a bit tight.

- 6281 1901 \$10 Legal Tender Note, Fr-122, VF-XF. A clean mid-grade example of the popular Bison issue, giving the immediate appearance of a strong XF or even AU note. There are a couple of pinholes in Lewis' portrait.

- 6282 1863 \$20 Legal Tender, Fr-126, CU. Second Obligation reverse, two serial numbers. A scarce high denomination note displaying fairly even centering and bright green and red colors.

- 6283 1880 \$20 Legal Tender, Fr-141, VF Pressed. A trifle faded, but still a pleasing mid-grade example.

- 6284 1886 \$1 Silver Certificate, Fr-215, Cut Sheet of Four, CU to Choice CU. Small Red, Plain Seal. All four notes are nearly perfectly centered, but a couple exhibit slight rounding at the corners. These high grade, popular Martha Washington silver certificates would make an excellent display. (Total: 4 notes)

- 6285 1886 \$1 Silver Certificate, Fr-217, XF. Large Red Seal. A pleasing, defect-free note depicting our first first lady.

- 6286 1896 \$1 Silver Certificate, Fr-224, Good, a tear down the center has been repaired on the back; 1923 \$1 Silver Certificate, Fr-237, Very Fine with slight soiling. (Total: 2 notes)

- 6287 1896 \$1 Silver Certificate, Fr-224, Fine; and an 1896 \$2 Silver Certificate, Fr-247, Fine. A pair of affordable Educationals. (Total: 2 notes)

- 6288 1896 \$1 Silver Certificate, Fr-225, Very Good.

- 6289 1896 \$1 Silver Certificate, Fr-225, Choice XF. Broad bordered and showing only faint creases vertically. Many collectors feel that engraving on large size notes reached its zenith on these popular "Educational Series" issues.

- 6290 1896 \$1 Silver Certificate, Fr-225, Gem CU. A wonderfully preserved example of this lowest denomination Educational note. This piece appears as fresh and vibrant as it was nearly a century ago.

- 6291 1896 \$1 Silver Certificate, Fr-225, Gem CU. A well centered and problem-free Educational Note.

- 6292 (7) 1899 \$1 Silver Certificates of various signature combinations, all Good-VF; 1923 \$1 Silver Certificate, Fr-237, XF; 1918 \$1 Federal Reserve Bank Note, Fr-722, Good; and (4) 1976 \$2 Federal Reserve Notes XF-CU. (Total: 13 notes)

- 6293 1899 \$1 Silver Certificate, Fr-230, CU; 1899 \$1 Silver Certificate, Fr-236, Choice CU; and an 1899 \$2 Silver Certificate, Fr-256, CU. (Total: 3 notes)

- 6294 (3) 1899 \$1 Silver Certificates, Fr-230, from a cut sheet of four, all Choice CU. (Total: 3 notes)

- 6295 1899 \$1 Silver Certificates, Fr-233, Gem CU. A cut sheet of four "Spread Eagle" notes, consecutively numbered. All crisp notes with original paper wave. (Total: 4 notes)

- 6296 (2) 1923 \$1 Silver Certificates, Fr-237, VF-XF; and (2) 1923 \$1 Silver Certificates, Fr-238, CU, consecutive serial numbers. (Total: 4 notes)

- 6297 1886 \$2 Silver Certificate, Fr-242, Choice AU. Large Red Seal. Basically crisp with bright ink colors. The ornate reverse on this early deuce is indeed a masterwork of engraving.

- 6298 1886 \$2 Silver Certificate, Fr-244, AU. Large Brown Seal. Quite crisp for the grade with broad lower border. The obverse features Union Army officer General Winfield Scott Hancock.

- 6299 1891 \$2 Silver Certificate, Fr-245, Good-VG, worn but unfrayed at the borders with scattered staining; 1890 \$1 Treasury Note, Fr-349, VG, Small Red Seal, closely trimmed; and an 1891 \$1 Treasury Note, Fr-351, Fine. (Total: 3 notes)

- 6300 1896 \$2 Silver Certificate, Fr-247, VF. Perfectly centered and, because of an expert ironing, quality that is often sold as XF. One of our most beautiful type notes.

- 6301 1896 \$2 Silver Certificate, Fr-247, Choice CU. A nice match to the \$1 Educational offered above, this high grade \$2 exhibits broad margins and rich color.
- 6302 1896 \$2 Silver Certificate, Fr-248, Choice CU. A bright, fresh appearing note. Just a bit off center on the back, approximately 40-60, with the top margin a bit tighter than the bottom.
- 6303 1899 \$2 Silver Certificate, Fr-251, AU, pinhole below Washington's portrait; 1899 \$2 Silver Certificate, Fr-253, XF; and an 1899 \$2 Silver Certificate, Fr-257, XF. (Total: 3 notes)
- 6304 1899 \$2 Silver Certificate, Fr-253, Choice AU; and an 1899 \$2 Silver Certificate, Fr-255, CU. Both are well centered examples of this popular denomination and series. (Total: 2 notes)
- 6305 1891 \$5 Silver Certificate, Fr-267, Choice VF. An essentially XF example of this handsome note, clean and defect-free with only vertical creases limiting the grade.
- 6306 1896 \$5 Silver Certificate, Fr-268, Choice CU. The always impressive and stunningly beautiful \$5 Educational design, this note is perfectly centered and would be difficult to improve upon.
- 6307 1896 \$5 Silver Certificate, Fr-268, Gem CU. A spectacular example of this rare and popular high denomination note from the Educational series.

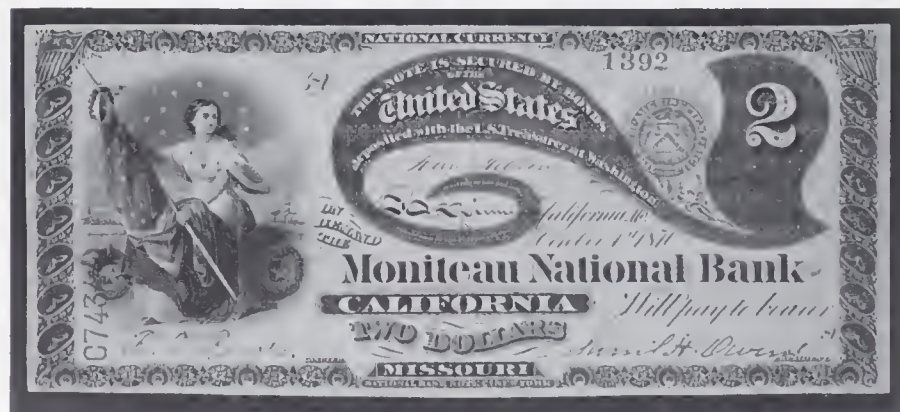

- 6308 1899 \$5 Silver Certificate, Fr-275, Choice AU. A quick glance at the exceptional color displayed by this beautiful and popular note would lead one to call it uncirculated, but faint vertical creases are noticed upon closer inspection.
- 6309 1899 \$5 Silver Certificate, Fr-275, Choice CU. Well centered with decent coloring and just a hint of yellowing here and there. One of our country's better known and most popular notes, this is the finest of several problem-free examples offered for sale.
- 6310 1899 \$5 Silver Certificate, Fr-278, AU Lower Left Corner Repaired, thus affordable quality for the famous "Chief" note; 1923 \$5 Silver Certificate, Fr-282, Fine, a moderately worn "porthole;" and a 1914 \$20 Federal Reserve Note, Fr-1006, Choice CU. (Total: 3 notes)
- 6311 1899 \$5 Silver Certificate, Fr-279, AU. Bright, fresh colors and well centered. While not one of the scarcer 19th century silver certificates in high grade condition, the famous Onpapapa note enjoys tremendous demand from casual to serious paper money collectors.
- 6312 1899 \$5 Silver Certificate, Fr-279, Choice AU. Another high grade Onpapapa note. Crisp paper, but the color is a shade light and there are suggestions of ironed-out creases.
- 6313 1923 \$5 Silver Certificate, Fr-282, Choice CU. A nice, original note with good paper wave, but off center on the front, and showing some ink smudging on each side.
- 6314 1880 \$10 Silver Certificate, Fr-287, VG with Light Hinge Repair at Upper Right Corner. Slightly yellowed, as is normal on this scarce silver certificate issue.

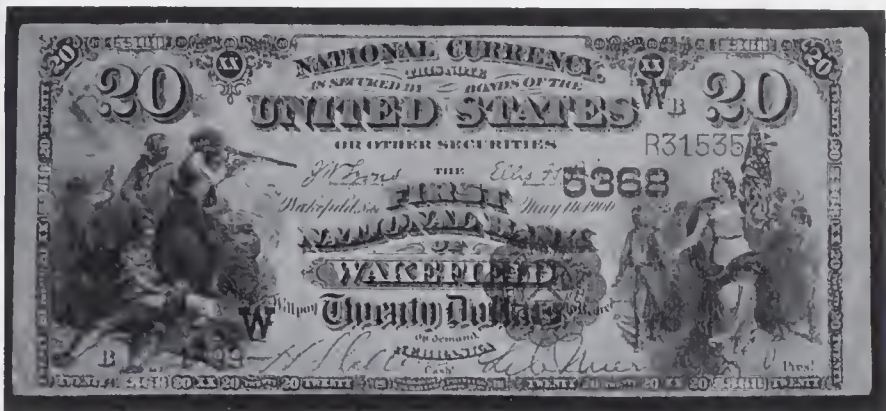

- 6315 1880 \$10 Silver Certificate, Fr-288, VG. Slightly yellowed from wear with broad margins all around. The earliest silver certificate series and a note that is fairly scarce even in lower grades.
- 6316 1886 \$10 Silver Certificate, Fr-294, VF. A perfectly centered "tombstone note," free of defects and exhibiting the expected amount of creases and wear for the grade.
- 6317 1880 \$20 Silver Certificate, Fr-309, Fine. A sound, well centered example of this very scarce design type. Only a few unobtrusive pinholes are noticed in the background of Decatur's portrait.
- 6318 1890 \$1 Treasury Note, Fr-347, AU. Large Brown Seal. Bright colors and crisp paper. The scarcer "fancy back" reverse, found most often in well circulated condition. Ideal for type.
- 6319 1891 Treasury Note, Fr-351, Gem CU. A scarce and popular type, Tillman-Morgan signatures. A lovely and fresh note.
- 6320 1890 \$5 Treasury Note, Fr-359, VF. Large Brown Seal. An ideal mid-grade example of the first issue, considerably more scarce than the 1891 Series and easily recognized by the more intricate designs on the reverse.
- 6321 1890 \$5 Treasury Note, Fr-361, XF. Small paper thin in left margin. Well centered with vertical creases at quarterly increments. The famous Union Army officer, General George H. Thomas, is depicted on the obverse.
- 6322 1891 \$5 Treasury Note, Fr-362, AU, a couple of pinholes from choice; and an 1891 \$5 Treasury Note, Fr-363, Fine, tightly trimmed on the left side. (Total: 2 notes)
- 6323 1890 \$10 Treasury Note, Fr-366, VF. Small ink stain at lower reverse border. The more elusive first series or "fancy reverse" issue, very well centered with light smudging to the right of the seal.

- 6324 1891 \$10 Treasury Note, Fr-369, Choice AU. Quite crisp and bright for the grade. Featured on the obverse is the diminutive Union officer, General Philip H. Sheridan, twenty years later the Commander in Chief of the U.S. Army.
- 6325 1891 \$10 Treasury Note, Fr-371, AU. Pinpoint tear in General Sheridan's uniform. The colors are as vivid as that of an uncirculated note.

- 6326 Original Series \$2 National Currency, Fr-389, VF, Moniteau National Bank of California, Missouri. One of just 1,900 first charter "lazy deuces" issued by this bank, only a handful of which exist today.
- 6327 1882 \$10 National Currency, Fr-483, VG-Fine, The Merchant's National Bank of Topeka, Kansas; 1902 \$5 National Currency, Fr-606, AU, The Kaw Valley National Bank of Topeka, Kansas; and a 1902 \$20 National Currency, Fr-650, XF-AU, The Central National Bank of Topeka, Kansas. Three fairly common issues from the Jayhawk state. (Total: 3 notes)
- 6328 1882 \$20 National Currency, Fr-499, Fine. The First National Bank of Belle Plaine, Iowa. A pleasing example of this scarcer brown back, well centered and free of defects.

- 6329 1882 \$20 National Currency, Fr-555, VG-Fine, First National Bank of Wakefield, Nebraska. A richly colored greenback showing only honest wear and a few pinholes in the Lexington scene.
- 6330 1902 \$5 National Currency, Fr-598, VG, Valley National Bank of Des Moines, Iowa; and a 1902 \$10 National Currency, Fr-626, Good, Farmers National Bank of Allerton, Iowa. A scarcer Iowa bank. (Total: 2 notes)
- 6331 1902 \$5 National Currency, Fr-602, VG-Fine, Utah State National Bank of Salt Lake City, Utah; 1902 \$5 National Currency, Fr-602, Good, Old National Bank of Spokane, Washington; 1902 \$10 National Currency, Fr-632, VG, Exchange National Bank of Olean, New York; and a 1902 \$20 National Currency, Fr-650, VG, Union National Bank of Fremont, Nebraska. (Total: 4 notes)
- 6332 1902 \$5 National Currency, Fr-604, Fine, First National Bank of Shelbyville, Illinois; 1902 \$5 National Currency, Fr-598, VF, Waltham National Bank of Waltham, Massachusetts; 1902 \$5 National Currency, Fr-601, Fine, National Bank of Commerce, St. Louis, Missouri; and a 1902 \$5 National Currency, Fr-607, VG, Peoples National Bank of Lynbrook, New York. (Total: 4 notes)
- 6333 1902 \$5 National Currency, Fr-610, XF. Conqueror First National Bank of Joplin, Missouri. A broad-margined, high grade note from a relatively small amount of large notes outstanding.
- 6334 1891 \$20 Silver Certificate, Fr-318, VF. Perfectly centered with a trivial puncture well concealed in Manning's hair.
- 6335 1902 \$10 National Currency, Fr-620, VG with border tears, First National Bank of Kingsbury, Texas. An elusive small town Texas issue. The bank was placed in receivership in January, 1929 for reasons of "dishonesty and local depression."
- 6336 1902 \$10 National Currency, Fr-622, VG. The Capital National Bank of Topeka, Kansas. An elusive red seal issue. A bit frayed along the top margin.
- 6337 1902 \$10 National Currency, Fr-626, VG-Fine, The Union National Bank of Manhattan, Kansas; and a 1914 \$50 Federal Reserve Note, Fr-1022 (red seal), Good-VG. (Total: 2 notes)
- 6338 1902 \$10 National Currency, Fr-633, First National Bank of West Concord, Minnesota, Good with noticeable stains and torn lower right corner; 1929 \$20 National Currency, Fr-1802-1, National Bank of Bay City, Michigan, Fine; 1929 \$20 National Currency, Fr-1802-1, Stanton National Bank of Stanton, Nebraska, Fine; 1929 \$20 National Currency, Fr-1802-1, First National Bank and Trust Company of Findlay, Ohio, Fine; 1929 \$10 Federal Reserve Bank Note, Fr-1860-1, Fine; 1929 \$20 Federal Reserve Bank Note, Fr-1870-G, VG with tear at left margin; (20) various \$2 Legal Tender Notes Fine-CU; (2) 1976 \$2 Federal Reserve Notes AU-CU; (4) various \$5 Legal Tender Notes VG-AU, one torn; (11) various \$1 Silver Certificates Fine-CU; 1935 A \$1 Silver Certificate, Fr-2300, HAWAII surcharge VG; 1934 A \$5 Federal Reserve Note, Fr-2302, HAWAII surcharge CU; \$13 face value Canadian notes; and a 1922 Philippines One Peso Note surcharged VICTORY on the reverse VG. (Total: 58 notes)
- 6339 1902 \$20 National Currency, Fr-652, VG, Bloomington National Bank, Bloomington, Indiana (scarce); and a 1902 \$20 National Currency, Fr-652, Good-VG, Lumbermans National Bank of Houston, Texas. (Total: 2 notes)
- 6340 1902 \$20 National Currency, Fr-659, VG, First National Bank of Los Angeles, California; and a 1902 \$20 National Currency, Fr-652, Good, La Grande National Bank, La Grande, Oregon. (Total: 2 notes)
- 6341 1902 \$50 National Currency, Fr-676, Fine. The Boise City National Bank of Boise, Idaho. A rare high denomination issue, one of a mere 813 notes originally printed on this Boise bank.

- 6342 1902 \$50 National Currency, Fr-682, Good with tear in upper left corner, Reno National Bank, Reno, Nevada. Noticeable fraying along top border. A rare high denomination note and about the only \$50 National one is likely to encounter from this elusive and popular Western state.
- 6343 1902 \$100 National Currency, Fr-698, Good-VG with tear at lower center, First National Bank of Seattle, Washington. A rarely seen third charter issue, one of a mere 355 notes put in circulation.
- 6344 1918 \$1 Federal Reserve Bank Note, Fr-729, XF, The Federal Reserve Bank of Chicago, Illinois; 1918 \$1 Federal Reserve Bank Note, Fr-738, Choice CU, The Federal Reserve Bank of Kansas City, Missouri; 1918 \$1 Federal Reserve Bank Note, Fr-739, AU, The Federal Reserve Bank of Kansas City, Missouri; 1918 \$5 Federal Reserve Bank Note, Fr-782, XF, The Federal Reserve Bank of New York, New York; and a 1918 \$5 Federal Reserve Bank Note, Fr-804, AU, The Federal Reserve Bank of Kansas City, Missouri. (Total: 5 notes)
- 6345 1918 \$2 Federal Reserve Bank Note, Fr-747, CU. The Federal Reserve Bank of Boston, Massachusetts.
- 6346 1918 \$2 National Currency, Boston, Fr-747, Choice CU.
- 6347 1918 \$2 Federal Reserve Bank Note, Fr-749, Choice CU. The Federal Reserve Bank of Boston, Massachusetts.
- 6348 1918 \$2 Federal Reserve Bank, Fr-773, AU. The Federal Reserve Bank of Minneapolis, Minnesota. Scarce.
- 6349 1918 \$2 Federal Reserve Bank Note, Fr-780, AU Choice. The Federal Reserve Bank of San Francisco, California.
- 6350 1918 \$5 Federal Reserve Bank Note, Fr-785, CU, The Federal Reserve Bank of Cleveland, Ohio; 1918 \$5 Federal Reserve Bank Note, Fr-790, XF, The Federal Reserve Bank of Atlanta, Georgia; 1918 \$5 Federal Reserve Bank Note, Fr-794, AU, The Federal Reserve Bank of Chicago, Illinois; 1918 \$5 Federal Reserve Bank Note, Fr-796, XF Irregular Cut Along Top Margin, The Federal Reserve Bank of St. Louis, Missouri; and a 1918 \$5 Federal Reserve Bank Note, Fr-799, CU, The Federal Reserve Bank of Minneapolis, Minnesota, one of the more difficult issues in the \$5 FRBN series of 1918. (Total: 5 notes)
- 6351 1915 \$5 Federal Reserve Bank Note, Fr-805, XF Pinhole, The Federal Reserve Bank of Dallas, Texas, scarcer signature combination; and a 1918 \$5 Federal Reserve Bank Note, Fr-807, XF, The Federal Reserve Bank of Dallas, Texas. (Total: 2 notes)
- 6352 1918 \$5 Federal Reserve Bank Note, Fr-809a, VF Stain at Upper Right Corner. The Federal Reserve Bank of San Francisco, California. Rare variety dated May 18, 1914.
- 6353 1914 \$5 Federal Reserve Note, Fr-890, VF; and (9) 1914 \$5 Federal Reserve Notes, Fr-891, VF-AU. (Total: 10 notes)
- 6354 (5) 1923 \$1 Silver Certificates VG-Fine; (7) 1928, 1928 A, and 1934 "funny back" Silver Certificates Good-AU; (11) 1935 A, 1935 C, 1935 D, 1935 E, and 1935 G Silver Certificates VG-CU; (7) 1928 D and 1928 F \$2 Legal Tender AG-XF; (12) various \$5 small size notes including Legal Tender, Silver Certificates, Federal Reserve Notes, and Federal Reserve Bank Notes all Good-Fine except for a 1928 B Legal Tender CU and a 1934 Silver Certificate CU; 1928 \$10 Federal Reserve Note and a 1929 \$10 Federal Reserve Bank Note VG; 1928 \$20 Federal Reserve Note and (2) 1929 \$20 Federal Reserve Bank Notes VG-Fine; (2) 1935 A Yellow Seal (North Africa) \$1 Silver Certificates VG-VF; and (5) 1935 A HAWAII surcharge \$1 Silver Certificates Good-AU. (Total: 54 notes)
- 6355 1914 \$20 Federal Reserve Note (red seal), Fr-961a, VF; and a 1914 \$100 Federal Reserve Note (blue seal), Fr-1130, Fine. (Total: 2 notes)
- 6356 1914 \$20 Federal Reserve Note, Fr-1007, Gem CU. A well centered example of this undervalued type.
- 6357 1914 \$50 Federal Reserve Note, Fr-1071, XF; and (2) 1922 \$10 Gold Certificates, Fr-1173, XF-AU. (Total: 3 notes)
- 6358 1922 \$10 Gold Certificate, Fr-1173, Choice CU. A vibrant example with excellent paper wave and centering.
- 6359 1922 \$100 Gold Certificate, Fr-1215, XF Pressed. Well centered with crisp paper, giving the appearance of an AU note. High grade for this popular issue, it is interesting to note that gold certificates were not legal to own until March, 1964.
- 6360 1900 \$10,000 Gold Certificate, Fr-1225, VF Cancelled and Stamped Paid Sept. 5, 1917. Perfectly centered with a few blue ink stains on and about Jackson's portrait.
- 6361 (5) different fractional currency issues VG-XF in one affordable lot. (Total: 5 notes)

- 6362 An album of U.S. Fractional currency that includes (18) various issues highlighted by a Fourth Issue 50 Cents Lincoln, Fr-1375, AU. Nice mixture of values and issues. Also in this lot are a 1929 \$5 Federal Reserve Bank Note VF and (3) \$1 "Funny Back" Silver Certificates including a 1928A CU. Finally, a second album of mostly low grade Confederate, Fractional, Broken Bank, Canadian, and U.S. Large Size notes totaling (15) pieces. (Total: 37 notes)
- 6363 Fractional Currency. 5-cent First Issue, Fr-1228, Ch CU; 5-cent Second Issue, Fr-1233, Ch CU; 5-cent Third Issue, Fr-1238, Gem CU; 10-cent First Issue, Fr-1241, Ch CU; 10-cent Fourth Issue, Fr-1261, Gem CU; and a 10-cent Fifth Issue, Fr-1266, Gem CU. An exceptional selection of high quality Fractionals. (Total: 6 notes)
- 6364 1928 \$1 Legal Tender Note, Fr-1500, Choice CU; and a 1929 \$5 National Currency, Fr-1800-1, AU, The Waltham National Bank of Waltham, Massachusetts, just a center fold away from CU. (Total: 2 notes)
- 6365 1928 \$1 Legal Tender, Fr-1500, Ch CU but tight at the bottom margin on the front; 1935A \$1 Silver Certificate HAWAII overprint, Fr-2300, Near-Gem CU; 1935A \$1 Silver Certificate North Africa, Fr-2306, Gem CU; and a 1934 \$5 Federal Reserve, Fr-2301 HAWAII overprint, Near-Gem CU. (Total: 4 notes)
- 6366 (8) 1928 C \$5 Legal Tender Notes, Fr-1528, Choice CU, several being consecutive numbers; 1934 A \$10 Silver Certificate, Fr-1702, AU; 1928 Gold Certificate, Fr-2400, VG; and a 1928 \$20 Gold Certificate, Fr-2402, Fine with Tear. (Total: 11 notes)
- 6367 1928 \$1 Silver Certificate, Fr-1600, CU Stained; (3) 1928 A \$1 Silver Certificates, Fr-1601, VF-AU; 1928 B \$1 Silver Certificate, Fr-1602, XF; (2) 1928 E Silver Certificates (very scarce), Fr-1605, VG-Fine; 1934 \$1 Silver Certificate, Fr-1606, Choice CU; (6) 1935 A \$1 Silver Certificates with R surcharge, Fr-1609, VG-Fine; and (4) 1935 A \$1 Silver Certificates with S surcharge, Fr-1610, VG-Fine. (Total: 18 notes)
- 6368 (5) 1935A \$1 Silver Certificate, Fr-1608, AU; 1935A \$1 Silver Certificate, Fr-1608, AU; 1917 \$2 Legal Tender, Fr-58, VF with rusty spotting; and a 1928D \$2 Legal Tender, Fr-1505, XF. (Total: 8 notes)
- 6369 1929 \$5 National Currency, Fr-1800-1, VG. Columbia National Bank of Portland, Oregon. A rare charter number, liquidated after just 21 months in business and showing only \$620 outstanding.
- 6370 (3) 1929 \$5 National Currency, Fr-1800-1, VG, The Old National Bank and Union Trust Company of Spokane, Washington; (2) 1929 \$10 National Currency, Fr-1801-1, VG. The Old National Bank and Union Trust Company of Spokane, Washington; 1929 \$10 National Currency, Fr-1801-1, VG, The National Bank of Tacoma, Washington; 1929 \$20 National Currency, Fr-1802-1, VG Corner Tear, The First National Bank of Bellingham, Washington; 1929 \$20 National Currency, Fr-1802-1, Fine, First Seattle Dexter Horton National Bank Seattle, Washington; and (2) 1929 \$20 National Currency, Fr-1802-1, VG-Fine, The National Bank of Tacoma, Washington. (Total: 10 notes)
- 6371 1929 \$5 National Currency, Fr-1800-1, VG, Central United National Bank of Cleveland, Ohio; 1929 \$5 National Currency, Fr-1800-1, VG, The Mellon National Bank of Pittsburgh, Pennsylvania; 1929 \$10 National Currency, Fr-1801-2, Good-VG, The Piqua National Bank and Trust Company Piqua, Ohio; (2) 1929 \$20 National Currency, Fr-1802-1, CU, First National Bank of Toledo, Ohio; 1929 \$20 National Currency, Fr-1802-1, VG, The Lehigh Valley National Bank of Bethlehem, Pennsylvania; 1929 \$20 National Currency, Fr-1802-1, VG, The Farmers Deposit National Bank of Pittsburgh, Pennsylvania; and (2) 1929 \$5 Federal Reserve Bank Notes, Fr-1850-D, AU. (Total: 9 notes)
- 6372 (2) 1929 \$5 National Currency, Fr-1800-1, Good-VG, The United States National Bank of Portland, Oregon; 1929 \$10 National Currency, Fr-1801-2, Fine, Yakima First National Bank Yakima, Washington; 1929 \$20 National Currency, Fr-1802-1, VG; The First National Bank of Portland, Oregon; and (5) 1929 \$20 National Currency, Fr-1802-1, Fine-XF, The United States National Bank of Portland, Oregon. (Total: 9 notes)
- 6373 1929 \$5 National Currency, Fr-1800-1, VG, Crocker First National Bank of San Francisco; (2) \$5 National Currency, Fr-1800-1, VG, The Anglo and London Paris National Bank of San Francisco, California; 1929 \$10 National Currency, Fr-1801-2, Fine, Bank of America National Trust and Savings Association San Francisco, California; 1929 \$10 National Currency, Fr-1801-1, VF, The First National Bank of Peoria, Illinois; 1929 \$10 National Currency, Fr-1801-2, VG, The Merchants National Bank of Muncie, Indiana; 1929 \$20 National Currency, Fr-1802-1, VG, Security First National Bank of Los Angeles, California; 1929 \$20 National Currency, Fr-1802-1, Fine, Pacific National Bank of San Francisco, California; 1929 \$5 Federal Reserve Bank Note, Fr-1850-1, Good-VG; 1929 \$10 Federal Reserve Bank Note, Fr-1860-G, VG; and (7) 1929 \$20 Federal Reserve Notes, Fr-1870-various, VG-XF. (Total: 17 notes)

- 6374 1929 \$10 National Currency, Fr-1801-1, VF, First National Bank of Seattle, Washington; (4) 1929 \$20 National Currency, Fr-1802-1, VG-VF, one with corner tears, First National Bank of Seattle, Washington; and (2) 1929 \$20 National Currency, Fr-1802-2, VF-AU, First National Bank of Seattle, Washington. (Total: 7 notes)
- 6375 (4) consecutive 1929 \$20 National Currency, Fr-1802-1, Choice CU, City National Bank and Trust Company of Battle Creek, Michigan. A partial sheet numbered A002569A through A002572A. (Total: 4 notes)
- 6376 4 consecutive 1929 \$20 National Currency, Fr-1802-1, Choice CU, City National Bank and Trust Company of Battle Creek, Michigan. Another high quality foursome, numbered C002569A through C002572A. (Total: 4 notes)

- 6377 \$10 National from the Yakima First National Bank, VG, Small Size.

- 6378 \$20 National, Small Size, from The First National Bank of Hillyard, Spokane, Fine.
- 6379 A group of (13) 1928 \$50 Federal Reserve Notes, Fr-2100-L, all CU to Choice CU. Several are consecutively numbered. Scarcer issuing bank. (Total: 13 notes)
- 6380 (3) 1935A \$1 Silver Certificates, Fr-2300, HAWAII surcharge, VG; 1934 \$5 Federal Reserve Note, Fr-2301, HAWAII surcharge, VG; (4) 1934A \$10 Federal Reserve Notes, Fr-2303, HAWAII surcharge, VG with one heavily stained; 1934 \$20 Federal Reserve Note, Fr-2304, HAWAII surcharge, VG; and (7) 1934A \$20 Federal Reserve Notes, Fr-2305, HAWAII surcharge, VG-Fine. A nice stock of these emergency issues. (Total: 16 notes)
- 6381 (5) 1928 \$10 Gold Certificates, Fr-2400, Choice CU. A high quality group of these popular small size issues. (Total: 5 notes)
- 6382 A group of various Small Size Federal Reserve Notes that includes shifted, upside down, and missing serial number errors, crease errors, fold errors, and ink errors. Among the denominations are (2) \$1, (3) \$5, (2) \$10, (2) \$20, \$50, and \$100. Interesting stuff for the collector of error notes. (Total: 11 notes)
- 6383 Group of Civil War notes that include: U.S. Fifty Cents Fifth Issue fractional, Fr-1381, VF; 1863 State of Alabama 5 Cents VF-XF; 1863 State of Alabama 25 Cents Good; 1863 State of Alabama 50 Cents Good; 1862 State of Mississippi 10 Dollars Good-VG Edge Flaws; and an 1862 Richmond, Virginia 75 Cents VG-Fine, printed on the back of a colorful Virginia broken bank note. (Total: 6 notes)

MORGAN DOLLARS

- 6384 1878-CC MS 64 Deep Mirror Prooflike. An untuned cameo with reflective qualities that rival any we have seen on this first year Carson City issue.
- 6385 1879-O MS 64. An extremely choice '79-O dollar, this piece is also very well frosted and displays shimmering luster in the fields.
- 6386 1880-CC MS 60. A frosty, untuned example.

- 6387 1881-O MS 65 Prooflike. An untuned gem with frosty cameo devices against deeply mirrored surfaces. Liberty's cheek and the surrounding fields are exceptionally clean with just a few tiny ticks visible. The reverse is very similar with one small scuff in the top obverse field the only noticeable mark. The surfaces are so reflective that they approach the Deep Mirror category. A very pleasing coin worthy of a strong bid.
- 6388 1881-S MS 63 Prooflike; and an 1882-S MS 63 Prooflike. Both coins are brilliant and untuned with slightly reflective fields. (Total: 2 coins)
- 6389 1882-CC MS 62, untuned and sharp as issued; 1883-CC MS 62, full, coruscant luster; and an 1899 MS 62, original, satiny luster. (Total: 3 coins)
- 6390 1882-S MS 65, brilliant and solidly in the gem category; and an 1883-S MS 60, traces of russet and bluish-green toning on either side, a fully lustrous example of this semi-key. (Total: 2 coins)
- 6391 1884 MS 65 Prooflike. Shallow mirrors reflect a minimum of normally seen contact marks. The coin is bright and untuned.
- 6392 1884-O MS 63, a magnificent display of crimson, gold, electric-blue, and silver colors are displayed on both sides, there are some dark streaks on the obverse; 1885 MS 64, sunset-crimson and electric-blue colorations overlay the lustrous obverse, the reverse is brilliant; and a 1962 half dollar MS 64, pretty golden-brown patina on each side. (Total: 3 coins)
- 6393 1884-S AU 58. Extremely lustrous and, in fact, mildly prooflike, with only a whisper of friction precluding a mint state rating. There is a bit of patchy toning confined mostly to the reverse. Expect this condition rarity to sell for multiples of the AU 50 level.
- 6394 1885-S MS 64. A high-end, untuned specimen with shimmering brilliance in the fields.
- 6395 1887-O MS 64 Prooflike. Rather shallow mirrors are bright and virtually untuned except for a bit of fragile, peripheral, purple color. Minimally abraded.
- 6396 1888 MS 66. Full, bright satiny luster enhances both sides. The cheek is exceptionally free from abrasions.
- 6397 1888-O MS 64, satiny luster; 1901-O MS 63, bright, coruscant luster; and a 1904-O MS 65, the obverse is deeply prooflike, the reverse is frosted. (Total: 3 coins)
- 6398 1889-CC Good 4 Digs On Reverse, a few small surface imperfections show on the reverse, but still a desirable lower grade example; 1889-CC VG 8 Rim Damage, a substantial rim bruise shows on the obverse at 10 o'clock of this otherwise well worn example; and an 1889-CC VG 8, a scarce coin that has toned a medium-gray color. An unusual opportunity to purchase three circulated examples of this key issue. (Total: 3 coins)
- 6399 1889-CC VF 35. Evenly worn, steely-gold surfaces with some milky gray overtones on the obverse. Traces of luster about the devices are most evident on the reverse.
- 6400 1889-O MS 64. Satiny luster and minimal abrasions, an attractive piece.
- 6401 1889-O MS 64. A clean-checked, high end specimen with ample sharpness in the centers and only a whisper of silvery-gray patina.
- 6402 1890 MS 64. Satiny white and very close to gem quality on this conditionally scarce P-mint.

- 6403 1891-CC MS 63. Soft pinkish-orange accents and only a couple of wispy hairlines away from choice.
- 6404 1892 AU 50 Cleaned, lightly polished on the highpoints, an untuned attractive piece; 1893-O VF 30, light-gray with a little golden color; and an 1894 VF 30, no detractions or marks. (Total: 3 coins)
- 6405 1892 MS 62; and (2) 1902-S MS 62, all well struck and quite appealing for these better date issues. (Total: 3 coins)

- 6406 1892-CC MS 64 Prooflike. A scarcer CC dollar with moderately reflective fields and one that is usually only seen in MS 62 or lower grades. This is a well struck coin with a stunning white on black contrast.
- 6407 1892-O MS 62, three pieces, all untuned examples with sharper than average definition in the centers. (Total: 3 coins)
- 6408 1892-O MS 62, three pieces, all satiny white and displaying fairly sharp hair and feather details. (Total: 3 coins)

- 6409 1892-S MS 60. More than a million '92-S dollars were originally struck, but those that escaped melting in most cases saw extensive circulation. Today, pieces grading VG to VF can be found without difficulty and at little cost. Things begin to change rather dramatically as the condition exceeds those levels, making this issue one of the most conditionally elusive of all Morgan dollars. A well balanced silvery-gray example with some underlying golden tones, this piece retains a generous amount of mint luster. The devices are nearly free from distractions, but the strike is a bit soft on the highpoints.
- 6410 1893-CC VF 30 Cleaned. Shiny surfaces indicate a light amount of polishing, now retoning with some light-gray color. Still, a reasonably nice specimen with no large contact marks.

- 6411 1893-CC MS 60. Brilliant and well struck on both sides, there are a few small marks that account for the grade.
- 6412 1893-S Good 4 Attempted Punctures. Two very small, attempted puncture wounds are present. One is on Liberty's cheek, the other in the center of the eagle's breast.

- 6413 1893-S VG 8. A clean, lower grade example of this key date in the Morgan dollar series. No heavy marks or abrasions show on this evenly worn example.

- 6414 1893-S XF 45 Surface Marks. An increasingly difficult date in high grades, this example unfortunately exhibits a number of heavy abrasions on the cheek. Some deep-gray toning is present on both sides.

- 6415 1894-O AU 55. Very softly struck on the highpoints, the coin exhibits an inordinately bright appearance. A pale violet toning streak is seen on the obverse.

- 6416 1895-S MS 63 Prooflike. Fully brilliant with modest reflective qualities. The low-mintage '95-S dollar enjoys strong demand at all grade levels, but the appearance of prooflike specimen that is only minimally abraded is a rare combination.

- 6417 1897-S MS 63 Prooflike, nicely mirrored surfaces and frosted devices; 1921 Morgan MS 64, a sharp example; and a 1921-D MS 64, a peripheral ring of golden-ochre toning on the obverse. (Total: 3 coins)

- 6418 (3) 1899 MS 60. Three coins displaying somewhat subdued luster, and a few contact marks. (Total: 3 coins)

- 6419 (3) 1899 MS 61. All three pieces are bright and display some contact marks, accounting for their grades. (Total: 3 coins)

- 6420 (3) 1899 MS 62. All three are bright and untuned. (Total: 3 coins)

- 6421 (3) 1899 MS 62. Three coins showing the normal collection of surface marks. All are untuned. (Total: 3 coins)

- 6422 (3) 1899 MS 63. All three coins are brilliant and frosty. (Total: 3 coins)

- 6423 1899 MS 63. Frosty luster and a few minor abrasions show on each side.

- 6424 1899 MS 63. Satiny luster.

- 6425 1899 MS 63. A well struck example with full luster.

- 6426 1899 MS 63. A bright, frosty example.

- 6427 1899-O MS 66. The obverse and roughly half of the reverse are layered in spectacular multicolored toning, with the underlying surfaces being fully detailed and essentially mark-free.

- 6428 1900 MS 64, gunmetal-blue and light-gray toning; 1923 MS 64, some verdigris and water spots on the reverse; and a 1926 MS 64, some light, opaque toning. (Total: 3 coins)

- 6429 1901 AU 58. An example of this well known condition rarity that just misses mint state status and in all probability never saw any commercial use. Just the slightest obverse hairlines limit the grade. Some light-russet toning is present.

- 6430 1902 MS 65. Speckled green-gold toning over both sides with bluish accents on the reverse.

- 6431 1902-O MS 64 Prooflike. Untuned with deep, watery brilliance and an unusually bold strike.

- 6432 1902-S MS 64. Untuned and a high end coin for the grade with exceptionally clean surfaces and a bold strike. The obverse cheek shows just a few tiny marks and some very light horizontal striations are visible on the reverse.

- 6433 1903-O MS 64. Bright, satiny, and lustrous.

- 6434 1903-S XF 45. Small "S" variety. VAM-2 and Breen-5697. Natural silvery-gray color, deepening slightly about the devices. Very scarce in all grades and particularly elusive at the XF level.

- 6435 1904 MS 64 Prooflike. Fully brilliant and struck with uncommon sharpness.

PEACE DOLLARS

- 6436 1921 MS 63. A popular, first year of issue date in the Peace dollar series. The only year these coins were struck in high relief, this example is well struck and shows some light, original toning.

- 6437 1921 MS 64. A frosty, bright example of this popular first year Peace dollar. Very clean surfaces with a few light marks on Liberty's neck and the reverse eagle. The strike is above average for the date and the overall look is quite pleasing.

- 6438 1922-S MS 64. Coruscant, satiny luster is present under some light, milky toning. A choice specimen.

- 6439 1923-D MS 64, extremely bright, frosty luster and well struck; 1924 MS 64, some light-violet patina; and a 1925 MS 64, lustrous and sharp. (Total: 3 coins)

- 6440 1923-S MS 63, pale gray-violet toning; and a 1926-S MS 64, clean-cheeked surfaces with a few milky toning spots on the reverse. (Total: 2 coins)

- 6441 1923-S MS 64. A minimally abraded specimen, boldly struck for the issue and untuned save for a streak of milky golden patina across either side.

- 6442 1926-S MS 65. Extremely lustrous with minimally abraded devices, a gem quality specimen.

- 6443 1928 AU 50. One of the keys to the series, only the slightest wear shows.

- 6444 1934-S AU 50 Cleaned. Bright and essentially untuned. The most conditionally scarce Peace dollar issue, the '34-S has long been considered the key to the series in AU and better grades.

COMMEMORATIVE SILVER

- 6445 1893 Isabella Quarter MS 61. An attractively toned, original example of this popular issue. Peripheral tones of steel-blue fade to subdued brilliance in the centers.

- 6446 1893 Isabella Quarter MS 64. Satiny, smooth surfaces and a bold strike make this a desirable example of our only commemorative quarter dollar. Untuned and bright.

- 6447 1900 Lafayette Dollar MS 62 Questionable Toning. The toning is actually quite attractive, the hues are just a bit "off" from what one normally sees. Minimally abraded.

- 6448 1937 Antietam MS 65. A frosty, gem quality specimen exhibiting some light, original toning. ANACS certificate (No. E-6718-X) accompanies.

- 6449 1935-D Arkansas MS 64. Lustrous with some light-gray patina on each side.

- 6450 1937 Arkansas PDS Set. The Philadelphia coin grades MS 64, the Denver and San Francisco issues are both MS 63. A mostly untuned set with a minimum of marks and abrasions. (Total: 3 coins)

- 6451 1936-S Bay Bridge AU 58, just the slightest cabinet friction; 1935 Connecticut AU 58, lackluster appearance; and a 1936 York AU 55, lustrous with some pale-violet patina. (Total: 3 coins)

- 6452 1935-D Boone MS 66. Deep-gray peripheral tones fade to mostly lustrous centers.
- 6453 1937-S Boone MS 66. Mostly brilliant, there is a bit of russet color on the reverse. This gem is practically void of surface marks.
- 6454 1936 Bridgeport MS 63. Lustrous and mostly untuned, a popular issue.
- 6455 1936 Bridgeport MS 63. A brilliant, white example.
- 6456 1925-S California MS 62, lustrous; 1936 Long Island MS 62, some light toning; and a 1936 Robinson MS 62, lustrous with a small toning spot on the reverse. (Total: 3 coins)
- 6457 1936 Cleveland MS 64 Light Scratch, a very light scrape is seen on Mr. Cleveland's head; and a 1926 Sesquicentennial MS 63, a lustrous, untuned example. (Total: 2 coins)
- 6458 1936 Cleveland MS 64, bright and untuned; and a 1920 Pilgrim MS 64, a smattering of patina on each side. (Total: 2 coins)
- 6459 1936-S Columbia MS 65. Some light gray-violet patina covers each side. Accompanied with an ANACS certificate (No. E-2136-X).
- 6460 1892 Columbian MS 63, soft reddish-gold and blue toning clings to the devices; and a 1936 Lynchburg MS 60 Cleaned and Retoned, a rather colorful and pleasing example despite the assigned grade. (Total: 2 coins)
- 6461 1892 Columbian MS 64 Prooflike. Murky gray-violet toning cannot hold back the underlying reflective qualities.

- 6462 1892 Columbian MS 67. As the first commemorative half dollar struck, the Columbian half holds a special place in the long and historic commemorative series. From the first proof striking that sold for \$10,000 in 1892, to the final 1893 business strike, Columbian halves were popularly collected at the time and in the hundred years since. This is a spectacularly toned piece whose central regions are light in color and shade gradually to a soft crimson, then the entire side is framed a lovely electric-blue with silvery accents at the rims. Superb luster and exceptional eye appeal overall.
- 6463 1893 Columbian MS 63. Gray-golden patina is present on each side of this unusually clean specimen.
- 6464 1893 Columbian MS 63, lustrous with some peripheral color; 1936 Rhode Island MS 63, lustrous with a violet toned obverse; and a 1935-S San Diego MS 63, a couple of contact marks away from a higher grade. (Total: 3 coins)
- 6465 1893 Columbian MS 64. Original gray and blue toning is present on the obverse, the reverse is bright with some gold and blue color. A choice example.
- 6466 1936 Delaware MS 64. Vibrant luster is accented with bright golden toning.
- 6467 1922 Grant XF 45, some luster still shows; and a 1926 Sesqui XF 45, exceptionally clean and lightly toned, an attractive specimen. (Total: 2 coins)
- 6468 1928 Hawaiian AU 58 Cleaned. Bright with a slightly unnatural appearance to the surfaces. A respectable example for the budget-minded collector.
- 6469 1928 Hawaiian MS 63. Both sides display milky olive-gray toning, primarily in the protected areas. A scarce and always popular silver commemorative.
- 6470 1935 Hudson MS 64. More lustrous than is typical of this tough, low-mintage issue, with green-gold toning blanketing the obverse and streaked across the lower left portion of the reverse.
- 6471 1925 Lexington MS 64. Bright, coruscant luster and a bold strike.
- 6472 1918 Lincoln MS 63, speckled golden and pale-russet toning in the recessed areas; and a 1936-D San Diego MS 64, frosty white. (Total: 2 coins)

- 6473 1936 Long Island AU 50, lightly toned on the obverse; 1920 Pilgrim AU 50, violet patina on each side; and a 1926 Sesquicentennial, AU 50, reddish-violet toning. (Total: 3 coins)
- 6474 1920 Maine MS 60 Cleaned, fully brilliant with the usual die polishing interspersed with a few wispy hairlines; and a 1920 Maine MS 64, sharp and fully lustrous. (Total: 2 coins)
- 6475 1934 Maryland MS 63, some nice, original toning; 1926-S Oregon MS 63, lustrous with some mottled toning; and a 1925 Stone Mountain MS 63, boldly struck and attractive. (Total: 3 coins)
- 6476 1923-S Monroe MS 63, typical luster shows through some mottled verdigris on both sides; and a 1937-D Oregon MS 64, sharp with some light golden and violet colors. (Total: 2 coins)
- 6477 1923-S Monroe MS 64. Very well struck for this shallow relief condition rarity, displaying scattered specks of deep russet toning on both obverse and reverse. A high-end example that takes a large leap in both rarity and price in the next grade.
- 6478 1923-S Monroe MS 64. Satiny and essentially untuned.
- 6479 1925 Norse Thick MS 63. Original gray-golden-olive patina. A vertical mark below CENTENNIAL limits the grade of this piece.
- 6480 1926 Oregon MS 64. Boldly struck with some rich golden patina on each side.
- 6481 1938-D Oregon MS 67. Pastel-blue and violet toning enhances both the obverse and reverse.

- 6482 1915-S Panama-Pacific MS 65. Struck in San Francisco in conjunction with the Panama-Pacific International Exposition held to celebrate two major events: the rebuilding of the city following the devastating 1906 earthquake, and the opening of the Panama Canal. This specimen possesses full, bright luster, an excellent strike, and virtually no detracting signs of contact with other coins. Hints of pale orange-gold patina are visible on either side.
- 6483 1921 Pilgrim MS 65. A shimmering, golden-hued example of this second year and lower mintage issue.
- 6484 1937 Roanoke MS 64, clean, satiny surfaces are accented with a little light toning; 1925 Stone Mountain, well struck and frosty, there is a little violet toning; and a 1934 Texas MS 64, a very lustrous example of this first year issue. (Total: 3 coins)
- 6485 1926 Sesquicentennial MS 64. A popular commemorative issue with medium gray-rose toning abundantly present on both sides.
- 6486 1936 Texas MS 66. A superb, glittering gem complete with its normal, bold strike and full satiny luster.
- 6487 1927 Vermont MS 65. A bright and lustrous gem with a splash of golden color on both the obverse and reverse. Exceptionally clean surfaces with just a few tiny ticks keeping it from perfection.
- 6488 1946 Booker T. Washington PDS Set. The Philadelphia issue is MS 63, the Denver is MS 62, and the San Francisco is MS 65. All three are mostly untuned and bright. (Total: 3 coins)
- 6489 1936 York MS 63. Deep, rich-golden toning is present on both sides.

MODERN COMMEMORATIVES

- 6490 Washington Medals. Included are: 1799 Funeral Urn medal VG 8, Baker-166C, struck in white metal, the hole at the top has been inexpertly plugged; and a Washington Inauguration Centennial medal Proof 60, lightly toned with a darker spot of color at the top of the reverse. (Total: 2 medals)
- 6491 Hulseman's Half Cent Token (1837) AU 50. The Hard Times Tokens of 1837 were created to help ease the lack of small denomination circulating coinage. This is one of the more popular issues, although many different varieties are known. A smooth specimen with a chocolate-brown appearance.

- 6492 1837 Feuchtwanger Cent Fine 15. Light gray overall with deep charcoal-gray color outlining the devices. Listed on page 290 of the *Guide Book*.
- 6493 Encased Postage. EP-21. Mendum's Family Wine Emporium. 1-cent. XF with crack across the mica and several several imperfections around the margins. A dark stain is noted at the bottom of the reverse. The reverse appears to have either been lacquered or had wax applied to the fields.
- 6494 1896 Bryan Dollar AU 50. HK-780. An oversized medal (52 mm.) with 823 grains of silver. A toned and original piece that makes a statement about the relative value of silver to gold and the free coinage of silver, central themes in the 1896 presidential race.

- 6495 **1920 Lincoln cent MS 60 Brown Double Struck.** A rare, interesting mint error, this specimen displays a double impression, the second one being about 40% off center toward the 1 o'clock position. Early double struck Lincoln cents are very scarce, especially one that is still uncirculated.
- 6496 1853 gold dollar VF 30, holed and cleaned; 1880 Cal. Fractional Round Indian Head half dollar VF 20; and a 1928 gold plated medal from the New York State Fair—Karakul Fur Sheep Farms. (Total: 3 items)

EARLY PROOF SETS

- 6497 A five-piece 1942 proof set with an average grade of PR 63. All the silver issues are virtually brilliant while the nickel is framed in crescents of golden toning. (Total: 5 coins)
- 6498 1942 six-piece proof set averaging PR 64 in grade. The Type Two nickel is lightly spotted on the obverse and the half dollar shows appreciable contrast. (Total: 6 coins)

ROLLS

- 6499 (1) Choice BU roll of 1942-S cents, mostly red and brown coins; and (2) rolls of 1944-D nickels Choice BU. (Total: 3 rolls)
- 6500 (15) BU rolls of Lincoln cents including 1954, 1954-S, (2) 1955-S, and eleven others; (8) BU rolls of Jefferson nickels, the only roll of value being a 1941-S; and a 1946 BU dime roll that is gem quality. (Total: 24 rolls)
- 6501 Rolls and Partial Rolls. Nickels: (21 pcs.) 1935 Choice BU; mixed roll containing (8 pcs.) 1936 Choice BU and (29 pcs.) 1936-D MS 60-63; and (21 pcs.) 1938-D Choice BU. Dimes: (36 pcs.) 1941 Choice BU; and (28 pcs.) mixed BU common dates from the 1940s. Quarters: (12 pcs.) 1936 Choice BU; and (38 pcs.) 1937 Choice BU. Halves: mixed roll containing (1 pc.) 1948 and (7 pcs.) 1951 MS 60-63. (Total: 8 partial rolls)
- 6502 A partial roll of (29) 1937 nickels. All coins typically grade MS 64 to MS 65 and are fully lustrous. (Total: 29 coins)
- 6503 A roll of (40) 1950-D nickels. All are choice uncirculated, MS 63 to MS 64 and lustrous as issued. (Total: 40 coins)
- 6504 BU Roosevelt Dime Rolls. Included are: 1948-D; 1955; (2) 1955-D; (3) 1955-S; 1957-D; 1958; and 1960-D. (Total: 10 rolls)
- 6505 BU Rolls and Partial Rolls of Dimes, Quarters, and Halves. Included are, dimes: (32 pcs.) 1952; (44 pcs.) 1955; (39 pcs.) 1955-S; (39 pcs.) 1956; (25 pcs.) 1957; (32 pcs.) 1958; (20 pcs.) 1958-D; (40 pcs.) 1959; (34 pcs.) 1960; (35 pcs.) 1961; (29 pcs.) 1962; (39 pcs.) 1963; (28 pcs.) 1963-D; and (41 pcs.) 1964. Quarters: (34 pcs.) 1955; (1 roll) 1955-D; (35 pcs.) 1956; (31 pcs.) 1957; (31 pcs.) 1957-D; (33 pcs.) 1958-D; (1 roll) 1959-D; (29 pcs.) 1961; and (36 pcs.) 1961-D. Halves: (1 roll) 1963; and (1 roll) 1963-D. (Total: 25 rolls)
- 6506 (1) roll of 1954-D quarters; and (1) roll of 1955 quarters. All are blazing BU coins. (Total: 2 rolls)

- 6507 An old-time group of uncirculated Walking Liberty half dollar rolls, including the following dates: (20) 1940-S, (80) 1941, (10) 1942, (17) 1944-S, (20) 1945, (101) 1945-S, and (19) 1946-D. Grades range from MS 60 to MS 64 with fairly typical strikes on the S-mints. (Total: 267 coins)
- 6508 BU Franklin Rolls. Included are: 1948; 1948-D; (2) 1955; and 1957-D. (Total: 5 rolls)
- 6509 Partial Roll of (14) Mixed Date Morgan and dollars and (1) Peace dollar. Mostly brilliant and of MS 60-62 quality. (Total: 15 coins)
- 6510 A choice roll of 1881-S dollars, all fully struck MS 60 to MS 64 examples. (Total: 20 coins)
- 6511 Two rolls of uncirculated 1904-O dollars, one averaging MS 60 and the other primarily MS 63 examples; two rolls of 1922 dollars (one roll short a coin) in AU-BU condition; and a roll of AU-BU 1924 dollars. (Total: 99 coins)
- 6512 (5) rolls of circulated silver dollars, 29 of which are pre-1921, all grading Good-AU. (Total: 100 coins)
- 6513 Four rolls of circulated Morgan and Peace dollars, each containing an extra coin. Most are pre-'21 issues and grades range from AG 3 to AU 50. (Total: 84 coins)

PROOF, MINT, AND YEAR SETS

- 6514 Proof Sets: 1952; (2) 1954 in hard plastic holders; and a 1955 Flat Pack. Gem sets with the only exception being one of the 1954 sets that shows a dark spot at the back of Franklin's shoulder. (Total: 4 sets)
- 6515 Proof sets, 1953 in Capital holder; 1954 in Capital holder; the following are in their original cello holders: 1955 flat pack; 1956; 1957; 1958; 1959; 1960, large date; 1961; 1962 toning spot on the quarter and half dollar; and a 1963. (Total: 11 sets)
- 6516 Proof sets, 1954 not in original holder; the following are in their original cello holders: 1955 flat pack; 1956; 1957; 1958; 1959, toning spot on the half dollar; 1960, large date; 1961; 1962; and a 1963. (Total: 10 sets)
- 6517 Proof sets, 1954 not in original holder; the following are in their original cello holders: 1955 flat pack; 1956; 1957; 1958, toning spot on the half dollar; 1959; 1960, large date; 1961; 1962; and a 1963. (Total: 10 sets)
- 6518 Proof sets, all in original cellophane and envelopes, a few having tarnished silver coins. Included are: 1955 flat pack, 1956, (2) 1957, (4) 1958, (6) 1959, (13) 1960, (3) 1960 Small Date, (14) 1961, (12) 1962, and (10) 1963. (Total: 66 sets)
- 6519 Proof sets in their original cello holders: 1955 flat pack; 1956; 1957; 1958; 1959; 1960 Large Date; 1961; 1962; and a 1963. (Total: 9 sets)
- 6520 (18) 1956 proof sets, 17 in government cellophane and 1 in plastic. The majority are unspotted sets. (Total: 18 sets)
- 6521 Proof Sets: 1957, 1958, 1960, (4) 1968-S, (2) 1969-S, (2) 1971-S, (10) 1975-S, and (15) 1976-S. Mint Sets: 1963, 1963 P-mint only, 1965 SMS, (6) 1968, (4) 1969, (3) 1970, (8) 1971, (5) 1972, 1974, and (15) 1980. Also included are a 1962 Canadian PL set, (2) 1963 Canadian PL sets, (6) 1964 PL sets, brass Bicentennial medal w/ stamps and envelope, 1982 Washington one-ounce silver medal w/ first day of issue envelope, and (2) Vatican City sets. (Total: 94 items)
- 6522 (42) 1957 proof sets, all but one in government envelopes. A high quality group, many of which are unopened. (Total: 42 sets)
- 6523 Proof Sets: (6) 1958, (22) 1959, (32) 1960, (3) 1960 Small Date, (9) 1961, (12) 1962, (18) 1963, and (16) 1964. (Total: 118 sets)
- 6524 Proof, SMS, and Mint Sets. The proof sets include: 1964; 1968; 1969; 1970; 1971; 1972; 1973; 1974; 1975; 1976; 1976 3-piece silver; 1977; 1978; 1979; (2) 1980; 1981; (2) 1982; (2) 1984; (2) 1985; and 1986. Proof lkes: (2) 1971; 1972; 1973; and (2) 1974. SMS: (2) 1966; and (2) 1967. Mint Sets: 1964; 1965; 1968; 1970; 1971; 1972; 1973; 1974; 1975; 1976; 1976 3-piece silver; 1977; 1978; 1979; (2) 1984; (2) 1985; and 1988. Also included is a round Washington Indian Peace Medal (modern) with chipping on highpoints. (Total: 54 sets)
- 6525 Proof Sets: (6) 1968-S, (9) 1969-S, (9) 1970-S, (16) 1971-S, (14) 1972-S, (10) 1973-S, (10) 1974-S, and (13) 1975-S. Mint Sets: (9) 1964, (8) 1965 SMS, (9) 1966 SMS, (9) 1967 SMS, (15) 1968, (8) 1969, (7) 1971, (4) 1972, (3) 1973, (6) 1974, (10) 1975, (12) 1976, (14) 1977, (15) 1978, (5) 1979, (15) 1980, (15) 1981, (7) 1984, (5) 1985, (5) 1986, (22) 1987, (5) 1988, (10) 1989, (10) 1990, (5) 1991, (10) 1992, and (20) 1993. Also lke dollars: (5) 1971-S BU, 1972-S BU, 1971-S Proof, (7) 1972-S, and (3) 1974-S. (Total: 367 items)

- 6526 Proof Sets: (20) 1969-S, (3) 1970-S, (5) 1971-S, (5) 1972-S, (5) 1974-S, 1975-S, 1976-S, 1977-S, 1978-S, (2) 1979-S, (2) 1981-S, (2) 1982-S, and (2) 1983-S. Mint Sets: (10) 1965 SMS, (25) 1966 SMS, and (21) 1967 SMS. (Total: 106 sets)
- 6527 Proof Sets: 1971-S, 1976-S three-piece silver, (2) 1978-S, (2) 1979-S, 1980-S, (2) 1981-S, (2) 1982-S, (2) 1983-S, (2) 1984-S, 1986-S, (4) 1987-S, 1988-S, 1990-S, 1991-S, 1992-S, and a 1993-S. Mint Sets: 1978, 1979, (2) 1980, (2) 1981, 1984, 1987, (4) 1988, (3) 1989, 1991, and a 1992. (Total: 3 sets)

SETS, PARTIAL SETS, AND MISCELLANEOUS

- 6552 A set of Large cents, partially completed from 1793 to 1857 in two Library of Coins albums and grading Fair 2 to VF 20. Most of the early pieces exhibit various problems. Represented here are the following dates: 1793 Wreath (porous), 1794 (porous), (2) 1795 Plain Edge (one counterstamped W.F.), 1796 Draped Bust, 1797 With Stems, 1798, 1799 (low grade and damaged), 1800, 1801 (porous), 1801 1/000 Fraction, 1802 1/000 Fraction (porous), 1803 Small Date, With Stems, Large Fraction, 1803 Large Date, Small Fraction (porous), 1803 Large Date, Large Fraction, 1806, 1807/6, 1807 Small Fraction, 1808, 1809, 1810, 1811, 1812 Large Date, 1813, 1814 Plain 4, 1816, 1817 13 Stars, 1817 15 Stars, 1818, 1819 Large Date, 1816 Small Date, 1820 Large Date, 1820 Small Date, 1821, 1822, 1823/2, 1823, 1824, 1825, 1826, 1827, 1828 Large Date, 1828 Small Date, 1829 Large Letters, 1830 Large Letters, 1831 Large Letters, 1832 Large Letters, 1833, 1834 Large Date, Large Letters, and Stars, 1835 Large Date and Stars, 1835 Small Date and Stars, 1836, 1837 Large Letters, Plain Hair Cord, 1837 Small Letters, Plain Hair Cord, 1837 Small Letters, Beaded Hair Cord, 1838, 1839 Head of 1838, 1839 Head of 1840, 1840 Large Date, 1840 Small Date, 1841, 1842 Large Date, 1842 Small Date, 1843 Obverse and Reverse of 1842, 1843 Obverse of 1842, Reverse of 1844, 1843 Obverse and Reverse of 1844, 1844, 1845, 1846 Large Date, 1846 Small Date, 1847-1854, 1855 Upright 5s, 1856 Upright 5, 1856 Slanted 5, and an 1857 Large Date. (Total: 82 coins)
- 6553 Type Set. Partial U.S. type set of copper, nickel, and silver type from the 19th and 20th centuries, half cents through SBA dollar. The grade range is generally Fine to Very Fine except on the more modern issues. Also included are a 1949 Canadian dollar, an 1890 British crown in a bezel, three circ. Morgans, (5) 40% silver lkes, and (2) clad 1976 lkes. Housed in a Harco Coinmaster album, most of the coins have PVC residue on them.
- 6554 A set of Flying Eagle and Indian cents, complete from 1857 to 1909. Especially in the earlier issues, there is a majority of dark or porous pieces with grades ranging from AG 3 to Fine 12. The two most valuable pieces, the 1877 and 1909-S, grade AG 3 and VG 8 respectively. (Total: 58 coins)
- 6555 A set of Flying Eagle and Indian cents lacking only the three key issues, the 1856, 1877, and 1909-S while including the 1869/9. Grades here range from AG 3 to VF 20 with only a handful of dark or porous examples. (Total: 57 coins)
- 6556 Partial Indian cent album with five different dates; (6) partial Lincoln albums or boards with a few of the semi-key early S-mints in one album; (7) partial Canadian albums Large cents through quarters; (3) 1960-P & D Large and Small Date sets; (2) 1893 Columbian half dollars; and a 1921 Alabama half dollar, all average circulated except for some of the later date coins. (Total: 20 items)
- 6557 A set of Lincoln cents, 1909 to 1974 PDS, missing only the 1955/55 double die and the 1970-S Small Date. The first album (1909-1940) averages VF or so with the keys grading: 1909-S VF, 1909-S-VDB VF, some discoloration on the reverse; 1911-S XF; 1914-D VG, 1914-S Fine; 1921-S VF; 1922-Plain VG, 1924-D Fine; and the 1931-S Unc. The second album (1941-1974) is Uncirculated. An above average, attractive set. (Total: 179 coins)
- 6558 Partial Number One (1909-1940) set of Lincoln cents (20 pcs.); (3) Number Two (1941-) sets of Lincoln cents, only one set missing three coins; (6) Jefferson nickel sets, three through 1961 and three through 1964 with only one set missing two coins; an uncirculated set of Jefferson nickels complete through 1964; (10) sets of silver Roosevelt dimes, eight complete and two lacking a total of 14 coins; (2) Number Two (1937-1947) sets of Walking Liberty half dollars; 1941-1947 set of Walking Liberty half dollars; (3) sets of Franklin half dollars, one with five additional Kennedy half dollars; a set of Kennedy half dollar non-proofs from 1964-1985, missing three clad issues; and a Canadian small cent set from 1920-1969 with only the 1935 missing. All coins are average circulated unless noted. (Total: 29 sets)
- 6559 A set of Lincoln cents from 1934-D to 1958-D, all MS 63 to MS 65 examples except for the three 1943 issues, all of which are processed. Three sets of Jefferson Wartime nickels, all MS 60 to MS 65. Three sets of Mercury dimes from 1941-1945, each brilliant and grading MS 60 to MS 65. A set of Roosevelt dime from 1946-1969, all MS 60 to MS 63. Finally, three uncirculated year sets from 1958, 1959, and 1960, with both Small Dates also represented on the 1960 set, all brilliant MS 60 to MS 65 examples. (Total: 11 sets)
- 6560 A set of Lincoln cents from 1941 on, complete through 1974 except for Doubled Dies and 1970-S Small Date. The set is partially filled from 1975-1984 including a few proofs. There is also a BU set of Lincoln Memorial cents from 1959-1977. Condition is XF 40 and better with noticeable PVC. Next is a set of Jefferson nickel complete through 1974 with scattered coin up to 1983. The Wartime issues appear to be uncirculated while others are Fine 12 and better. A set of Roosevelt dimes, all uncirculated and proof is complete through 1968 and partially filled until 1980. A complete set of Franklin half dollars, all brilliant MS 60 or better examples. Finally, a set of Kennedy half dollars missing only three spaces from 1964-1982. (Total: 5 sets)
- 6561 A set of uncirculated and proof Lincoln Memorial cents complete from 1959 to 1992, including the Small Dates, 1972 Doubled Die, proof-only issues, and 1982 varieties; a set of silver Roosevelt dimes complete in XF-BU; and 21-piece PDS set of Eisenhower dollars. (Total: 3 sets)
- 6562 A set of Lincoln cents from 1909-1968, missing only the 1909-S VDB and 1955 Doubled Die. The 1922 No D shows a trace of a mintmark and should be examined. Coins range from Good or better on the early dates to uncirculated on some of the 1940-1960s dates; and a partial set of Liberty, Buffalo, and Jefferson nickels in an old Dansco album. Included are 17 Liberty nickels with 16 different dates, 32 Buffalo nickels with 31 different issues (1921-S being the most difficult), and 68 different Jefferson nickels, missing only the 1950-D among dates prior to 1963. Condition is average circulated. (Total: 2 sets)
- 6563 A complete set of circulated Washington quarters and some extras too: a Whitman album containing: 1932 through 1964-D quarters, the '32-D is VG, the '32-S is Fine, the average grade is VG; a Whitman album containing a partial set of Washingtons, 1932 through 1959-D average grade is Fine, minus the 32-S, 34, 37-D, 37-S, 38-S, 39-S, 40-D, and 55-D. The 32-D is Good, the 64 and 64-D are included too; and a Harris album containing 1954 through 1964-D averaging XF, missing the 54-D but including (7) clad issues. (Total: 180 coins)
- 6564 A nearly complete set of Barber dimes (less of course the extremely rare 1894-S and containing two 1892-Os and no 1893-O) in grades from AG to XF. The key date in the set, the 1895-O, is a VG 8 with ANACS papers. (Total: 74 coins)
- 6565 A completed set of Mercury dimes, AG or better among the early dates and mostly VG-VF among later issues. The 1916-D is a lightly cleaned AG 3, the 1921 is Fine 12, and the 1921-D is AG 3. (Total: 72 coins)
- 6566 A set of Mercury dimes missing 8 coins but not the 1921 and 1921-D, grading AG-XF; and a partial set of (40) Barber dimes including numerous VG-Fine examples, all common dates. (Total: 2 sets)
- 6567 A complete set of Mercury dimes (no overdates) grading AG 3 to VF 20, the 1916-D being AG 3. (Total: 77 coins)
- 6568 A set of Barber quarters lacking only the 1892-S, 1901-S, and 1913-S, ranging in grade from AG 3 to VG 8. The 1896-S is an AG 3 with full rims on the obverse and considerably less detail on the reverse. (Total: 71 coins)
- 6569 A well matched partial set of Standing Liberty quarters grading AG 3 to Fine 12. The only pieces missing are the 1916, overdate, 1919-D, and 1923-S. The lowest grade example is the 1921, with only the 1 in the date visible. (Total: 34 coins)
- 6570 A date set of Capped Bust and Reeded Edge half dollars from 1807-1839, missing only the 1822. Yes, the 1815 is present but grades a weak AG. The balance of the set is generally Good to Fine. Attributions are listed for each of the Capped Bust issues, but they are unchecked for accuracy. (Total: 31 coins)
- 6571 A complete set of Barber half dollars, all original in appearance and grading AG 3 to Fine 12. All of the tougher early issues are only AG, but the low-mintage 1913 grades Fine 12. Overall, a pleasing set in two plastic holders. (Total: 74 coins)
- 6572 A complete set of Walking Liberty half dollars from 1916 to 1947. Most of the early dates grade AG 3 while later issues are generally VG 8 or better. (Total: 65 coins)
- 6573 An uncleaned, well matched set of Walking Liberty half dollars, complete from 1916-1947. Only a few AGs are seen among the earlier dates while later issues are generally Fine or better. (Total: 65 coins)
- 6574 A set of Walking Liberty half dollars in two old Capital plastic holders, complete from 1916 to 1947. Most of the early dates grade AG (the 1916 is a pleasing VG and the 1921 is a strong, lightly cleaned Good) while those dated after 1921 are generally Good to VF. (Total: 65 coins)

- 6575 A low grade complete set of Walking Liberty halves. The coins grade from AG for the earlier issues and key dates to Fine for a few of the common, later issues. The '21-D has several cuts on both sides. (Total: 65 coins)
- 6576 A complete set of Franklin half dollars from 1948 to 1963 including the 1964 Kennedy issues. All coins grade from VF 30 to MS 60, the average being XF, and are housed in a blue Whitman binder. (Total: 37 coins)
- 6577 A complete set of Franklin half dollars in a black Capital holder, all MS 60 or better except for a couple of sliders among the early dates. (Total: 35 coins)
- 6578 A high grade Franklin half dollar set: complete from 1948 to 1963, most of the coins are MS 60 to MS 63, the 1949-S is MS 60 and the 1949 is AU and polished. The 35 halves are housed in a Capital plastic board. (Total: 35 coins)
- 6579 A complete set of Morgan dollars from 1878-1886 with several nice uncirculated pieces present and only the 1886-S grading below VF 20. Worth a closer look. (Total: 36 coins)
- 6580 **A complete set of Morgan and Peace dollars**, most in black Capital holders unless noted. 6703 1000 grain sterling silver ingot; (3) 1971 Albany Numismatic Society medals struck in 10K gold, sterling silver and bronze in a custom holder (all paper thin and roughly the diameter of a half dollar); Gerald Ford .999 silver Vice Presidential medal; and a Lyndon Johnson bronze Presidential medal. (Total: 6 items)

6704 Hard Times Tokens. A group of (17) common Hard Times tokens, most of which grade Fine to Very Fine, one is harshly cleaned and one is partially holed. (Total: 17 tokens)

6705 A tubed partial set of Walking Liberty half dollars, complete from 1916-1933 and also including a 1936 and a 1936-S, both XF 40. The balance grades AG 3 to VG 8. (Total: 28 coins)

6706 (19) better date Lincoln cents including 1909 VDB, 1909, 1909-S, (2) 1910-S, (2) 1911-D, 1911-S, (2) 1912-D, (2) 1912-S, (2) 1913-D, (2) 1913-S, 1914-D, 1914-S, and a 1915-S, all AG 3 to Fine 12 except for the '09 VDB which grades AU 55. Next are (2) 1932-D and (2) 1932-S quarters, all AG 3 to Fine 12, 1893 Columbian Fine 12, 1936 Cleveland AU 50, and cull representatives of a two-cent piece, half dime and Mercury dime. (Total: 28 coins)

6707 Early Date BU Franklins. The coins grade MS 60-63, included are: (6) 1948, one of which is AU; (2) 1948-D; (2) 1949; (2) 1949-D; (2) 1949-S; (1) 1950; (1) 1950-D; (2) 1951; (2) 1951-D; (2) 1951-S; (2) 1953; (2) 1953-D; and (2) 1953-S. Most show some degree of toning. (Total: 28 coins)

6708 (29) different Standing Liberty quarters in grades from Good 4 to XF 40. The two most notable pieces are a 1919-S VG 8 and a 1921 Fine 12. (Total: 29 coins)

6709 1883 No Cents nickel AU 50. Dimes: 1904, 1908, 1909, (2) 1911, 1912, 1912-D, (2) 1913, 1914, and (2) 1916 Barber, all Good-Fine. Quarters: (3) 1899, 1909-D, 1914-D, 1915, 1916 Barber, and (2) 1916-D, all AG-VF. Half Dollars: 1949-D and a 1964-D, both MS 60. Dollars: 1879 MS 60, 1886-S MS 62 Lightly Cleaned, 1887-S MS 60, 1889-S AU 55, 1890 MS 60, 1892-O MS 60, 1904-O MS 63, 1934-S VF 30 Harshly Cleaned, and a 1935-S MS 60. (Total: 34 coins)

6710 Mixed Modern Type and Canadian. Included are: 1943 cent MS 63; 1913 Type Two nickel MS 60; 1937-D nickel MS 64; 1935 dime AU 58; 1941-D dime MS 63; 1941-S dime AU 50 Cleaned; 1942 dime MS 60; 1945 dime MS 60; and (21) mixed common date Franklin halves MS 60-63. Canadian: 1859 cent Fine 15; 1896 five-cents AU 50; 1904 five-cents AU 50; 1912 five-cents AU 58; 1941 five-cents MS 60; 1918 ten-cents AU 50; and a 1920 ten-cents AU 58. (Total: 36 coins)

- 6711 A partial set of Mercury dimes in a tube, only a few common P-mints in the 1920s from being completed from 1916-1931. The 1916-D is a pleasing AG 3 with full date and mintmark and both 1921 issues display VG or better detail, although the D-mint has been noticeably cleaned. (Total: 37 coins)
- 6712 Mostly Civil War Tokens. (36) assorted Civil War tokens, mostly VF-XF; (1) 1794 Colchester token MS 60; (1) 1812 Washington halfpenny token Fine; (1) circa 1815 Wellington token VF 30; (1) Humble, Texas token from Ed's Place Fine 12 Dark and Rough; (1) circa 1900 Mexican Border token VF 20; and (1) 1864 two-cent piece Good. (Total: 42 tokens)
- 6713 Barber quarter lot of (44) different dates, 1892 to 1916 grading AG 3 to VG 8. Most all are common to slightly better dates, and the lot includes an 1892-S in VG 8. (Total: 44 coins)
- 6714 Silver bullion in the form of (2) 10 ounce bars, (5) one ounce bars; (9) one ounce American Silver Eagles, (24) one ounce rounds, and (4) sterling silver rounds with a net weight of approximately four ounces. (Total: 44 items)
- 6715 A group of mostly early Lincolns that includes a 1909 MS 60, 1910-S Fine 12, 1911-S Good 4, (16) 1924-D VG 8 to XF 45 (a few with problems), 1928-D AU 55, (7) 1931-S VF 20 to MS 64, (4) 1933-D VG 8 to AU 50 (the AU whizzed to appear Gem BU), (14) later dates, and a 1916-S Mercury dime VG 8. (Total: 46 coins)
- 6716 Mixed Type, Half Cents Through Commemoratives. Included are: 1829 half cent VF 20; 1838 cent Fine 15; 1846 cent VF 20; (2) 1848 cents VF 20; 1850 cent VF 30 Obverse Digs; 1855 Upright 5s XF 40; (3) 1857 Flying Eagle cents Fine-VF; 1862 cent XF 40 Cleaned; 1873 Closed 3 cent VF 30; (7) post-1900 Indian cents XF; (2) VF-XF two-cent pieces; 1852 three-cent silver VF 20; 1858 three-cent silver Fine 15; 1837 half dime Fine 12; (10) 1883 No Cents nickels AU; (3) VF-XF common date Liberty nickels; 1850 dime Fine 15; (1) VG Barber dime; (3) VF-XF Barber dimes; 1833 Bust quarter VF 20; 1829 Bust half VF 20; 1853 Arrows and Rays half dollar VF 30; 1935 Connecticut half MS 62; and a 1954-D Washington/Carver half MS 60. (Total: 47 coins)
- 6717 A group of Morgan and Peace dollars containing: (1) 1879-S; (1) 1880-S; (1) 1881-O; (1) 1882-S; (1) 1883-O; (1) 1884-O; (1) 1885-O; (1) 1886; (2) 1888; (3) 1891; (2) 1891-S; (2) 1896; (1) 1898; (1) 1900; (1) 1902; (2) 1921-D; (1) 1921-S; (5) 1922; (1) 1922-D; (1) 1922-S; (2) 1923; (1) 1923-D; (2) 1923-S; (2) 1925; (2) 1926; (3) 1926-D; (1) 1926-S; (1) 1927-D; (1) 1934; (1) 1934-D; and (2) 1935. The coins grade from XF to BU with several having been cleaned and/or whizzed. (Total: 48 coins)
- 6718 Uncirculated Lincoln cents: (19) 1909 VDB MS 60 to MS 64, most are red and brown; and (29) 1932 Ms 63 to MS 65, most all are full red. (Total: 48 coins)
- 6719 A group of (50) Morgan dollars containing the following: (1) 1883-S; (1) 1884-S; (2) 1885-S; (2) 1886-S; (3) 1887-S; (17) 1888-S; (3) 1889-S; (1) 1890-S; (1) 1896-S; (9) 1897-S; (2) 1898-S; (1) 1899-S; (2) 1900-S; (1) 1901-S; (3) 1902-S; and (1) 1904-S. The lot grades from Good to About Uncirculated with several of the coins being whizzed and/or cleaned. (Total: 50 coins)
- 6720 A wide assortment of dates in the Mercury (Winged Liberty Head) series. Most of the earlier coins are AU and most of the later dates are BU. Many of the more common dates are available here as well as a few scarcer ones also. Included are: 1916 P-S; 1917; 1918; 1919 P-S; 1924; 1925-D; 1927 P-D-S; 1928 P-D-S; 1929 P-D-S; 1930-S; 1934 P-D; 1935 P-D; 1936-P-S; 1937 P-D; 1938 P-D-S; 1939 P-D-S; 1940 P-D-S; 1941 P-D-S; 1942 P-D-S; 1943 P-D-S; 1944 P-D-S; and 1945 P-D-S. Quite a few full band and near full band coins are included. (Total: 50 coins)
- 6721 A mixed lot containing Washington quarters: (3) 1934 MS 64; (2) 1936 MS 64; (1) 1945-D MS 63; (1) 1947-D MS 64; and Franklin half dollars: (3) 1948 MS 63; (4) 1948-D MS 60 to MS 64; (1) 1949 MS 63; (1) 1949-D MS 63; (1) 1949-S MS 63; (1) 1950 MS 63; (1) 1950-D MS 60; (4) 1951 MS 62 to MS 64; (3) 1951-D MS 63 to MS 64; (1) 1951-S MS 63; (1) 1952 MS 63; (1) 1952-D MS 60; (1) 1952-S MS 63; (1) 1953 MS 60; (1) 1953-D MS 63; (1) 1953-S MS 63; (1) 1954 MS 62; (1) 1954-D MS 61; (1) 1954-S MS 62; (1) 1955 MS 63; (1) 1956 MS 64; (1) 1957 MS 60; (1) 1957-D MS 63; (1) 1958 MS 63; (1) 1958-D MS 62; (1) 1959 MS 63; (1) 1959-D MS 63; (1) 1960 MS 63; (1) 1960-D MS 63; (1) 1961-D MS 63; (1) 1962-D MS 63; (1) 1963 MS 64; and (1) 1963-D MS 63. (Total: 50 coins)
- 6722 (51) Peace dollars with a fair amount of 1927-1935 issues, some lightly cleaned, in VF-AU condition. (Total: 51 coins)
- 6723 (26) Standing Liberty quarters, mostly different and grading Fair 2 to VG 8; and (27) Walking Liberty half dollars dated prior to 1934, also Fair 2 to VG 8, being highlighted by a 1916-S Good 4 and a 1921-D AG 3+. (Total: 53 coins)
- 6724 A box of (55) Morgan dollars, all VG 8 to AU 50 and primarily pre 1921 examples. (Total: 55 coins)
- 6725 A group of (56) Barber half dollars in tubes, all different and grading Fair 2 to VG 8. (Total: 56 coins)
- 6726 A group of (34) Barber dimes, (17) Barber halves, (1) Seated half dollar, and (6) Standing Liberty quarters. All coins grade from AG 3 to VG 8, the average being Good 4. Most are common dates, but there are some better ones including a 1918-S quarter, VG 8. (Total: 58 coins)
- 6727 A tube lot of (59) different Barber quarters grading AG 3 to VG 8. (Total: 59 coins)
- 6728 A box of (60) Morgan dollars grading AG 3 to AU 50, the majority of which are dated prior to 1921 and containing a nice mix of dates. (Total: 60 coins)
- 6729 A group of Bust and Seated dimes in AG to Fine condition, some with light damage. Here are the dates: (2) 1823, (3) 1827, 1831, 1832, 1833, (6) 1834, (6) 1835, 1837 Bust, (4) 1838 No Drapery, (3) 1841, (3) 1841-O, (2) 1842, (2) 1842-O, (4) 1843, (2) 1845, (2) 1848, (3) 1850, (2) 1851, 1853 Arrows, 1854 Arrows, 1856 Small Date, (2) 1856 Large Date, 1861, 1862, 1875, 1876, 1886, 1887, and (2) 1891. (Total: 61 coins)
- 6730 Circulated 11-piece Wartime nickel set; five-piece set of uncirculated S-mint silver like dollars, 100th Anniversary of the Morgan dollar first day cover with a BU 1878-S dollar; 20-piece set of business strike Kennedy half dollars from 1964-1984; 1854 Type One gold dollar XF 40 Lightly Cleaned; and a stock book with (16) Morgan dollars, (6) Peace dollars, and a Mexican 2.5 gold peso including several uncirculated coins. (Total: 61 coins)
- 6731 More Morgans and a couple of Peace dollars. This lot contains: (3) 1878-S; (1) 1879; (1) 1880-S; (1) 1881-O; (5) 1881-S; (2) 1882; (1) 1882-O; (2) 1883-O; (2) 1884; (2) 1884-O; (3) 1885; (1) 1885-O; (2) 1886; (3) 1887; (3) 1888; (3) 1889; (1) 1890; (2) 1890-S; (2) 1896; (1) 1897; (2) 1898; (2) 1898-O; (3) 1900; (1) 1901-O; (1) 1902-O; (1) 1903; (1) 1904-O; (5) 1921 Morgan; (1) 1921-D; (1) 1921-S; (1) 1923; and (1) 1923-S. The average grade is AU 50 to MS 60 with a few MS 63s. (Total: 61 coins)
- 6732 An assortment of (63) Morgan and Peace dollars, mostly common dates and in grades from Fair 2 to MS 60. (Total: 63 coins)
- 6733 1890 dollar XF 40 and (63) Peace dollars including numerous 1927-35 issues in VF-XF grade, often cleaned. (Total: 64 coins)
- 6734 A box of U.S. minors that includes: three-cent nickel, three-cent silver, (2) Small Size Bust dimes, (6) Seated dimes (3) Barber dimes, (46) Mercury dimes, and (6) Roosevelt dimes. The early coins grade AG-VG while some of the Mercury and Roosevelt dimes are XF-BU. (Total: 65 coins)
- 6735 A tubed group of (65) different Barber half dollars, the majority of which are problem-free Good 4 or better examples. Only a few Fair-AG pieces are found among the earlier issues. (Total: 65 coins)
- 6736 A partial set of Barber quarters housed in tubes containing (65) different issues grading AG 3 to Fine 12. None of the three keys are included. (Total: 65 coins)
- 6737 (65) Morgan and Peace dollars grading AU 50 to MS 63. Most all are common dates, but also included are an 1884-CC MS 62; 1921 Peace AU 50; 1926 MS 60; and a 1927-D AU 50 Cleaned. A couple of the common dates have been either cleaned or whizzed. (Total: 65 coins)
- 6738 A box of (66) mixed Large cents all appearing to be common dates grading from AG to Fine, some with damage or cleaning. Included in this lot are an 1802 and 1803 as well as a 1783 Washington UNITY STATES (Fine 12) piece. (Total: 66 coins)
- 6739 Yet another dollar lot containing: (1) 1878-S; (1) 1881-O; (1) 1881-S; (1) 1883-O; (1) 1884-O; (1) 1885; (1) 1885-O; (1) 1887; (3) 1889; (1) 1891; (1) 1891-S; (1) 1896; (1) 1897; (1) 1897-S; (1) 1899-O; (2) 1900-O; (2) 1902-O; (2) 1903; (1) 1904-O; (3) 1921 Morgan; (1) 1921-S; (10) 1922; (1) 1922-D; (1) 1922-S; (20) 1923; (1) 1923-D; (3) 1925; (1) 1926; and (1) 1928-S. All coins grade from AU 50 to MS 63, the average being about MS 60. (Total: 66 coins)
- 6740 A brigade of whizzed and polished Morgan and Peace dollars that includes the following dates: (2) 1883-S, (8) 1889-O, (2) 1889-S, (3) 1890-CC, (2) 1891-CC, 1895-O, 1901, 1902-S, (3) 1924-S, (20) 1925-S, (12) 1926-D, (3) 1934-D, and (9) 1935. (Total: 67 coins)
- 6741 A tubed lot of (7) Seated dimes from Fair 2 to XF 40, some damaged; and (65) different Barber dimes AG 3 to XF 40, averaging Good. (Total: 72 coins)

- 6742 More Morgan and Peace dollars from the "Marathon Man School of Dentistry." Each coin has been relentlessly whizzed or polished. Included are: (2) 1883-S, (12) 1889-O, (2) 1889-S, 1890-CC, (3) 1891-CC, 1901, (2) 1902-S, (2) 1903-S, 1924-S, (19) 1925-S, (7) 1926-D, and (20) 1934-D. (Total: 72 coins)
- 6743 A box of half dollars including (9) Barber issues highlighted by an 1896-S VG 8, 1897-S VG 8, 1913 Good 6, and a 1915 Fine 12; and (66) Walking Liberty halves, most dated after 1933 and including a few AU-BU S-mints from 1940-1942. (Total: 75 coins)
- 6744 Franklin Halves. Included are (74) business strikes, mostly 1948-55, most of which are BU with a few XF and AU pieces included also; and (7) 1963 proofs, mostly PR 60-63. (Total: 81 coins)
- 6745 A large group of mostly Morgan and a few Peace dollars. Most all are common dates, but there are a few better ones including: (4) 1890-CC; (1) 1886-S; (2) 1891-S; (2) 1896-S; and (1) 1892-S. The lot grades from AG-3 to AU 55 with an average of XF 40 or so. (Total: 83 coins)
- 6746 A group of common date Indian cents from 1881 to 1908. The coins grade from AG 3 to XF 40, many have been cleaned and/or retoned. The average grade is VG to Fine. (Total: 90 coins)
- 6747 A partial set of Liberty nickels, lacking only the 1885, in grades from Fair 2 to XF 40 (1883 No Cents), some cleaned; and a similar set of Buffalo nickels, missing the 1913-D Type Two, 1913-S Type Two, Overdate, and Three-Legged, and grading AG 3 to MS 60. Two terrific starter sets in tubes. (Total: 94 coins)
- 6748 A group of (99) Morgan and Peace dollars, the majority of which are pre-1921 issues and grading AG 3 to XF 40. (Total: 99 coins)
- 6749 Morgan and Peace dollar lot consisting of (100) common date coins, mostly 1921 Morgans and 1922-23 Peace dollars. The grade range is from Good to AU, with the average being XF. (Total: 100 coins)
- 6750 An uncirculated Buffalo nickel lot containing: (8) 1935, all average MS 63; (2) 1936, MS 63; (5) 1936-D all average MS 63 to MS 64; (34) 1937 MS 62 to MS 64; and (52) 1938-D MS 62 to MS 65, some are lightly toned. (Total: 101 coins)
- 6751 Mixed Copper Lot. Included are (53) Wheat cents VG-BU; (20) circulated Civil War tokens; (3) circulated Hard Times tokens; (5) circ. Merchant tokens; (20) miscellaneous tokens; and a bauble or perhaps Christmas ornament (one of the more interesting items we've seen recently) made from four Wheat cents cut in half and welded together at the center with loop at the top for suspension. (Total: 102 items)
- 6752 A tube lot of (52) different Barber dimes and (61) various Mercury dimes dated 1931 and earlier. Grades are generally AG 3 to VG 8. (Total: 113 coins)
- 6753 A tube of (36) AG-Fine copper-nickel cents with all dates from 1859 to 1864 represented except for the 1861. Most are problem-free. Also included are (2) BU rolls, less one coin, of 1948-S nickels. (Total: 115 coins)
- 6754 An interesting lot of mostly type coins, too numerous to list individually, but broken down as follows: (12) Shield nickels; (9) Liberty nickels; (2) Buffalo nickels; (2) Capped Bust half-dimes; (23) Seated half-dimes; (3) Capped Bust dimes; (49) Seated dimes; (8) Barber dimes; (4) Mercury dimes; and (3) Washington quarters. The coins grade from AG to Uncirculated, the average grade being Good-VG. Some are slightly damaged and abused, but most are evenly worn. (Total: 115 coins)
- 6755 A mixed lot of various type coins grading Fair to AU, the average being about VG consisting of: (2) Large cents; (1) Indian cent; (1) three-cent silver; (2) Shield nickels; (1) Liberty nickel; (1) Seated half-dime; (5) Capped Bust dimes; (10) Seated dimes; (1) Mercury dime; (22) Seated quarters; (6) Barber quarters; (2) Seated halves; (4) Barber halves; (10) mixed Morgan and Peace dollars; and a cull lot of (48) damaged, corroded, slick, and abused U.S. and a few foreign coins. (Total: 116 coins)
- 6756 A mixed lot of mainly odd denomination American issues consisting of: (15) Flying Eagle cents; (37) two-cent pieces; (25) three-cent nickels; (13) three-cent silvers; (31) 1938 Jefferson nickels MS 60; and (8) 1939 nickels MS 60. The grade range is from Fair to XF, the average being VG. A few are corroded or damaged. (Total: 129 coins)
- 6757 (39) mostly different Liberty nickels including every issue except for the 1885 and 1886 in grades from Fair 2 to VF 20; and (100) Buffalo nickels with a wide assortment of dates and grades from AG 3 to XF 40. All of the above are in tubes. (Total: 139 coins)
- 6758 (25) mixed Wartime nickels MS 60-65; (20) mixed Mercury dimes MS 60-65; (62) mixed silver Washington quarters including some earlier dates VF 20-MS 63; (35) mixed Walking Liberty half dollars from 1938-1947 XF 40-MS 64, and a 1950 half dollar MS 60. (Total: 143 coins)
- 6759 Mixed 20th Century BU Rolls. Included are: a roll of (40) BU 1938-D Buffalo nickels; a partial roll of (8) BU nickels, four of which are common date Buffaloes, the other four are 1950-D Jeffersons; partial roll of (37) common date BU Mercury dimes; mixed date roll of (43) 1939 and 1940 Washington quarters; and a partial roll of (25) 1943-S quarters. (Total: 153 coins)
- 6760 Circulated Morgan and Peace Dollars. This lot includes 120 Morgan dollars which average XF-AU in condition; and 78 Peace dollars, VF-AU condition. There is a wide assortment of dates and mint-marks represented from both series. (Total: 198 coins)
- 6761 A box containing an assortment of (214) Indian cents including many copper-nickel dates. The grade range is from AG to XF, the average appearing to be VG. A few pieces are corroded and dark, but overall, the group is very pleasing. (Total: 214 coins)
- 6762 Original BU rolls of the following Lincoln cents: 1929, most appear choice uncirculated, and red and brown in color; 1930-S, choice uncirculated, most coins are reddish-orange with a few red and brown specimens; partial roll (19 coins) 1933, choice uncirculated, most coins are full red; and (2) rolls 1934, choice uncirculated, most are red with a few red and brown examples. (Total: 219 coins)

FINANCIAL STABILITY

Heritage Numismatic Auctions is a member of the Heritage Family of fine companies, the nation's largest and most financially secure dealers in rare coins. With an equity of over \$20 million, total assets in excess of \$30 million and annual sales of over \$120 million*, you can rest assured that upon settlement, you will be paid in full, and on time. We have never missed an on time payment in 20 years to over 7,000 consignors.

In addition, Heritage Numismatic Auctions is able to offer an optional performance bond through *Lumberman's Mutual Casualty Company* (an affiliate of the *Kemper National Insurance Companies*). This policy assures that you will receive either the proceeds of your auction consignment or the safe return of the consignment.

Heritage's enviable record of financial integrity has been proven time and again over the past twenty years, and offers you both peace of mind and the absolute assurance that there will never be an "unpleasant surprise" at the time of settlement.

**Heritage is the only numismatic auction company with certified financial statements (audited by Arthur Andersen).*
